The Romantic Pay Off Bonus Payment? Doubtful Wireless Power—When? When Earthquakes Come

—By Arthur Brisbane

IN THIS LAND of the free and home of the brave, the "pay-off" system assumes various disguises. On Long Island, for instance, there was a gasoline station located where nobody would be apt to buy gasoline. That gas station was a "pay-off" stop. Nearby, bootleggers landed goods from ships off Long Island shore. After undisturbed landing, the "prohibition enforcement officials" of various kinds, who had obligingly failed to see anything, would drive to the gasoline station, order gas, what could be more natural, and get, perhaps, $1000 in change for a $1 bill.

In Chicago, the pay-off station is said, in the posthumously revealed confession of Mr. Moe Rosenberg, to have been the latter's junk shop.

When Rosenberg was asked why he had not paid income tax on five hundred thousand dollars' income, he replied:

"Because that money, which I got from the public utilities, gas, electric companies, etc., was not for me. I was simply the pay-off man, handing it to politicians, in accordance with orders."

Mr. Rosenberg, according to his story, paid 395,000 in two years to the late Mayor Cermak of Chicago, and substantial sums to other patriotic politicians, legislators, aldermen.

Innocent Mr. Rosenberg understood that the money was always given to politicians to be spent unlawfully, for political purposes, and expenses.

The House of Representatives, 295 to 125, passes a bill that would pay two thousand four hundred million dollars of the bonus now. The vote is big enough to override the President's veto, announced in advance. Whether the Senate will vote to distribute two thousand four hundred millions among veterans, in new United States money, remains to be seen.

That the Senate will override the President's veto is so improbable that discussion of the proposed twenty-four hundred million dollar payment is unimportant.

If the President had decided to let the money be paid in green American dollars, which is all the soldiers will get eventually, not insisting on issuing bonds that pay interest, and make every dollar cost double, many people would have approved.

When you suggest handing new money direct to soldiers or workers, instead of first handing interest-bearing bonds to bankers, you are told:

"That is inflation."

What do you call it when government issues billions in bonds? Isn't that inflation? Can't a man wreck himself financially just as quickly issuing interest-bearing mortgages or notes as he could issuing his "I O. U.s" without interest?

Does the government admit that if it were once to begin printing money, it would not have brains enough to limit its printing at least as carefully as it would limit issuing interest-bearing bonds? The government must have little faith in its will power if it thinks printing a few billions of new paper money would go to its head, and result in ruin.

Every day brings new, amaz-

1400 MILTON PUPILS IN NEAR RIOT

Police Save Teacher From Beating; Lunch Place Boycotted

Unrest in the schools, which cropped out in Melrose the first part of the week, spread to Milton today when the greater part of 1400 students there instituted a boycott on the high school lunchroom and precipitated a near riot.

The disturbance arose during the noon recess when a teacher attempted to halt a petition being circulated among the students protesting conditions in the lunchroom. The arrival of a detail of police, however, averted the mauling of the teacher at the hands of the enraged students.

Although the "free-for-all" was avoided, the boycott went on, and even Principal George C. Marsden admitted that receipts fell off 50 per cent. Boycott leaders, however, insisted that their action curtailed business 70 to 80 per cent.

CONDEMN FOOD

Signs of trouble were first observed yesterday when students wrote on the classroom blackboards, "Boycott the lunchroom!"

Today most of the students carried their lunches and business in the lunchroom was virtually at a standstill.

Protesting pupils claim that the food is sometimes good and just as often is poor. They further claim that they could buy the same quality of food cheaper outside, and pointed out that the same ice cream cone for six cents can be purchased elsewhere for five.

In a move to prevent a similar occurence tomorrow, Principal Marsden appointed a committee of 18 pupils to list all the complaints and protests and submit them to him in an effort to straighten out the situation.

POLICE ON GUARD

In Melrose, however, a threatened strike was averted today after certain demands had been met yesterday by authorities.

Zero hour for the strike was 1:30 o'clock today, and at that time, the fire and police chiefs stood guard outside, ready for any trouble.

In addition, all school doors were locked, and no one was allowed in or out. But at 1:30, a few grinning faces appeared at the windows and then all was quiet. There was no strike and sessions were resumed as usual.

Youth and Age Die in Pact

For weeks Frederick Cole, 72, and his pretty wife, Hattie, 44 years younger, had been talking of suicide—and today they carried out a pact in their tenement in Village st., South End.

Lying side by side on a bed, with gas flowing from a rubber tube whose end had been placed beneath their pillow, the bodies of the couple were found by Mrs. Cole's mother, Mrs. Tina Goodman, who lives in the same house.

Only a week ago, according to Mrs. Goodman, she purchased a grave for her daughter and elderly son-in-law with $65 given her by the daughter.

The mother declared the couple had frequently talked of dying soon, and because of this the mother, several weeks ago, requested the mail man who delivered welfare checks to her and Cole to make certain that Cole and his wife were in when he rang the bell.

Capt. James Clafin of South Station said that on reports from neighbors the young wife had been threatening suicide, he personally visited the Cole home a few weeks ago.

After talking with the couple, he said, he advised that Mrs. Cole be committed to an institution for observation, but the elderly husband would not consent to it. He suggested that because of the gas tube and the fact that the door seams and the keyhole had been stuffed with wet paper, he was satisfied the couple had agreed to die together.

EXTRA

'L' CARS CRASH, 2 WOMEN HURT

Two women were injured and several other persons were shaken today when a Huron ave., car collided with an empty Arlington car in the Harvard sq., subway.

The injured women, both of whom were treated at the Cambridge City hospital, were Mrs. Ellen M. Foley, 57, and Mrs. Charles McElroy, 46, of Lexington and Cambridge.

According to Elevated officials, the Huron ave. car, operated by James Wallace of Harrison st., Cambridge, struck the Arlington car which had just discharged passengers.

The injured women were in the Huron ave. car and were thrown against an iron bar.

Misjudgment of distance between cars was blamed for the accident.

The Life of Our Lord, by Charles Dickens

(The literary event of the current century is the publication here for the first time of this manuscript by Charles Dickens for which $200,000 was paid. Written for his children in 1849, it is now given to the public. Kept as a precious family secret for eighty-four years, it is now released only upon his expressed wish that it be printed only after death of his last living child.)

CHAPTER THE EIGHTH

Part One

THERE was a certain man named Lazarus of Bethany, who was taken very ill; and as he was the Brother of that Mary who had anointed Christ with ointment, and wiped His feet with her hair, She and her sister Martha sent to Him in great trouble, saying, Lord,

WOMAN DIES IN 16-STORY PLUNGE

Dives From the Hotel Manger Window to Causeway

Picture on page 3

Mrs. Clarence W. Johnson, 47-year-old wife of a widely-known Lynn business man, today plunged from a 16th floor window of the Hotel Manger and was dashed to death on the North Station sidewalk in Causeway st.

Hundreds of persons bound for stores and offices were passing the building at the time.

Her identification was made possible when a hotel clerk recognized her as the woman who had registered at the hotel several hours earlier at 8:15 a. m.—and was asked for a room on one of the upper floors.

CARD IS FOUND

When the police entered the room to which the clerk had assigned her they found it empty save for a small overnight bag, handbag and a woman's coat. In the handbag they found a library card bearing the name of Ruby Johnson.

Her husband is a member of the firm of William Johnson & Co., Lynn leather merchants, and lives at 23 Monroe st., Lynnfield. She was the former Ruby E. Breed, daughter of one of Lynn's oldest families. Besides her husband, she leaves an 11-year-old son, Clarence, Jr.

Mrs. Johnson had been mentally ill for several weeks, it was learned, and recently went to Swampscott to stay with Mrs. Gertrude I. Titus, in Sheridan rd. Mrs. Titus once conducted a sanatorium in Beverly.

The woman left the Swampscott house about 8 a. m., according to Mrs. Titus.

HAD APPOINTMENT

She had an appointment to visit a Boston nerve specialist with her husband this afternoon, according to Mrs. Titus.

Ralph Lovuolo, 29, a taxi driver,

Prince Sixte of Hungary Is Dead

Paris, March 14 (AP)—Prince Sixte de Bourdon-Parme, brother of the former Empress Zita of Hungary and who negotiated for World War peace in the spring of 1917, died today. He was 47 years old.

Dillinger Escape Probed by Jury

Crown Point, Ind., March 14 (AP)—A special grand jury was empaneled today to investigate how John Dillinger was able to break out of jail.

Balances and Receipts

Washington, March 14—Today's treasury balance, $4,801,493,524; U. S. customs receipts, $10,309,541.

Norma's One Wish as Lame Girl Was Silk Stockings

WHEN ALL WAS HAPPY WITH NORMA
Mrs. Margaret Smith Brighton, mother of beautiful Norma Millen, held as an accessory in the Needham bank bandit killings, looked fondly back over the years of her daughter's life in her article today.

Bride's Mother Recalls Day of Braces, Taunts and Child's Great Patience

By MRS. MARGARET BRIGHTON
as told to
PEGGY DOYLE

When I read that my daughter, Norma Brighton Millen, was lured into a life of crime by her desire for clothes and trinkets, it gives me as good a measuring opportunity as anything could to realize how utterly wrong this pitifully burdened girl has been presented to the public in recent weeks.

I think of her nearly 10 years ago, with her little crippled legs held in braces over which her stockings sagged unevenly. Her beautiful face attracted adults and her crippled condition quickly won their sympathy. But her strange gait and surgical supports frequently amused thoughtless children. Never did I hear her complain of the slights accorded her, due to her inability to run about and play, or to the comments made upon the strange appearance presented by her mechanically-braced legs.

HER ONE GREAT DESIRE

Sometimes, when my eyes would be full of tears because of the misfortune she bore so patiently she would make a remark which I have never forgotten. It was:

"I wish I could just have smooth stockings."

And when I would ask why, or sympathetically assure her that she soon would have, she would say, quite wistfully:

"I just want to dress nice like everybody else. So no one will ever say anything to me."

I am willing to admit that Norma was very happy when circumstance, after long years of suffering and embarrassment, terminated thoughtless hurts and even brought her sincere compliments. Is that beyond understanding?

In my own experience with human beings, I have found that countless persons who have no affliction whatever may be irritable in nature and ever-complaining. I am a nurse. I have some measurement of human emotions and I have had vast experience with the depression and impatience which can pardonably be borne from those who are really burdened or afflicted.

Believe me, I have never known a more patient person in affliction than Norma has been—and she will be even in what has come to her now. She has borne trouble that she was not responsible for for years, and the situation in which she now finds herself will prove her staunch and willing to wait for her day of vindication.

NORMA HAS NEVER SHOWN ILL TEMPER

To the casual reader it might seem that I am protesting too much. It is entirely true that every one of the charges brought against the group into which, by the rarest of misfortune, Norma has become involved indicate characteristics which are precisely opposed to her every element of personality.

Far from brutality, or ruthlessness, or selfish viciousness, this unhappy girl has been a model of kindness, affection and never-failing

MILLENS GET NO COUNSEL; BID SENT DARROW

Flower Sent to Norma by Mystery Friend; Abe's Plans Laid

BULLETIN

Joseph Millen, father of the accused brothers, and Albert R. MacKusick, "ousted" counsel, made an appointment to confer with Dist.-Atty. Dewing on a "matter of serious importance" late today.

Other Stories, Pictures on pages 2, 6 and 7.

Norma receives flowers in jail from her mysterious benefactor . . . Saul Messinger is temporarily released from his cell for a motor ride . . . Abe Faber's line of defense takes definite form . . .

But Murton and Irving Millen can't get a trial lawyer.

A call for the nation's most famous criminal case attorney, Clarence Darrow, to emerge from retirement and take the case of the brothers Millen was one development which arose today.

It was sounded by Albert R. MacKusick, the attorney ousted from the case yesterday by the Millen family. MacKusick still persisted today that he was counsel for the Millens and said he was leaving for Washington tonight to discuss the case with Darrow and other prominent persons.

While he was making his announcement, Joseph Millen, father of the defendants, was making an ineffectual plea to George Stanley Harvey to re-enter the case. Harvey refused.

William G. Clark, chief of defense counsel for Jesse R. Costello, the Peabody widow acquitted of a murder charge at last summer's famous trial, also declined to represent the Millens.

There was a report that William

LATE NEWS BULLETINS

100 REPORTED KILLED IN SAN SALVADOR BLAST

New York, March 14 (INS)—One hundred persons were reported killed or missing following a dynamite explosion in the Salvadorean town of La Libertad, the Commercial Cable Co. was advised today by its manager at San Salvador.

CONSTITUTION WILL RETURN TO BOSTON

Washington, March 14 (INS)—Return of the battle-scarred U. S. S. Constitution, "Old Ironsides," to Boston, has been decided upon, it was learned at the Navy Department today. The vessel is now docked at San Diego, Cal. Formal transfer orders will be issued tomorrow.

187 Saved in Fire on U. S. Gunboat in China Bay

Hongkong, March 15 (Thursday)—The U. S. gunboat Fulton caught afire after an explosion in Bias Bay, 50 miles northwest of here, tonight, and all hands abandoned ship. All are believed safe.

The British destroyer, H. M. S. Wishart, reported she would arrive in port at 2 a. m. with 139 men from the Fulton, including Capt. McHenry and his officers. The Chinese S.S. Tsinan reported she had 48 members of the crew aboard.

Another British warship, H. M. S. Whitehed, stood by the burning ship after a two-hour journey from Hong Kong under forced draft to the rescue of Americans. The Whitehed searched for missing lifeboats.

The Fulton was launched at the Fore River yard, in Quincy, on June 6, 1914. First known as the Niagara, her name was changed before she was commissioned by the navy. She was not only the first American submarine tender, but she was also the first to be powered by a Diesel engine.

PERMANENT LABOR BOARD URGED BY SECRETARY PERKINS

"COLLAPSE" FEARED UNLESS NRA BOOSTS WORKERS

A. F. of L. Demands Showdown With Auto Employers on Pay, Hours and Collective Bargaining at Washington

Washington, March 14 (AP)—Creation of a permanent labor board was recommended to the Senate labor committee today by Secretary Perkins as "a very important step forward in the management of community life and the practice of democracy."

The labor secretary added her voice to the plea of Senator Wagner (Dem., N. Y.) for enactment of his bill to create a permanent labor board, arm it with enforcement means and protect labor's right to collective bargaining.

Wagner had opened the hearing on his bill with a warning that unless labor was given a fuller participation in the recovery program there would be another collapse.

A record assembly of industrial and labor leaders attended the National Labor Board's hearing today on automobile strikes.

William S. Knudsen, operating vice-president of General Motors, led the list of industrial spokesmen and William Collins, American Federation of Labor organizer in the Detroit area, brought in nearly a hundred representatives of the workers in plants of the Michigan automobile cities and from Cleveland.

Asked about the Automobile Chamber of Commerce's action in recommending a 36-hour week, Collins said it was not possible to say how far this would meet worker demands until the actual increased pay scales were made public. The shortened work week, he said, would make no difference once the retail dealers were stocked with cars and the spring production rush over.

PAY BOOST ASKED

Collins' group has demanded a 20 per cent increase in pay, a 30-hour week, reinstatement of discharged workers and an industrial election to choose worker representatives for collective bargaining.

General Motors' officials brought with them 40 members of the Works Council, the company union of their plants.

Clay Williams, North Carolina tobacco man and vice-chairman of the labor board, opened the session.

Newton D. Baker told newspapermen he was there merely as a private citizen, with no interest on either side.

With Knudsen, representing the employers, were John Thomas Smith, of New York, general counsel for General Motors; Donaldson Brown, director and counsel for the same company; Harlow Curtice, president of Buick Motor Co., and Edward A. Fisher of Fisher Bodies.

The strike threats before the board today were regarded by its members as grave. They affect Buick, Chevrolet, Fisher Body and Hudson plants, mostly in the Michigan automobile making area, but also involving assembly points. Strikes already are in progress at Nash Motor plants in Wisconsin.

There was little expectation here that the labor men would be put off by extended or inconclusive negotiations, since they are convinced that their battle cannot be won after the production rush is over.

A new economic collapse unless labor is given a further participation in the recovery program was predicted by Senator Wagner, chairman of the board.

The New Yorker warned that "wages are again lagging behind production and profits." He added:

"We may expect another collapse if this disparity continues."

SETBACKS SHOWN

While trade associations have been strengthened and industry has gained control of code authority mechanisms, he said:

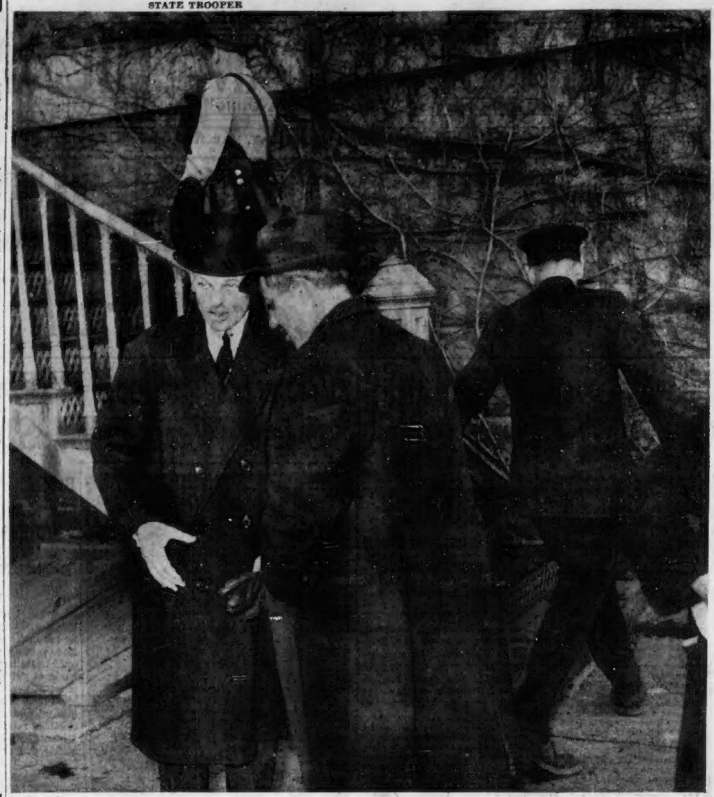
Co-operation among employes "has received one setback after another."

Wagner said the labor board had relied upon the prestige of its members and public sentiment, but that "in recent months the board has been confronted by some large employers who ignore public sentiment, who flaunt the clear intent of Congress, and who are a law unto themselves."

"This is extremely unfair," he said, "to the vast majority of employers who want to obey the law and it is disheartening to the millions of working people who see what was held up to them as a new charter being treated as a scrap of paper."

Dad Sees Guards Change -:- Over Norma in Her Cell

STATE TROOPER



REV. HR. BRIGHTON — REPORTER — DEDHAM OFFICER

Rev. Norman Brighton of Natick was in Dedham jail when the guards that stand constantly over his daughter, Norma, bride of Murton Millen, was changed. The state trooper and the Dedham policeman may be seen mounting the stairs preparatory to going on duty. Rev. Mr. Brighton is discussing the case with a reporter. (Boston American photo.)

Auto Pay Raise and Hours' Cut for 500,000 Speeded Up

Detroit, March 14 (INS)—The automobile industry moved swiftly toward a general wage increase and shorter working hours for its half million workers.

On the heels of Henry Ford's return, yesterday, to his pre-depression minimum wage of $5 a day, the National Automobile Chamber of Commerce recommended that its member companies adopt the 36-hour week, hire 20,000 additional men and raise wages to compensate for the shorter hours.

At the same time the chamber issued a statement serving notice on the federal government and the labor unions that the manufacturers intend to make an issue of the dispute over company unions.

"Labor union officials," the statement said, have taken the position that "if a majority of the workers in a plant choose to bargain with employers through union labor officials or committees, all the employes of that plant must do so."

The new 36-hour-week policy would affect about 85 per cent of all workers employed by the automobile companies. The small percentage aside from the wage and hour revision are office workers, clerks, accounts and various high-salaried experts.

Richard W. Child Sails for Europe

New York, March 14 (AP)—Richard Washburn Child, former U. S. ambassador to Italy, sailed on the S.S. Washington today to make a tour of Europe, on which he will gather the economic views of foreign statesman for the U. S. Department of State.

He said his work would be chiefly that of an interpretive journalist.

SHOE WORKERS GO ON STRIKE

Nashua, N. H., March 14 (AP)—The 650 employes of the Lasell and Fletscher shoe factories walked out today after differences developed over the signing of a new contract.

Practically all are said to be members of the United Shoe and Leather Workers Union, which is involved in the Haverhill, Mass., strike.

Barbara Holmes gives her patron a card of introduction from the buyer to the agency or person offering the rental.

President Eyes Single Air Force

Washington, March 14 (AP)—President Roosevelt has ordered a detailed and comprehensive survey of every aspect of American aviation designed to give the United States a unified air policy.

Every governmental division in any way interested in aeronautical questions is to be called on to make a study and report so the entire question can be studied by an individual, or commission, for creation of an up-to-date co-ordinated plan.

President Roosevelt is satisfied the present governmental aeronautical set-up does not work and has determined that a definite, efficient, workable plan of unified control be worked out and put into practice.

SURVEY STARTED

The special committee named by Secretary of War Dern, and headed by Maj.-Gen. H. A. Drum, assistant chief of staff, has already started a survey of the Army Air Corps with particular reference, at the present time, to the carrying of air mail by the Army.

Other surveys, to be worked in to the unified and co-ordinated plan are to be made by the Navy, Marine Corps, Department of Commerce, Customs and Bureau of Internal Revenue.

Orville Wright, inventor of the airplane, today informed Secretary Dern that, because of illness, he would be unable to serve on the special committee.

CHAMBERLIN ACCEPTS

Col. Clarence Chamberlin, transatlantic flier, telegraphed his acceptance to the War Department and let it be known he will come to Washington whenever the committee meets.

No answer has yet been received from Col. Charles A. Lindbergh, the third civilian member of the special committee.

The President, it is understood, will make no definite move to reorganize any of the present governmental air units, including the army air service, until he has the comprehensive report on every phase of aeronautics he has requested.

It was definitely stated the White House has no immediate plans for the organization of a separate air corps.

FOULOIS ON TOUR

Secretary Swanson of the Navy expressed "doubt whether efficiency or economy could be served" by taking the Marine Corps air force from under the charge of the Navy and placing it elsewhere.

The secretary told reporters ill his regular press conference the whole set up of the Marine Corps and always been and was continuing to be an integral part of the Navy.

Meanwhile, Maj. Gen. Benjamin Foulois, chief of the air corps, started a survey of the Army air mail routes with a view to determining when the Army could, safely, resume flying the mail, and the Senate postoffice committee continued its hearings on the permanent airmail bill to turn the airmail back to private aviation.

The committee decided to ask Lindbergh, Chamberlin, Mitchell and Eddie Rickenbacker to give their views on the bill.

STATE PAY CUT RETURN SEEN NEAR NOW

Appointment of the House, Senate Adjusters to Speed Solution

Differences between the State Senate and House on the matter of restoration of salary cuts for State employes is expected to be settled by the appointment of conference committees.

The Senate passed to be engrossed a bill for the restoration of one-third of the slash in salaries. The measure will now go to the House for concurrence, but the fact that the House last week passed a bill for full restoration is expected to result in failure for the present measure.

Legislators are of the opinion that the appointment of conference committees to adjust the differences between the two bodies was the only solution to the matter.

The Senate bill was ordered to a third reading a few days ago and at yesterday's session brought lengthy and bitter debate before the measure was finally passed to be engrossed.

Featuring the lively Senate session were an attack on Mayor Mansfield by Senator William F. Madden, of Roxbury, and the introduction of a bill by Senator Joseph A. Langone, of Boston, providing that the salary of the mayor of Boston be reduced from $20,000 annually to not more than $10,000.

The Langone bill will require the support of four-fifths of the members of both the Senate and House before it can be admitted for consideration at this session.

Senator Madden's attack came as the result of discharges of city employes.

He charged the mayor with "lying" and not "talking straight" on the matter of salaries and tax rates and declared he was following the dictates of State st., the Chamber of Commerce and the Municipal Research Bureau.

12 N. E. MEN ON MOVIE BOARDS

As even dozen prominent New Englanders have been appointed to important positions under the Motion Picture Code Authority, according to exclusive information reaching the Boston Evening American today.

Those named to the grievance committee under the code authority are: Thomas B. Spry, head of Warner Bros. in Boston; Herman Rifkin, independent distributor; Joseph Brennan, manage: Loew's State, Boston; Martin Tuohy, Pawtucket; Atty. George R. Farnum, Boston, former assistant U. S. Attorney General.

Those appointed to the clearance board include R. R. Cropper, head of R. K. O. in Boston; John J. Dervin, manager for United Artists here; Max Levenson, a theater owner; M. J. Mullin, receiver here for the Public Circuit; Charles Hoggdon of Wakefield; Frank Lydon of Dorchester, the last two being theater owners, and Judge Robert Woicott, associate justice of East Cambridge district court.

New Peak in Week Army Polo Game

San Antonio, Tex., March 14 (AP)—Lieut. Nelson J. Delaney, of Fort Brown, died here last night of injuries received in a polo game at Brownsville, when his horse fell.

Washington, March 14 (AP)—Funeral services for Col. Gordon Johnston, chief-of-staff of the second division, who died from injuries received in a polo game, will be held in Arlington National cemetery tomorrow. He was the most decorated man in the American army.

SENATE KILLS ST. LAWRENCE SEAWAY PACT

Walsh and Coolidge in Opposition With 22 Other Democrats

Washington, March 14 (AP)—Administration efforts for ratification of the St. Lawrence Waterway Treaty with Canada failed miserably in the Senate today on a 46 to 42 vote.

This meant but a majority of four in favor of the pact, instead of the two-thirds majority required to get it across.

The White House had plenty of advance notice as to how the treaty vote was headed, but this served only to have the President let it be known emphatically that he would send the pact up again for consideration when there is time.

The waterway is going to be built anyway, commented the President to reporters bordering his desk, and he fears rejection of the treaty means Canada will control the project.

That the plan is a natural one and so cannot be thwarted was the further gist of his view.

Democrats who opposed President Roosevelt on the treaty are:

Adams, Bailey, Byrd, Clark, Connally, Coolidge, Copeland, Dieterich, George, Lewis, Lonergan, Long, McCarran, McGill, Neely, Overton, Reynolds, Russell, Stephens, Tydings, Wagner and Walsh.

Republicans who voted for ratification are:

Borah, Capper, Cousens, Cutting, Fess, Frazier, Gibson, Johnson, La-Follette, Norris, Nye, Robinson of Indiana, Schall and Vandenberg, with Shipstead, Farmer-Laborite.

The positions of Caraway, Fletcher, King, Thomas, Okla., and Trammell were not announced.

The only pair announced was Senators Norbeck (R-S. D.) and Murphy (D-Ia.) paired for, with Glass (D-Va.) against. In voting on a treaty there has to be two senators on one side paired with every senator on the other side of the question.

Vets "Gag" Rule Is Rejected by House

Washington, March 14 (INS)—In a fresh revolt against the administration, the House today rejected a "gag" rule designed to pave the way for a compromise on modification of the veterans' economy act and restoration of the federal pay cut. The vote was 169 for, and 247 against.

The issue came before the House on the special rule to send the independent offices supply bill, carrying veterans and pay cut amendments, to conference.

Failure of Democratic leaders to secure approval of the rule is expected to throw the veterans' economy and pay cut issues open to a free-for-all fight on the floor.

The plan to send the bill to conference was adopted as a means of reaching a compromise with President Roosevelt. Democratic leaders have announced that the President will veto the bill in its present form.

As the measure passed the Senate, it modified the veterans economy act of last month to benefit Spanish-American and World War veterans, provided for restoration of five per cent of the 15 per cent pay cut Feb. 1, and the remaining ten per cent on July 1.

Cost of the amendments was estimated at $350,000,000. Administration leaders declared the amendments would wreck the economy program.

The House action indicates that it will vote for the Senate amendments or even adopt a more liberal policy toward veterans.

Ware Priest Given New Post in Poland

Ware, March 14 (AP)—Rev. Michael Kolbuch, M. S., pastor of St. Mary's parish and superior of the La Salette Missionary Order here, said today he is to be elevated to provincial of the order in Poland.

CORPSE LITTLE, 14 BANKS SUE

Charging that a "ringer" took a physical examination for insurance instead of the man in whose name the policies were taken out, fourteen savings banks today sought to have 14 $1000 life insurance policies nullified in Judge Wilford D. Hall's session of Suffolk superior court.

Testimony introduced showed that the policies were issued on the life of Michael DiPaolo of East Boston, and payable to his widow, Theresa.

The man examined was five feet, eight inches tall, and weighed 185 pounds. When DiPaolo's body was exhumed, it was found to weigh 135 pounds, and was five feet four inches tall.

Medical Examiner Timothy Leary testified that it was impossible for DiPaolo to have lost so many pounds in the short time from his death on Aug. 28, 1932, until the exhumation on Sept. 23, that year. The body would have shrunk only a fraction of an inch, Dr. Leary said.

Barbara Holmes gives her patrons a card of introduction from the buyer to the agency or person offering the rental.

2 Charges Give Defendant Full Day in Court

Today was Edward McKane's day in court—and it turned out to be a full one.

McKane failed to answer in superior court when his name was called for trial on a statutory charge with Mary Graham of the South End.

A default warrant was issued and a short time later, in a courthouse corridor, Special Officer Francis J. O'Connor of South End station sighted McKane and seized him.

In the detention pen, McKane was searched. Then Acting Deputy Sheriff Patrick J. Melia saw a .22-caliber automatic, fully loaded, lying on a chair which McKane had just left.

McKane refused to admit ownership of the gun, but O'Connor obtained a complaint charging McKane with carrying the gun.

Arraigned on the gun charge, McKane drew a sentence of 2½ years in the House of Correction, the maximum, and was held in $5000 when he appealed. He still awaits superior court trial on the statutory charge which won for him a sentence of three months in lower court.

Policeman's Club Saves Man's Life

Hardy Selinsky of Revere, is thankful that policemen carry clubs. Hurt in an automobile accident in Rutherford st., Charlestown, today, Selinsky was in danger of bleeding to death from a wound in his left hand.

Patrolman Elmer Raymond of Somerville, on traffic duty at Somerville ave., tore the strap from his club and applied it as a tourniquet to Selinsky's arm. Raymond then took him to Central Hospital, Somerville.

Bail Refused 2 in 15-Cent Killing

Alfred Melchin, 19, and Joseph Moulevitch, 18, both of South Boston, were arraigned in Suffolk superior court on first degree murder charges growing out of the slaying of 65-year-old John J. O'Donoghue last month. Both pleaded not guilty and were held without bail by Judge Cox.

The youths were arrested following the finding of the aged man's body, and they are alleged to have stolen 15 cents from him.

DIVORCEE WHO 'COULD DIE FOR LOVE' SUES FOR $200,000

Suicide Leap

From a 16th floor window of the Hotel Manger, Mrs. Clarence W. Johnson of Lynnfield, plunged to her death today. The open window is shown high above the street. (Boston American photo.)

HALE IS FLAYED AS PAROLE IS DENIED HIM

3 N. H. Councillors Call Banker Worst Criminal in State

Concord, N. H., March 14—With a scathing denunciation of the man and his crimes, the Governor's Council today flatly turned down the plea of Banker Arthur H. Hale of Manchester for parole.

In state prison for a year and 11 months on a three to five-year term for misappropriating $5,000,000 in deposits of the Merrimack River Savings Bank, Hale had sought his freedom.

Instead, three of the five councillors not only denounced the man for his acts, but condemned him for asking parole.

The banker, now 72, brought more suffering to the working people of New Hampshire than any other man ever caused, Councillor Alphonse Roy of Manchester declared.

HIT AS HYPOCRITE

"If this had been a poor man, he would not be eligible for parole now, because he would have received a sentence more in keeping with what he did," Roy said.

Councillor Charles E. Carroll, of Laconia, was equally bitter in his attitude.

"I would have had more respect for this man if he had been an out-and-out crook," Carroll said, "but he went around for years with a Bible under his arm bigger than himself. I wouldn't ask the people of Manchester to have to look at him riding around in a high-powered car with a chauffeur in the front seat.

"Some people say it is too bad for this old man—but there are thousands of men and women in Manchester, thanks to him, who are confined for life terms in cotton mills and shoe factories."

NEW HEARING GRANTED

On motion of Councillor Francis P. Murphy of Nashua, the parole petition, which had been unanimously approved by the parole board, was indefinitely held up.

Gov. John G. Winant, declaring that he wanted to give the banker the same treatment as any criminal, announced he would hear further evidence from Hale in two weeks as to extenuating circumstances.

But the attitude of three of the councillors doomed any favorable action in Hale's behalf.

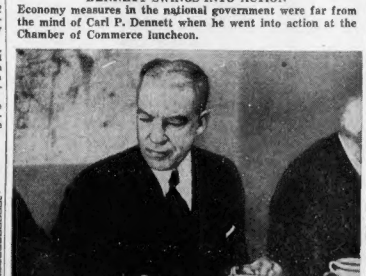
Candid Camera Snapshots

A MOMENT FAR FROM CRIME SCENES
Carl P. Dennett, vice-president of the Chamber of Commerce, was all eyes as he noted the ease with which State Commissioner of Public Safety Daniel Needham carved at the luncheon of the Chamber of Commerce.

THOUGHTS FAR AWAY FROM FOOD
Gen. Daniel Needham seemed to have his thoughts centered on the utterance of some speaker

RIGHT DOWN TO AN EATING LEVEL
Matt B. Jones, president of the New England Telephone & Telegraph Company was bending right into things when Candid Camera went into action for this picture at the Chamber of Commerce luncheon. Daniel J. Lyne, member of the State Crime Commission, is shown at the right.

DENNETT SWINGS INTO ACTION
Economy measures in the national government were far from the mind of Carl P. Dennett when he went into action at the Chamber of Commerce luncheon.



A STUDY OF THE CHAMBER LEADER
Eliot Wadsworth, president of the Boston Chamber of Commerce, was caught in this excellent character study at the luncheon of the Chamber at which Gen. Daniel Needham outlined the police war on crime. (Boston American photos.)

CHICKEN RAISER SOBS FOR HER RICH WOOER

Mrs. De Lory Alleges G. C. Scott Told Her They'd Be Wed

"I would die for him. I can't help it because I love him."

With tears in her eyes, Mrs. Anne Frances DeLory, Cochituate divorcee, and chicken farmer, today reiterated her love for the man she is suing for $200,000 for breach of promise and assault.

The defendant is George C. Scott, wealthy Framingham financier and father of three grown children.

In the offices of her attorneys, former Asst. Atty.-Gen. Louis H. Sawyer and Maxwell Sawyer, 70 State st., Mrs. DeLory told a reporter of her friendship with Scott which began in May, 1932, when Scott "picked her up" after rescuing her hat, which had blown off in the wind at Tremont and Beacon sts., Boston.

SHOWERED WITH GIFTS

The friendship, she said, ripened into love. She claims that Scott frequently promised to marry her, showered her with gifts, flowers and wrote sentimental poetry in her to convince her that he intended to marry her.

"The first time he proposed to me was July 17, 1932, in the parlor of my home in Cochituate. That date, by the way is his birthday. He was 59 years old.

"On another occasion while on the Cape, he pointed out a site for a house. He said he was going to build it for me after our marriage. He said that provision would be made for maids' quarters. I was to have a car of my own also."

LEARNS OF HIS WIFE

At this point her attorney Louis Sawyer, interposed, saying that Scott posed as a man free to marry and that Mrs. DeLory believed in him.

The first time that she learned he was married, she declared, was Aug. 23, last, when she alleges he attacked her. She said she subsequently learned that his wife and three children were traveling in Europe. One of Scott's daughters, Mollie Scott, is a Framingham and Boston society debutiante.

Mrs. DeLory maintains a small chicken farm at 10 King st., Cochituate. She has one son, John, a CWA worker.

MAYO FACES NEW GRILL ON SALE OF DEATH GUN

Admits Sale of Sommer Murder Weapon; Traced by Birth

Franklin L. Mayo, 34, of Neptune ave., Winthrop, identified by police as the man who brought from the middle west the gun used in the slaying of Adolph Sommer, elderly Cambridge inventor, will be questioned at length in the office of Dist.-Atty. Warren L. Bishop today.

Mayo, who is also known as Frank O'Neal, and describes himself as a gambler, was arrested after weeks of investigation.

Mayo readily admitted having the gun and selling it to one of three men arrested in a dope raid by Boston police in Roslindale last February. The trio were charged with Sommer's murder, and one of them revealed Mayo's name.

Mayo is the sixth man under arrest in connection with the murder, and police say a secret indictment charging him with murder has been returned by the Middlesex Grand Jury. The others under arrest are the trio arrested in Roslindale, Thomas Flanagan, 29; George Sarnie, 28, and Samuel Livingstone, 44, as well as Marshall Bowles and James Deshler.

Mayo denied all knowledge of or connection with the slaying.

IRISH TO TALK "NEW DEAL"

President Roosevelt's "New Deal" will be considered from many angles by speakers of the 197th anniversary dinner of the Charitable Irish Society at the Copley-Plaza Saturday night.

Sen. David I. Walsh will take up the national aspect. Gov. Ely will tell of the contribution of Massachusetts. Mayor Mansfield will speak for Boston.

Clare Gerald Fenerty, prosecutor of Philadelphia, will answer to the toast "The Day We Celebrate."

Maj.-Gen. Fox Conner, U. S. A., Rear Admiral Henry H. Hough, Eugene N. Foss, James J. Phelan and the Rev. Richard Blackburn Washington will be among the honor guests.

The committee in charge of arrangements, is headed by Michael H. Sullivan.

WOMAN JUMPS TO HER DEATH

Continued From First Page

of 40 Spring st., West End, was the lone witness of the tragedy. He happened to look up from his wheel and saw the woman hurtling through the air.

She plummeted feet first until she was almost abreast of the second floor window. Then, somehow, she turned in the air so that her whole side took the full force of the fall.

Her shoes, of black suede and leather, shot off her feet like rockets as she fell, but a towel remained in the hand that had clutched it. Pinned to it was a small brooch, made of a brownish stone and circled with seed pearls.

Police said that the woman probably blindfolded herself with the towel, pinning it behind her head with the brooch, and then tore it from her eyes as she plunged out of the window.

FIRST LADY ON FINAL TOUR

San Juan, Puerto Rico, March 14 (INS)—Mrs. Franklin D. Roosevelt today packed her clothes and the many gifts she has received here in preparation for her trip homeward, to begin by airplane at dawn tomorrow.

In addition to packing, today's schedule called for another sightseeing trip around San Juan, an inspection of the University of Puerto Rico and a shopping trip.

Mrs. Roosevelt's trip, primarily to study economic and social conditions here, reached its high point of social activity last night at an official reception given here by Gov. Blanton Winship.

More than 2000 guests shook hands with the American First Lady.

Temple Dean Dead

Bryn Mawr, Pa., March 14—The Rev. Dr. Walter B. Shumway, 81, dean emeritus of the theological school at Temple University is dead here.

DENTIST HELD ON GIRL'S CHARGE

Concord, N. H., March 14—Dr. Torrence F. Bowen, 41, Exeter dentist, is under observation at the state hospital here while officials are preparing to present evidence, alleging that he criminally attacked the daughter of a prominent New Hampshire family.

Dr. Bowen, World War veteran and father of four motherless children, was arrested at his home a week ago Monday on charges brought by a young woman. It is charged that he perpetrated the assault after the young woman had been placed under an anaesthetic.

A civil suit for $20,000 is also pending against the dentist in Rockingham County court, brought by the father of another young girl on a similar charge.

FUND CARNIVAL DRAWS THRONG

Goal	$4,500,000.00
To Date	2,602,472.12
Still Needed	1,897,527.88

Responding to appeals, thousands flocked to the Boston Garden today for the big carnival which marked the climax of the Emergency Drive. A continuous 12-hour show was in prospect, all for one dollar.

There was a midway of 110 booths, each sponsored by one of the 110 organizations to benefit from the campaign.

In the main arena, volunteers staged tableaux of scenes from "Little Women." Later, 60 debutantes put on a fashion show, displaying the latest spring creations from Boston shops. A group of Harvard students displayed men's clothing.

The first feature of the evening's entertainment was to be a demonstration by Nahant coast guardsmen, illustrating the drama of rescue at sea. Chief Boatswain's Mate Ralph C. Rich was to stage the event.

J. W. Farley, general chairman, was to speak briefly. An auto and other donated prizes were to be awarded. Dancing will follow the prize awards.

Jack Sharkey, Ernie Shore and Eddie Morris, football announcer at Harvard, will be among the "barkers" at Looths.

Bond Issue Sold

City Treasurer John J. Ward of Medford sold a small issue of water bonds, totaling $35,000, to Tyler, Butterick & Co., Boston, for 100.134.

Doctor Flays Rich Wives Who Keep Stork at Bay

New York, March 14 (AP)—By the use of birth control methods, 48 per cent of the well-to-do and rich white women in a group of 5000 married women "produced only planned and wanted babies exactly when they wished to have them," Dr. Raymond Pearl told the Milbank conference today.

Dr. Pearl, who is professor of biology in Johns Hopkins University School of Hygiene and Public Health, added:

"The survey showed that under present-day conditions of life the average birth rate is some 13 per cent below its natural level."

The women who gave information in the survey live in 13 states, Dr. Pearl said. Over 78 per cent of the rich women in the group practiced birth control, the survey showed.

Among very poor white women, the ppercentage of "planned and wanted babies" spaced by birth control fell to 13 per cent, although 33 per cent of this group had practiced it.

More than half of the white women in moderate economic circumstances were revealed to have practiced birth control.

"Almost none of the women, white or colored, had any formal, accurate or scientific instruction in birth control," Dr. Pearl said.

DUCE, DOLLFUSS OPEN 3-POWER PEACE PACT

Rome, March 14—Premier Mussolini of Italy, Chancellor Dollfuss of Austria and Premier Goemboes of Germany, all in Rome to confer on the relationship between their countries, were brought together today by horses.

The three arrived simultaneously today for a military horsemanship exhibition of the cavalry school. Although Mussolini and Dollfuss conferred earlier in the days, it was the first time all three had met together.

Chancellor Dollfuss later talked to Pope Pius XI for a half an hour in an audience granted by His Holiness.

PEACE IS AIM

Regardless of the manner of their meeting, the three hope before Thursday night to reach an agreement which, while proving mutually advantageous immediately, eventually may serve the ends of peace and better times in Europe as a whole.

Premier Mussolini personally received Dollfuss at the railway station with extraordinary cordiality and official honors. In welcoming Dollfuss, Mussolini congratulated him on his speedy and successful suppression of Socialists in Austria.

Cheers greeted Mussolini and Dollfuss as they walked side by side from the railway station to Mussolini's limousine. The Austrian chancellor looked like a boy beside Il Duce. Hundreds of Roman citizens were held back by ropes, and the station was patrolled by police and detectives.

CENTER ON DANUBE

In well-informed circles it was said Mussolini believes that to talk with Chancellor Dollfuss and Premier Goemboes separately offers the best approach to an agreement between Austria and Hungary, themselves, as well as among Austria, Hungary and Italy.

Beginning with the long conversation with Dollfuss today, Il Duce is believed to be moulding discussions pretty generally around his Danubian plan, promulgated last autumn. It outlines a course whereby Mussolini hopes the difficult economic situation of countries in the Danubian basin may be remedied.

HITLER WARNING SEEN

But, forming an undercurrent of general speculation, is the general belief that Mussolini hopes as a prime but little-commented upon consideration to prevent an Austro-German union through the agreement expected to be reached.

In semi-official circles, it has been said that if Austria and Hungary can be put on a firm foundation economically any possible threat of German domination over Central Europe will thus be effectively removed.

Vienna, March 14 (AP)—Austria's Fascist Heimwehr leaders met in an extraordinary conclave today, called within 24 hours after Chancellor Engelbert Dollfuss departed for a two-day series of conferences at Rome.

The conclave was announced suddenly and lent the flavor of authenticity to some of the many rumors of a possible Heimwehr coup in the little Chancellor's absence.

State House

A bill to make the Governor instead of the President the code-approving authority was submitted to the legislative committee on labor and industries today. Herbert M. Chase, representing the Hotel Association, opposed.

Judge James O'Brien of Lee, member of the Governor's advisory milk control commission, today declared many of the dairy farms of the state were "sweat shops," and there should be a milk control board. He was addressing the legislative committee on agriculture.

"Would-be penologists, just out of college," are behind the legislative measure to reorganize probation work, according to James J. Murphy, of the St. Vincent de Paul Society of Roxbury. He spoke before the legislative committee on state administration. B. Loring Young, chairman of the board of probation, is behind the bill.

Foes and friends of Dr. Charles L. Furcolo of Springfield appeared at the State House today to oppose and approve his appointment by Gov. Ely as medical examiner of the second Hampden district. Atty. Clarence A. Barnes appeared as counsel for the protestants. Those approving confirmation included Dist. Atty. Thomas Moriarty, Police Commissioner James Redden of Springfield and Dr. Charles J. Downey, dean of Springfield doctors.

Father Can't Hang 3 But They'll Die

Jackson, Miss., March 14 (INS)—Three Memphis negro youths who confessed attacking a 17-year-old Holly Springs, Miss., girl must die on the gallows Friday, but the father of the victim, who pleaded that he be permitted to spring the trap, will be denied his vengeance.

Legislative action to grant the fathr's wish died in committee after the Senate approved the measure. The father, C. W. Collins, said he was "satisfied."

DORVAULT'S REGULATOR

Ely Demands Police Be Rebuilt in Unit

Complete reorganization of the various police systems of the State and an end to the divided authority which gives advantage to the vicious modern type of criminal were demanded today by Governor Ely in a message delivered personally to the legislature.

The governor presented for immediate enactment a bill to carry out his demand, the product of a citizen committee on public safety in collaboration with Prof. Frank L. Simpson of the crime commission.

SEVEN PROPOSALS

Here are some of the things that the bill calls for:

1. sets up in place of the present state department of public safety, a commission of five, three of whom shall be police chiefs, each of an organized police force.

2. Retains in the cities and towns ordinary routine management and control of local forces, promotion of members.

3. Allows the new commission in case of emergency, such as armed robbery, kidnaping, criminal homicide or other crime of violence, to assume immediate control the police activities of the entire state.

4. Empowers the police chief of any city or town in exceptional circumstances to require assistance of the commission.

5. Establishes a division of police training to which any police officer may be assigned.

6. Promotion hereafter to be based upon a certificate of qualification obtained under the training course prescribed by the commission.

7. Establishes a bureau of investigation—a "Massachusetts Scotland Yard."

In so far as possible, the governor pointed out, the proposed act recognizes local authority of the present police force, does not detract from the possibility of advancement already held, but rather adds to that possibility.

ORGANIZATION NEEDED

He also stressed that no federal system of police which recognizes state sovereignty can be effective throughout the country unless the various states, where crimes are committed, are properly organized to meet the situation and co-operate intelligently and effectively with such a federal police system.

At the outset of his address, delivered from the House rostrum to both branches of the Legislature, the Governor asserted that the new police deal is now a necessity.

"The people," he said, "are in fear because of the cold, heartless and deliberate methods employed by desperate criminals in accomplishing their unlawful objects.

"The series of bank robberies, theater holdups, the stealing of guns and ammunition, have greatly weakened the sense of security which the citizens of this Commonwealth have a right to feel in attendance upon their daily affairs."

X-NINERS KEEP RESCUE SECRET

Secret Agent X-9 members don't run home to their parents with tales of their woes or misfortunes.

At least Daniel Dyer, 11, and Arthur Singelais, 11, both of Puri-

Daniel Dyer Arthur Singelais

tan rd., Somerville, and both X-Niners, don't.

The boys were rescued from drowning in the Mystic river by police after the ice cakes on which they were "riding" broke from under them. They thanked their rescuers and then went home, but not a word did they tell their parents, and the first the latter heard of the rescue was in the newspapers today.

When asked to explain why they said nothing, they explained that they were members of the Secret Agents, X-9, so kept the story of their rescue a secret.

PROTEST PLANS OF PARADE

Members of the James A. Gallivan Associates will protest to Mayor Mansfield today that they have been barred from taking part in the Evacuation Day parade by the committee in charge, despite the fact they have offered to pay their expenses.

Members of the committee, however, claim that Chief Marshal Patrick J. Geary was entirely within his rights in refusing a non-military organization permission to take part in what they consider a military parade. They consider the incident closed.

Members of the organization, however, are prepared to charge the committee with discrimination and gross negligence in their preparations when they have their audience with the mayor today.

NAZIS FORGIVE MISS DEITRICH

Berlin, March 14 (AP)—The German capital was electrified today by a sign of reconciliation between Nazi Germany and Marlene Dietrich, the motion picture star.

Carl Cusen, president of the newly-organized Nazi natural film chamber, announced Miss Dietrich had contributed "a considerable sum" to the chamber's welfare fund.

Although the film star left Germany before the advent of the Nazi regime, Berlin wondered why she met her husband in Vienna last summer instead of coming here to her home town. It was suspected that there was trouble between herself and the Nazis.

At that time the Nazi press was expressing severe disapproval of her wearing trousers and it was said here that she objected to being dictated to in her choice of costumes.

4 NEW TRAFFIC PLANS FAVORED

An overpass to carry Huntington ave. over the riverway at the Boston gateway of the worcester turnpike, at an estimated cost of $300,000, was reported favorably today by the legislative committee on Metropolitan affairs.

Three bills calling for creation of traffic circles also was reported avorably. They are:

At the Cambridge end of the Charles river dam; estimated cost, $250,000.

At intersection of the Southern Artery and Old Colony blvd., near the westerly end of the Neponset bridge; estimated cost, $90,000.

At intersection of the West Roxbury parkway and Center st.; estimated cost, $50,000.

The committee voted against the proposed traffic bridge at Gerry's landing, Charles river.

Tuttle's 53 Summer St. Cor. Chauncy St.

Again Tuttle's scores a "scoop"! First with the NEW.

"JOCKEY"

A rakish affair with a saucy tilt to its brim that's bound to do wonders for your face and spirits! You'll want one to match every costume. Has adjustable elastic back.

The Automobile Industry,

As Represented at a Directors' Meeting of the National Automobile Chamber of Commerce Held in Detroit Monday, March 12, 1934, Set Forth Its Labor Position as Follows:

1. Under the law and the code, the industry believes it owes a duty to its employees not only *not* to coerce them in self organization for purposes of bargaining, but so far as it legitimately can, to protect them against coercion from any source into selecting representatives not of their free choice.

2. No employee shall be discriminated against because of his choice of representatives.

3. The accredited representatives of any group of employees shall be free to bargain collectively in regard to matters of common interest.

4. At the present time the automobile industry is paying on an average, hourly wage rates equal to or better than the 1929 rates. The ratio of weekly earnings now approximates 90 per cent of the 1929 earnings, while the current cost of living is approximately 83 per cent of 1929.

5. Nevertheless, in response to the appeal of the President, the industry recommends to its members that in plants covered by the automobile manufacturing code, the average weekly hours of productive workers be reduced from 40 to 36 and that compensating wage increases over rates prevailing in February, 1934, be made effective on or before March 31, 1934.

GRADE TITLISTS NAMED FIRST IN SPELLING

More than 2000 inquiries from school children regarding details of the Boston Evening American and the Boston Sunday Advertiser Metropolitan Spelling Bee were received yesterday by telephone, letters and personal visits to the offices of the newspapers.

Inasmuch as many of these inquiries were regarding possible lists of difficult words or the best method of preparing for the opportunities in this great Boston educational competition, it is necessary to announce that the tests for Grade Champions, School Champions and School District Champions will be made from the regular spelling books of the school curriculum.

SIMPLICITY KEYNOTE

The first of these bees to decide the Grade Champions of each grade in each school is but nine days away. It will take place in your own school room and will require slight effort on the part of the teacher and simply intensive study of the routine spelling lessons which the pupil has had.

The keynote of the entire competition offered by the Boston Evening American and the Boston Sunday Advertiser is simplicity. Yet the three Friday afternoons with suitable intermissions of several days will assure splendid award for more than 3000 pupils who are victorious in the grade, school, district and metropolitan championships.

Let all of the children in the schools of Boston and in the schools of cities and towns within 15 miles of the Hub carefully read the rules of this great contest, which will appear tomorrow on all school bulletin boards of the enrolled schools.

You will observe that the winners of the contests in each grade on March 23 will be awarded Webster's Collegiate Dictionary. On subsequent days in April medals will be awarded to school and district champions throughout the eligible area, and on Friday, May 11, the final spell-down to determine the champion of the Boston metropolitan district will be held.

TO MEET PRESIDENT

This Champion, boy or girl, will receive a solid gold medal and will have all expenses paid to Washington for a delightful week's vacation in the national capital, accompanied by a teacher, parent or guardian with all expense paid by the Boston Evening American and the Boston Sunday Advertiser.

In addition to all the awards made in Boston, splendid prizes are provided in the National Grade School Spelling Championship Bee held at Washington on May 29. The winner of the Boston Metropolitan Championship will meet the President of the United States in connection with his or her participation in the great national competition.

As has been previously announced the Boston Evening American and the Boston Sunday Advertiser provide none of the lists which will be spelled-down in the school competitions. However, it may be stated that there are certain words which through all the years have been notably difficult to spell.

These words are known as "tripers" and for long years have contributed to the discomfiture of spelling competitors. From time to time the Boston Evening American and the Boston Sunday Advertiser will indicate these difficult words, among which are included the following:

separate, indispensable, exhiliarate, accommodate, embarrass, ecstasy, supersede, privilege, lose, hypocrisy, sacrilege, ninety

Now those are not so very hard. Great care and thought are the essentials in winning fine dictionaries, beautiful medals and greetings from Presidents.

Seized Liquor Is Auctioned off

Boston's thirsty will be appeased through the medium of more than 500 wholesale and retail liquor dealers who today bid on a quantity of customs-seized contraband of prohibition times exceeding 3,000 gallons.

Old Log Cabin, Golden Wedding, Old Dougherty, Lincoln Inn, Haigs, and Canadian Club were included in brands sold to bidders for prices around $2.50 a quart. Pikesville American Rye was the largest single lot on sale, totaling over 1000 gallons.

Verification of Savings Bank Deposits

To comply with the law, depositors are requested to bring or send in their Pass books for verification.

THESE MUTUAL SAVINGS BANKS WILL VERIFY AS FOLLOWS:

Boston Penny Savings Bank — March 15 to May 1
Brookline Savings Bank — March and April
Franklin Savings Bank — Boston. Through March 31
South Boston Savings Bank — March and April
Warren Inst. for Savings — Boston. March and April

Divorcee—Brawl—Death

ARTHUR W. MORSE

Arthur W. Morse, bachelor, broker and Harvard graduate, showed the marks of a fight when arraigned yesterday in a New York court on a charge of felonious assault on Mrs. Edna Field Leavitt, Brookline divorcee, during a brawl in his Greenwich Village studio. Later, Mrs. Leavitt died, and today a charge of homicide was placed against him. (Int. News Photos.)

Broker Held on Homicide Charge in Girl's Death

Death of Mrs. Edna Field Leavitt, 26, Brookline divorcee, from injuries received during a Greenwich Village apartment battle in New York, brought a homicide charge today against Arthur W. Morse, Harvard graduate, formerly of Brookline, but now a Wall st. broker.

Morse, who had been released yesterday in court on $5000 bail to answer a charge of felonious assault, surrendered today at the Mercer st. police station in New York when he learned of the more serious charge, and was immediately re-arraigned.

The young divorcee died last night in Bellevue Hospital, New York, from a skull fracture charged by police to have been suffered in Morse's apartment when she was allegedly beaten by the broker.

At the bedside of Mrs. Leavitt when she died were her grandparents, Mr. and Mrs. William Atkinson, of Summit ave., Brookline. She was the daughter of Mr. and Mrs. James W. Field and was the mother of one son, David, 5, who is now living at the Atkinson home.

Mrs. Leavitt, then Miss Edna Field, married David Leavitt in 1927 and the couple had one child. Leavitt died in 1930.

Later she married Charles Byington, of Brooklyn, N. Y., and secured a divorce from him in Reno about a year ago.

Navajo Chiefs Oust Walker

Gallup, N. M., March 14 (AP)—Scores of celebrities, including former Mayor James J. Walker of New York, were expelled from the Navajo Indian tribe today by its executive council of 12.

The Big Chiefs indicated they were fed up on white men who get adopted into the tribe and then go around boasting they are Indians.

A number of Hollywood actors and actresses suffered the same fate as Walker.

"Every time a movie star stops in Gallup and is adopted by the tribe, then he claims at Hollywood he is a Navajo," said Tom Dodge, member of the council.

COUNCIL SEEN AS USELESS

The Governor's council, which consists of eight Republicans and one Democrat, was scored today by Senator Donald W. Nicholson of Wareham, prominent G. O. P. member, as a "useless body, serving no good purpose."

He advocated, speaking before the Legislative Committee on Constitutional Law, the adoption of an amendment abolishing the council.

Asked who would confirm judicial appointments, Nicholson said: "The Senate." All other appointments, he held, should be made by the governor without interference.

"The Governor should be allowed to appoint department heads without confirmation," he states. "He's the Governor and let him be responsible for them—he and his party."

Tobacco Sales Tax Advocated for R. I.

Providence, R. I., March 14—Gov. Theodore Francis Green today had presented in the General Assembly bills to impose a 10 per cent tax on retail tobacco sales, an additional half cent on gasoline and an additional one per cent on the gross revenues of public utility companies. He estimated these taxes would yield $1,620,000.

Connery Old Age Bill Is OK'd

Washington, March 14 (INS)—The House labor committee today favorably reported a bill by Rep. Connery (D) of Massachusetts, providing a Federal old age pension system, under which the government would pay one-third of the cost, and the various states the remaining two-thirds.

Judge Florence Allen Approved

Washington, March 14 (AP)—The Senate judiciary committee today approved the nomination of Florence Allen as a judge of the Federal Circuit Court of Appeals.

$10,000 LIQUOR STORES STOLEN

In the biggest liquor theft since repeal a well-equipped gang stole rum, rye and wines worth $10,000 from the American Dry Ginger Ale Co., Inc., 9 Edgewood st., Roxbury. The robbery was discovered today when the plant opened.

Outer doors were battered in and grilled work was sawed apart.

Apparently the gang had a complete set of burglar tools and at least one truck.

The liquor was stored on the second floor. A huge dumb-waiter lowered it to the street level.

A partial inventory disclosed the following liquors and wines missing: One barrel of 18-year-old rum, one barrel of Hiram Walker rye, one barrel of Stetzel bourbon, five cases of Edgewood Club rum, in half-pints; five cases of the same, in full pints, and nine barrels of Kosher sacramental wine.

Roosevelt Plans Trip in March

Washington, March 14 (AP)—President Roosevelt plans to start his fishing trip in southern waters the last week in March.

He probably will go direct to Florida by train to board the yacht there.

Easy Chair, Pipe Await Doug

His Pickfair Den as He Left It

(Copyright, 1934, by the Boston Evening American and International News Service. All rights reserved.)

Hollywood, March 14 (INS)—The pipes Douglas Fairbanks loved to smoke repose on his carefully dusted desk at Pickfair. His favorite tobacco remains fresh in its humidor.

The books he liked to read lie on the table of his den.

Everything is just as if he had walked out yesterday instead of a year ago.

No wonder Hollywood asks if the utterly unselfish love of Mary Pickford for Fairbanks has won an international game of hearts.

True, the glitter of entertainment has been absent the past few months since Miss Pickford went East. But until her departure she entertained much as before Doug went abroad and the breach finally resulted in the filing of her divorce action.

Pickfair has been a Hollywood institution. It had no competitor in the unique social status it occupied as the home of Doug and Mary. And there are no reigning social kings and queens of Hollywood now in the sense that Doug and Mary were.

It can be said that Hollywood sincerely hopes for Mary's sake her love story will have a happy ending—that "they lived happily ever afterward" will be written as the finis of her troubles. If odds were being offered here they would strongly favor a reconciliation.

Mary will be back at Pickfair within a month, possibly by April 1, unless a play takes her to Broadway.

And under present plans Doug will be back in Hollywood before the end of the summer. Friends of Fairbanks say emphatically that Doug never had any intention of becoming a British subject.

London, March 14 (US)—A "Radio City" in London, with S. L. "Roxy" Rothafel as director, and Douglas Fairbanks and Mary Pickford as backers!

That is the vision of Douglas Fairbanks, Sr., which is playing a large part in his efforts to effect a reconciliation with his American screen star wife, it was learned by Universal Service today.

Fairbanks and "Roxy" are deeply interested in establishing in London a "Radio City" similar to the Rockefeller center in New York. They have tentatively selected the site of the Metropole Hotel.

Rothafel, whose connection with Rockefeller center recently was terminated, is now in London with his building consultant, and has conferred with Fairbanks and Sir Malcolm MacAlpine, Sir Malcolm built the Wembley exhibition, the Southampton docks and the Dorchester Hotel.

HULL ARMS FOR BANDIT WAR

Hull residents are looking for a boom at Nantasket Beach this summer, what with liquor back, but Commissioner of Public Safety Henry J. Stevens says there will be no boom of gangsters' guns along with it.

The commissioner announced today a complete super-armed police force ready to combat any outbreak of crime at the beach.

He has equipped the department with four Thompson machine guns, seven Woodsman .22 automatics, tear gas bombs, a gas gun and a gas cannon; two prowl cars equipped with radio, and, in addition, every man on the force will wear a bullet proof vest.

Boston Fugitive Arrested in N. Y.

Search of three years for Salvatore, alias Pazza, 45, formerly of North st., North End, ended today in New York when Marino, alleged swindler, was arrested. He defaulted here in 1931 when carged with larceny and conspiracy to steal $1500 from Albert Van Dooren, of 157 Waltham st., Waltham, and was captured after he left a freight boat on which he had been a member of the crew.

He jumped $20,000 bail after his arrest in January, 1931, by Sergt. Mark Madden.

THOUSANDS IN LINE AGAINST LEAGUE

Like a flood symbolic of Noah's era, thousands of signed petitions from patriotic residents of New England, backing the Hearst newspapers in their stand against American participation in the League of Nations and the League Court are being received by the Boston Evening American and Sunday Advertiser.

The day's inflow was led by a petition signed by 17 members and relatives of one family, that of Manuel Pacheco, of 280 Mulberry st., Fall River.

PACHECOS ALL FOR PLAN

"The names I have put on this petition are all the names of my family and in-laws," Pacheco wrote. "We were all glad to sign this petition, because we believe like all good Americans, that we should keep out of foreign entanglements and mind our own business.

"We have plenty of trouble in our own country, so let's look out for ourselves and let the foreign countries look after their own troubles."

Ten in the family of Mrs. Carrie Parsons, of 18 Elm st., Brookline, and a similar number in the flock of Dominick Iodice, of 265 Warren st., Waltham, were other large groups whose petitions were received in the day's mail.

One of the most outstanding signatures was that of Judge Robert J. Curran, former Maine justice, and a Massachusetts resident since 1921. Along with his petition was that of his wife, Mrs. Katherine S. Curran.

"I do not believe our country should mingle with the affairs of foreign countries," wrote Judge Curran.

TOO LENIENT IN PAST

"America in the past has been too lenient, generous and liberal with them, and it is about time we stopped, for apparently we have always been the loser.

"It is a great thing for the Boston American and the Sunday Advertiser to lend their prestige in checking further entanglements with European countries.

"We have given away our money and have donated huge sums for charity and relief of famine across the sea, but never has there been shown any reciprocal interest or even sympathy when trouble stalked our doors. I need only point to the fact that they dragged us into a complicated financial situation, and now they want to cancel the war debts."

Judging from letters accompanying the signatures to the petitions New England has risen against the ruse of international bankers and political groups to further embroil this action in their diplomatic chicaneries.

So widespread has become the interest in the anti-World Court movement, stupendous efforts will have to be made to enable all those who have expressed a desire to sign petitions to do so.

Those who require longer petitions than the ones printed in these newspapers, may obtain them at their own news dealers.

Petitions may also be had by writing to the League Court Editor, Boston Evening American and Sunday Advertiser, 5 Winthrop sq., Boston.

Actors in Millens' Vivid Drama -:- Of Shifting Life and Sudden Death

178 CHILDREN SAVED AT FIRE

Albany, N. Y., March 14 (AP)—One hundred and seventy-eight infants and children were carried or led to safety today after fire broke out in the infants' home of the Brady Maternity hospital here.

The fire started in the carpenters' shop in the basement, and was extinguished without causing serious damage. Smoke filled the corridors.

Seventy-four infants, all a few weeks old, were removed by nurses to the maternity home, across the street, and nearby residences.

One hundred and four other children, three to five old, were marched to safety by nuns. They were fully clothed when the fire broke out, read to go to a nearby playground.

Detroiters Urged to Sign Petitions

Detroit, Mich., March 14 (US)—The Detroit City Council last night unanimously adopted a resolution urging citizens to sign the Hearst newspapers' petitions against American adherence to the League of Nations or to the World Court.

The resolution commended the Hearst papers for "ably combatting" the menace of foreign entanglements.

Pioneer Wine Firm Reopens Its Doors

After a lapse of 14 years, the Terminal Wine Co. has re-opened, this time in a new store near the North Station, with entrances at both 170 Canal st. and 257 Friend st. The establishment claims to have the largest floor space and one of the largest stocks of wines and liquors of any package store in New England. The mail order department also has been resumed.

Athens, Greece, to Get Boston Flag

A city of Boston flag, to be presented a fortnight hence to Athens, Greece, was given today to a committee representing the Order of Ahepa, international Greek fraternity, by Mayor Mansfield.

Harris Booras, supreme president of the society, received the banner from the mayor and a letter to Mayor Marquires of Athens, expressing the good wishes of the people of Boston. Booras is to leave today en route to Greece.

VETS ENDORSE LEAGUE DRIVE

New York, March 14 (US)—The National War Veterans Association announced today its enlistment in the protest against participation in the League of Nations and its League Court.

The association made public a resolution adopted at a meeting Monday night, commending the Hearst newspapers for publishing uncensored pictures showing the horrors of war and for circulating petitions against the league. The resolution reads in part:

"Whereas, the Hearst newspapers are now conducting a campaign which has a two-fold purpose, that is, publishing pictures depicting the horrors of war, and circulating petitions protesting against the United States participating in the League of Nations or in the World Court, and

"Whereas, the war veterans of this country want to avoid wars conducted for the selfish benefit of foreign powers,

"NOW THEREFOR BE IT RESOLVED:

"THAT this association be and it hereby is declared to be against the participation by the United States in the League of Nations or in the World Court, and

"THAT the Hearst newspapers be and they hereby are commended for their most patriotic endeavors in behalf of our country."

FIRE VICTIM IS FOUND STABBED

Palmer, March 14—Police today were investigating the death of John Pravoiuski, 45, who was found dead in his bedroom at 2 Shearer st., shortly after midnight.

A woman resident smelled smoke and investigated. Pravoiuski was found doubled up on the floor of the smoke-filled room. After the fire was extinguished, a doctor found a deep stab wound in Pravoiuski's abdomen.

Spring Weather Back Tomorrow

Boston's welcome threat of spring which brought topcoats into play again today, will be chilled off a bit tonight, but will be back once more tomorrow, according to the weather man.

The night chill will not be pronounced, however, and the mercury will stop sliding when it reaches the middle twenties. Today at 1 a. m. the thermometer reading was 41 degrees, but during the day the reading had gone well above 50 for a very comfortable day.

Show to Aid Fund

The second annual minstrel show and lunch of the King Solomon Lodge of Odd Fellows will be held at Hotel Bradford March 19. The proceeds will go to the benefit of the widow and orphans' fund.

RUMMAGE SALE

Continued From First Page

ing things, and a million years from now there will be as many, perhaps more, marvels, some of them coming from neighboring planets, with which we shall have learned to talk.

Boise City, Okla., informs you that scientists hope to drive a railway motor car 42 miles from Boise City to Clayton, N. M., with power sent into space by a short-wave radio broadcast. The Santa Fe railroad expects to make the experiment within 10 days.

This may be one step in what will be the greatest of all inventions in connection with transportation, *wireless transmission of power.*

When flying machines, on their way across the continent, can pick up, by wireless, power from Niagara and other stations as they pass, carrying no fuel with them, or pick up power from power stations established in mid-ocean, the flying problem will be solved.

This old earth, that ceased being incandescent, then redhot, then bubbling in spots, only a few hundred million years ago, is still settling and shifting a little, like the crust of a pie fresh from the oven. There are contracting and expanding, geological slips and slides here and there in the earth's interior, volcanic disturbance, sometimes caused by inrush of salt water into deep, redhot crevices.

Therefore men read on the front page, "Earthquake rocks Utah cities, disturbance extending to Idaho, Wyoming, Nevada and California." A slight shaking anywhere on earth's surface is terrifying. But it is only part of the normal adjustments of a planet still in its infancy, having, according to science, at least a million million more years to go.

A SEVENTEENTH CENTURY MAIDEN WHO LIVED WITH A TWENTIETH CENTURY MADNESS!
at Loew's State

Here's How! Among the ads in today's Classified Ad Section there are answers to the five questions below. All you have to do is to find the ads containing these answers, write the number and the answers on a slip of paper, and mail immediately to the "Hidden Question Editor," Classified Department, Boston American, or Boston Sunday Advertiser, 5 Winthrop Sq., Boston, Mass.

The first ten correct answers received will each receive two COMPLIMENTARY TICKETS to Loew's State Theatre. Names of those winning awards will be published in the Classified Ad Section and tickets mailed to Winners.

You need not be a subscriber to the Boston American or Boston Sunday Advertiser in order to participate; copies may be consulted at the Public Library or at the office of the newspaper, 5 Winthrop Square.

TODAY'S QUESTIONS:

1. Who employs 25 teachers?
2. Who offers a regular $5.00 oil permanent for $3.75?
3. Whose telephone number is Hub. 82247
4. What is Arthur P. Pearce offering?
5. What can you buy for $13.50 a month and a down payment?

Phone in News Tips to the Boston American and Advertiser—Win $100 Weekly in Prizes

Do you want to make some money for being alert? If so, the Boston Evening American and the Sunday Advertiser are presenting the opportunity. Every week a total of $100 in prizes will be given for news tips telephoned in to the News Tip Editor at Liberty 4000. And what is a news tip? It's the information that something of interest to Greater Bostonians has taken place or will take place. Do you know, for instance, that an important meeting is scheduled for a certain date, that an accident has happened, that there is going to be a business merger, that a celebrity is coming to town? That's a news tip. There will be given $50 weekly for the best first exclusive news tip received, $15 for the next best, $10 for the next best and $1 prizes for each of the 25 next most valuable tips. This offer is now in effect. Remember that SPEED is the watchword, First to the telephone wins the award. News tips mean money.

NORMA ANGRY AS BEAUTY AID IS BARRED

By RUTH MUGGLEBEE

There is nothing that makes a woman so angry as forced neglect of her beauty and facial upkeep. And in this respect, Norma Millen, Murton's accused bride, is no exception.

That nothing could be done about it made the former Natick high school girl decidedly angry and in no uncertain terms she communicated this feeling to her counsel, Atty. George A. Douglas.

"Can you get them to permit me to use a curling iron on my hair?" she asked him.

By "them" she meant the jail authorities.

Atty. Douglas shook his head and told her "no." So that was that but the refusal left Norma discontented. She had always prided herself on her beauty and her ability in keeping herself lovely-looking.

But more than two weeks of jail, with the lack of facilities, have taken their toll of her comely self-cultivation and Norma is these days an unhappy girl.

NORMA DISCONTENTED

She asked for a nail file. That was denied her. Next she asked for a curling iron to wave her mass of chestnut hair. That, too, was denied.

And for a girl who put herself through a nightly toilette of extravagant proportions, such denials are downright hardships. But Norma has another month of such hardships before she can use the time when beauty parlors, manicurists, hairdressers, and the like will begin to assume life-like roles.

Murton's wife has, at least, another month in jail before her own trial, before the time when she will plead for her own freedom.

There is very slim possibility, Atty. Douglas pointed out, that she will go to court when her husband is put on trial for his life, along with his brother and their pal.

"I understand the government will not summon Mrs. Millen as a witness," he said. "The defense, I don't believe, will summon her. And I don't want her to go into court until she goes as a defendant in her own case."

NO CHANCE OF BAIL

Since there is absolutely no chance of raising the $25,000 bail Norma must spend the rest of this month a goodly part of April, in jail.

Semi-weekly visits from her father and her mother break the monotony of jail life. It is the only diversion there is for the girl, other than routine readings, which she now tries. Crocheting or some form of needle work—but that, she sets on a person's nerves when it is a forced pastime. Talking with the other prisoners, learning their secrets, is also an art, but at that time hangs heavy on her hands.

Norma is beginning to show facial signs of jail confinement. Her rosy cheeks are being slowly drawn of their color and it is reported that she is succumbing to the pasty complexion of the brick-steeled-blind indoors.

"Norma has accepted with intelligent resignation the impossibility of releasing her on bonds," Atty. Douglas said.

"She knows that her father and I have tried and how utterly beyond the ability of his pocket-book and endeavors it is. Norma thanked her father for his efforts and with a smile said she would make the best of her forced confinement in jail.

"She told her father not to worry, that she would get along and that she would not think too much about her plight, that she would conserve her energies for her day in court. It is marvelous the way that girl is holding up under the circumstances."

Mother and father continue to bring candy and magazines to their daughter. They talk about this and that, diverting as much as they can Norma's mind from the approaching trial both of her husband and herself.

Pencilgraphs of Principals as Bandit Trial Nears

Three principals of the Millen-Faber trial as sketched from life by Ray Shanahan, Boston Evening American artist. Above, Murton Millen of Roxbury, one of the trio of alleged machine gun killers, long-faced, large-featured, drowsy-eyed, accused of taking his 19-year-old bride, Norma, on a honeymoon of crime that ended with the murders of two policemen in the Needham bank robbery.

Judge Nelson P. Brown, distinguished Dartmouth alumnus, who will be the presiding justice. He was one of the youngest men ever appointed to the bench when named by Gov. McCall in 1918. The law is at once his vocation and his hobby. He is also an amatur photographer of note. Famed for his deliberate, calm, dispensation of justice, even a tossed bomb and a shooting in his courtroom recently failed to shake him.

The state's official voice demanding death—Edmund R. Dewing, district attorney of Norfolk County, who will ask the chair for the three alleged slayers of Patrolmen McLeod and Haddock. Well versed in the law, with a background of experience in two murder trials that ended with electrocution of the slayers, the Norfolk prosecutor has bitterly opposed delay and is ready for trial and swift justice.

NORMA SEEKS HER SISTER

The long-sought Thelma Brighton, sister of Norma Millen, who left her father's home five years ago, may be called as a witness for Norma, it was reported today

But there were a lot of "ifs" to that report. The girl must be definitely located first.

Atty. George Douglas, Norma's attorney, talked during the night with Chief Joseph Dean of Foxboro, who said he believed he had seen Thelma in Boston, yesterday, but Douglas did not disclose the outcome of the conversation.

As far as could be learned Atty. Douglas was acting only for Norma's parents, who have sent out appeal after appeal for the girl to come home, since Norma came into the limelight.

Norma is beginning to show facial signs of jail confinement. Her rosy cheeks are being slowly drawn of their color and it is reported that she is succumbing to the pasty complexion of the brick-steeled-blind indoors.

But from other sources it was said that Atty. Douglas really wanted Thelma to take the stand as a witness for Norma when she goes on trial as accessory after the Needham murders and holdup.

Both state police and Dist. Atty. Dewing declared that they are not interested in talking to the "missing" girl, and so informed Chief Dean.

The latter first reported meeting a "Miss Vance" in the South End yesterday, and said that her description tallied exactly with that of Miss Thelma Brighton.

He explained that the acquaintance who had introduced him to the "Miss Vance" later told him she was really Thelma Brighton, and that he could get in touch with her any time he wanted.

Lost His Health, Home and Money by Voodoo Curse. A Strange Story of Religion and Superstition Related in The American Weekly, the Magazine Distributed With the March 18 Boston Sunday Advertiser.

Millens Fight for Counsel; May Get Darrow

Continued From First Page

P. Kelley, former district-attorney of Norfolk County, had also been approached.

The situation led to the prediction that Dist.-Atty. Edmund R. Dewing, who will prosecute the three alleged slayers of two Needham policemen, will petition court to appoint counsel for the Millens and thus prevent a delay.

"Flowers for Norma" constituted the latest colorful development. A cinnaria plant, profuse in violet blossoms, was delivered for her at the Dedham jail by a florist this morning.

Joseph De Luco, who made the delivery, said a "gentleman" had visited the greenhouse, picked out the plant, paid $4 for it and had it sent to the incarcerated bride of Murton Millen.

State's Star Given Airing in Auto

The donor is believed to be the same person who is paying for Norma's fancy meals sent in by a Dedham chef.

Reporters at the jail were amazed a short time later to see Saul Messinger, the government's material witness who is under $5000 bond, ride out of the jail yard in a car with Albert Crocker, jail officer. They drove to the Norfolk County farm and back, a distance of about six and one-half miles.

Jail officials said that Messinger, who will be a witness both against the trio of male defendants and against Norma at her separate trial, needed some air and was given permission for the ride. Although a prisoner at the jail, he has been deprived of few liberties.

MacKusick's claim that he is still the attorney for the Millens was coupled with his announcement that he talked last night over long-distance telephone with Clarence Darrow at Washington and that he is going to Washington tonight—paying his own train fare —to discuss the case with the 77-year-old veteran of many famous murder trials.

Asked whether he expected to bring Darrow here as chief defense counsel, MacKusick said:

"Nothing is sure but taxes or death in this world. If and when he comes we'll talk about it."

Darrow saved Richard Loeb and Nathan F. Leopold, Jr., of Chicago, from paying the death penalty for their "perfect crime" in killing 14-year-old Robert Franks, son of a wealthy Chicago jeweler.

His defense—"mental sickness," short of insanity, was built on alleged "functional disorders of the endocrine glands, childish fantasies and inhibitions" and "influences in maturer years, and stunted emotional growths."

Loeb and Leopold, college graduates, and sons of wealthy families had plotted for months to commit the "perfect crime" and then only failed because one of them dropped a pair of spectacles near the culvert where they stuffed the mutilated body of their victim.

The clue of a discarded automobile battery in a burned car was just such a remote clue to the Needham Trust Co. murders, and spoiled the "perfect crime" record that Abraham Faber disclosed in his confession to state detectives and Dist. Atty. Dewing.

The lawyer who insists that he must defend the Millens based his appeal to Darrow on the theory that there are so many points of similarity between the Loeb-Leopold and the Millen-Faber cases that the "old master" might be persuaded to an appearance here.

Then, too, the Millen-Faber case has attracted nation-wide attention, and Clarence Darrow is not averse to that. Recall his legal duel in the Tennessee Scopes' trial with the late William Jennings Bryan.

At that time Darrow defended a penniless teacher because he wanted to settle the case of Evolution vs. The Bible, and he saw in Bryan an adversary worthy of his steel.

MacKusick had high hopes that Darrow would be interested in the Needham murders, and declared that if the noted lawyer failed to enter as counsel, he might be persuaded to act as advisor.

He said he would also discuss the case, while in Washington, with Senator Royal S. Copeland, Dr. William A. White, noted psychiatrist, and U. S. Senator Robert R. Reynolds, former prosecutor in North Carolina with whom, he said, he was very friendly.

Mac. Gusick said Clark couldn't take the case because he is "up to his ears" in civil cases, although he would like to help. He said Harvey had also informed him, at another meeting, of his definite decision not to change his mind; Harvey withdrew Monday after two days' association with MacKusick in the case.

While MacKusick went along acting as if he is still the attorney for the defense, one of his office associates, James F. Philbrick, war preparing several motions in behalf of the Millens. MacKusick would not say what these were.

Abe Pins Life on Insanity Plea Only

Faber's counsel, William R. Scharton, whipped two motions into form. One asks a trial for his client separate from the trial of the Millens. The other asks state financing of Faber defense psychiatrists. Scharton said he might require five such alienists and indicated all would be from outside Massachusetts.

Scharton made it plain that Faber's only defense will be a claim of insanity.

He will require not less than two and not more than five alienists, he said. Scharton announced he had made a study of the insanity laws as far back as 1816 and was prepared to fight the Briggs law, at the trial, as unconstitutional.

The Briggs law is the statute providing for a theoretically impartial examination of all alleged slayers by state appointed alienists. Under it, its author, Dr. L. Vernon Briggs, and Dr. Earl Holt have just completed their examinations of the Millens and Faber and prepared their secret report, which is expected by government officers to prove the trio sane.

Schaton said he stands ready to show that the law has deprived Faber of his rights.

Scharton said it was almost impossible to get a Massachusetts alienist for the defense who at one time or another has not been associated with government alienists.

"I don't contend or intimate that these psychitrists are not capable and honest, but the unfortunate close association and contacts that have been made in the past makes them feel they are ethically disqualified to testify against each other," Scharton said.

"It is a well-known fact among lawyers that it is impossible to obtain one of these men to testify against a doctor in a malpractice case.

"This will be a long drawn-out fight.

"It will be necessary to call in Faber's defense many of his former Technology classmates, professors, relatives and friends of the family to lay the foundation of his method of living and mental attitude in order to show insanity. No medical men have yet been able definitely to state when a person has become insane."

Likens Case to That of Another Tech Man

Scharton disclosed that his defense will follow closely the lines of the defense in the Massachusetts murder case: State vs. Goodwin in 1885 in which, peculiarly enough, the defendant was also a graduate of Technology. The case was tried in Essex County and the famous Ben Butler conducted the defense. Hurlburt and Sherman prosecuted for the attorney-general. The defense claimed insanity and psychiatrists testified at length for both sides. The state failed to convict in the first degree, a second degree verdict being returned.

District Attorney Dewing is absolutely opposed to a separate trial for Faber, just as much as he is aligned against any move to delay the trial.

The Norfolk County prosecutor won the first skirmish in the proposed delay when Judge Brown ruled against motions to that effect made last Saturday.

Time for filing such motions expired last Monday at 5 p. m., but the government is being so careful to leave no loopholes for "prejudice" charges, that it is probable that Judge Brown will entertain any motions filed within a reasonable time before the trial, officials said.

The trial is only 12 days away. So far the disputes that have split the ranks of the defendants have left them without the "united front" they said they hoped to prepare last Monday.

Attaches in the district attorney's office said that it was possible that this delay in defense plans might be a maneuver to delay the trial, but Dist. Atty. Dewing is adamant in his stand that there will be no delay.

That is the reason, they hinted, that he will petition Judge Brown to appoint counsel for the Millens today, unless an agreement is reached.

Norma and Lawyer Draft New Defense

Meanwhile 19-year-old Norma Brighton Millen, bride of Murton, who had slipped more or less into the background in the disputes over the Millen counsel, was preparing her defense with Atty. George Douglas.

She will go on trial about 10 days after the Needham cases are concluded, according to Dist. Atty. Dewing. She is in Dedham jail in default of he $25,000 bail demanded on her charge of being accessory after the fact of the Needham bank holdup.

Norma is in "splendid spirits" according to her minister-father, Rev. Norman Brighton of Natick.

"She is anxiously awaiting her day in court" the father told reporters. "She has made up her mind to take the witness stand and tell the court everything she knows about the case. It will be her own story, and the first time that she has told it to anyone.

"She has made up her mind to remain in jail, now that she understands how impossible it would be for me to raise the bail money, and she is contented to remain there until she is exonerated of the charges against her."

Norma received a visit yesterday from her mother, Mrs. Margaret Brighton, divorced wife of the minister, as well as from the father.

Mrs. Brighton, who declares firmly that she believes in the innocence of her daughter, remarked that she had found Norma "a little pale, but otherwise bearing up very well."

"Daughter Pale, But Bearing Up Well"

While both the mother and father have appealed continually to authorities to locate Norma's "missing" sister Thelma, they did not quite believe that the girl had been seen in Boston as was reported by Chief of Police Joseph Dean of Foxboro yesterday.

Nor was Dist. Atty. Dewing particularly interested in the girl being found there.

"She can be of no assistance to the state in the prosecution of the Millen brothers and Faber, or of Norma Millen, and we are not seeking her. We have no intention of questioning her," he stated.

There was considerable activity in Dedham in preparation for the trial.

MICHELET, 'IRON MAN,' DIES

Hanover, N. H., March 14 (INS) —Robert Henry Michelet, 22, of Washington, D. C., outstanding Dartmouth scholar and "iron man" athlete, died today at Dick Hall House, of the college infirmary, following a 13-day illness of bronchial pneumonia, with complications.

Michelet was captain of the freshman football team four years ago, and for the last three seasons has been a varsity guard for the Big Green. This year he earned the title of "iron man" when he played the full 60 minutes in all six major games.

He was captain of the varsity track team, and one of the best weight throwers in Dartmouth's athletic history. He had been entered in the ICAA tournament at New York, and the Cornell-Harvard-Dartmouth triangular meet at Boston, but was kept out of both by his illness.

Besides his athletic activities, he was a member of Phi Beta Kappa, the scholastic fraternity, and had a four-year average of nearly A in all studies.

New Method of Teaching Posture to Mannequins. "Lay Figures" Now Being Used Instead of Living Models. An Article in The American Weekly, the Magazine Distributed With the March 18 Boston Sunday Advertiser.

MEDFORD RUM BOARD ILLEGAL

All liquor licenses in Medford were granted illegally, City Solicitor John E. Howard ruled in that city today, declaring that the present license commission has been operating without authority.

He pointed out that former Mayor John H. Burke had appointed the commission to handle 32 beer and wine licenses last summer, but specified no length of the term of office. The city solicitor finds that he either should have reappointed the commissioners after repeal or named a new board, declaring that their acts since that time have been illegal.

Because all license holders have paid their fees, it is not believed that Howard's ruling will have any effect on them, but it is likely that Mayor Irwin will name a new board.

NORMA PATIENT AS CRIPPLE

By MRS. MARGARET BRIGHTON

Continued From Firs' Page

consideration in great and small matters. Under the greatest stress, she has never shown ill temper. It might be said that perhaps she has never shown it to me, but, after all, even when adoration exists between a daughter and a mother, there is no more lenient individual toward whom temper may be expected than a mother.

That sounds strange, of course, but we know it to be so genuinely true.

I will confess that I would sometimes irritate Norma just for the pleasure it gave me to test her patience and tolerance under such irritation. She had the quaintest and most amusing way of arriving at utter loss of patience, governed by a fine restraint. Time and again, with a mantle of indignation rising in her cheeks, she would look at me, quite stolidly and patiently, and say:

"Mother, you are simply crazing me."

I would immediately laugh, and in an instant she would be in my arms.

In that connection, I mean the reference to a nice or tolerant way of expressing herself when really emotionally affected, I recall an episode, involving a little black spaniel pet of hers, called Betsy. One day, I lunged at him and, in a flash of indignation, said:

"You little black devil get out of there!"

Norma looked at me in amazement and said:

"I'm surprised at you, mother. That's a nice thing fo. Betsy to hear."

I was troubled by the episode and said quickly:

"Oh, Betsy doesn't understand that, Norma."

Norma shook her head determinedly:

"She not only understands it," .he said, "but she'll repeat it."

In tomorrow's issue, Mrs. Brighton will tell of the interest between Norma's recovery and her development of delicate beauty.

RUMMAGE SALE

of good used and also slightly imperfect new furniture now going on at 178 Tremont St., Boston— 9 a. m.-6 p. m.—Sat., 9 a. m.-9 p. m. Exceptional values.

Prof. Dana Will Talk on Soviets

"The Land of the Soviets" will be the subject of a series of lectures by Prof. Henry Wadsworth Longfellow Dana, which he will begin tonight in Credit Union Hall, 62 Chambers st., West End.

Prof. Dana has made a number of visits to the Soviet Union. He will show in these lectures hundreds of pictures which he took on his recent trip.

You can see Barbara Holmes daily from 9 a. m. to 5:30 p. m. at the new free rental bureau on the fourth floor of the R. H. White Co.

'beacon hill'

By Betty Alden

THE PLEASURE of your company is requested at The April Ball for the benefit of the Frances Willard Settlement at the Ritz-Carlton on Friday, April 13, from 10 until 2 o'clock . . . buffet supper included served from 12 until 1 o'clock . . . Ruby Newman and his musicians . . . r. s. v. p. Sally Byron . . . such was the message we received yesterday afternoon when we met a group of Fair Things for tea at the Ritz to talk over the latest plans . . .

BARBARA EATON

Gathered about the cozy tea table in the corner of the lounge, the orchestra playing soft music in the distance, everything from fashion shows to the latest publicity stunt for the campaign was discussed . . . and were we amazed and disgusted when we learned that a number of sweet-faced debutantes had been asked to SHINE SHOES at the carnival today as a feature of the day . . . Shades of Old New England! We couldn't believe that any self-respecting little deb would allow herself to be used for any such purpose, no matter how many millions short the campaign may be . . . and what are parents thinking of to even entertain such an insane requisence . . . ? We do not believe that we will really see our pretty society girls blacking the shoes of the Great Public . . . the idea is too, TOO RIDICULOUS. Whoever gave birth to this stupid thought should be examined by a psychiatrist . . .

And while we are on the subject, has it occurred to others than ourselves that the debutante is being used for many enterprises which are cloaked under the name of charity but which cast no glory on the maiden herself . . . parading about in scanty bathing suits and lingerie, exposing her skinny little bones to an unsympathetic public; wearing herself to a shadow waiting on trade in stuffy shops, perhaps taking a job away from a girl who really needs it; begging for money from business concerns and individuals with no real interest in the cause except as an excuse to talk to strangers; standing in cold and crowded stations with a tin can asking for alms . . . being buffed and re-buffed by shopkeepers whose costumes they display, for the sake of strutting about in borrowed finery . . . it is incredible to us that nice, refined girls would submit to such treatment. Is there no such thing as family pride in this Boston, if not personal pride? Are there NO standards left? And now this . . . shining the shoes of the populace! The New Deal in charity . . . surely this is NEW.

* * *

Brown and Beige Tweeds

VIVACIOUS ASTRID RICE CHATTED animately all through the tea-time and has that maiden a real sense of humour . . . she kept us all in gales of laughter with her lapses into the vernacular of Charlie and Willie . . . her day-time tweeds of brown and beige with matching beige silk blouse was very natty.

Betsy Byron, who presided during the absence of sister Sally, was lovely as always in a garnet wool dress with brown mushroom hat. She made several excellent suggestions for the April ball, one of which (three champagne waltzes with lucky numbers for elimination, the winners to receive a bottle of champagne) was accepted on the spot. The idea now is to find a few kind hearts to donate the champagne . . .

Barbara Eaton, a well-bred brunette, attended in a brownish-orange wool trimmed with brown galyak . . . she has very expressive dark eyes and can wear the new halo hat charmingly.

Cuddled in mink Helen Marshall chimed in whenever she could get a word . . . our side of the table being so loquacious it was almost discouraging . . .

Catherine Ovesen arrived early in orange wool topped with brown fur coat, her broad-brimmed brown sailor the last word in smartness . . .

* * *

Frances Holmes in Dark Red Suit

MAGNETIC AS THE DICKENS, Frances Holmes arrived hungry and did that gal devour watercress sandwiches and tea cakes aplenty . . . she too has a gorgeous sense of humor and must be lots of fun on a party . . . her costume was red candy striped blouse worn with a dark red and black hat . . . it might have been a hat and then again it might have been a black handkerchief knotted up over one eye . . . truly the chapeaux are miraculous this season.

Marian Moffatt, a cunning little blonde in orange tweeds, had just been to the movies and seen Fredric March in "Death Takes a Holiday" . . . she was sort of in a haze and as all the girls had seen the picture they all sympathized . . . as one remarked "When you come out you just don't want to talk . . .

Frances Seaver was interesting in a plaid wool frock . . . she has a bright alert face which changes expression in a most bewitching way . . . a flower from last season's bouquet and still fresh and charming.

* * *

Progressive Dinner Planned

THEY TALKED ABOUT PLANS for a progressive dinner before the ball for the committee and the ushers . . . they insist that all ushers shall be six feet tall or over . . . that the party shall be very Ritzy . . . that the buffet supper MAY include those little nifty things with celery and chicken and that all champagne won in the elimination finals shall be consumed ON THE SPOT. What a merry tea party . . . and we know that the ball will be grand with such charmers guiding it to success.

Others on the committee are Marian Wood, chairman, Natalie Appleton, Ruth Gibson, Louise McNeil and Mrs. John Marshall.

* * *

Mr. and Mrs. Benjamin Schuyler Clark (Charlotte Lyman) have sailed for London where we hear the rumor they had gone to Charleston was to throw the reporters off the track it was reported. Mr. Clark will represent his father's concern, White-Weld, New York brokers, in England and will take up residence there.

MISS BARBARA COFFIN CHOSEN AS LEAD OF VINCENT VENTURES

ACT AS MANNEQUINS FOR CHARITY

MISS EVELYN WEATHERBY

MISS EVELYN WEATHERBY, daughter of Mr. and Mrs. Frederick S. Weatherby of Brookline, and Miss Katherine Baker, daughter of the Edward H. Bakers of Belmont, are mannequins today at the second of the fashion luncheons at the Club Touraine. A number of society's charity projects benefit from proceeds.

MISS KATHERINE BAKER

Guild of Infant Saviour Hostess at Style Show

THE TIDE OF FASHION sweeps onward. Believe it or not, there are some new ideas under the sun, as can be proved by the gorgeous display of spring creations that were shown yesterday at the Fashion Show luncheon, presented by the Guild of the Infant Saviour at the Hotel Somerset.

Symphonies in furs, suits, long and short, full or scant, new off-the-face hats, some of them veritable halos, evening costumes of filmy lace and chiffon . . . quite charming, a fair example of which was Cappy Ryan in a lemon petalled chiffon bridesmaid's gown . . . you almost expected it to blow away . . . pajamas that were made to be seen, worn on such a fair model as Kathleen Moran. As one views these new styles, we realize they are the study of the trained artist.

The Louis XIV ballroom had not held a more delightful audience this winter. Admiring critics was in the air and weaving their way among the tables, gay young daughters were busy selling chances for beauty treatments . . . something new . . . we didn't stay to see who won. Ann Ryan, Miriam Clarke, Jean Kiley, Ruth Leen and Priscilla Maher were in this group.

In a spring blue ensemble and one of the smartest hats we have seen, Mrs. Norbert J. Reilly, president of the Guild, was quite lovely . . . she was welcoming Mrs. Frederick Mansfield, becomingly gowned in purple, with orchids, for whom a reception was given before the show; chatting with several early guests was Mrs. Frederick W. O'Brien, past president, in black caracul coat and velvet beret; Mrs. M. L. Ryan of Chestnut Hill looked very youthful in a slim black gown with Italian cut-work bertha and small taffeta hat.

Miss Anne Ryan represented the younger set, with a crisp brown stripped tafetta, intriguingly cut . . . we hear she and Cappy are sailing soon for a cruise to Bermuda . . . while Jean Kiley's auburn hair gave the necessary color to her unusual black frock.

A good deal of credit goes to Mrs. Edward F. Goode, who was responsible for reservations . . . over 600 guests were there . . . she wore red crepe, most becomingly . . . and Mrs. James Gormley, on the committee, in black lace, busy at the desk.

Eleanor Sullivan

We chatted with that charming miss from Quincy, Mary McAnarney, in cool green crepe over which a beautiful caracul coat was worn . . . with Mrs. William B. Burke, former president of the Ace of Clubs, in the latest stripes and new turban.

At the head table, the Rev. Thomas A. Reynolds, spiritual director of the Guild, seemed to be quite content as guardian of so many ladies . . . we noted Mrs. Edgar Driscoll, vice-president, Mrs. Thomas Scanlon and Mrs. William Hall as his luncheon companions, as were Mrs. Mansfield, guest of honor, and Mrs. Reilly.

Between the courses of our delicious luncheon, we watched a happy group of 30, who seemed to have much in common . . . we recognized Mrs. Charles Garraghan of Belmont, in a snappy caracul coat and chic black hat, framing her blonde hair . . . Mrs. Philip O'Rourke, in beige crepe and brown accessories . . . Mrs. Frederick Higgins of Andover, in black crepe flecked with gold . . . Mrs. William J. Blake, in brown, gaily decked with green orchids and mimosa . . . she looked very smiling, no doubt because the Colonel has quite recovered from his recent illness . . . Miss Mabel, "Bunny" Bratton, ever genial secretary of the Harvard Twenty-fivers, in striking black costume with moleskin caps and white gardenias for contrast . . . Mrs. Lawrence Donovan and Mrs. Fred Barnard . . . they are sisters . . . both in brown tweed . . . Mrs. Charles F. Alden in black and white creation and a saucy Breton sailor . . . Mrs. Charles D. McCarthy, very pretty, costumed in black with rhinestones and a perk beret and Mrs. Thomas Quinn, wife of Judge Quinn of Natick, in the newest navy blue and silencon lace.

We inquired who was the charming lady, smartly dressed in black, with silver studed belt and silver buttons, and discovered Mrs. C. A. Comerford . . . also singled out Mrs. Placide Hebert of Marlborough st., both gay and smiling, with a huge bow tucked under her chin . . . and Mrs. Clement Dore, whom every one knows, in beige with brown details.

From Chestnut Hill, Mrs. James T. Dacey upheld the reputation of this exclusive section and we were so glad to see her we forgot to notice what she had on . . . she was lunching with Mrs. L. P. Lord, also of that section. Mrs. Joseph Gargan, the former Agnes Fitzgerald, was the center of a gay party, garnet velvet setting off her black spring suit . . . and we must mention a very striking ensemble, of cadet blue with short cape, ornamented with triangles of gray caracul fur, with which a large brown sailor hat was worn by Mrs. John Regan.

As a grand climax, Miss Eleanor Sullivan was quite the most ravishing bride we have seen this season . . . tall and stately.

Leslie Bremer Featured in Show

LEADING ROLE in this year's Vincent Ventures, to be produced next week, has been given to Miss Barbara Coffin. The prologue finds her talking with two friends, played by Miss Joanna Palfrey and Miss Leslie Bremer, and from there we follow them through many scenes and skits.

The first is entitled "Music" the personnel of which includes the Misses Rossmond Lockwood, who has written much of this year's music, Leslie Blake, Alice Burrage and Eleanor Shaw as composers; eight members of the public, Dorothy Harding, Rose Loring, Eleanor King, Catherine Pentecost, Cornelia Pentecost, and Dorothy West; chorus of notes, Peggy Blake, Leslie Bremer, Bettina Eshleman, Katherine Johnson, Amy Lang, Gwendolyn Livermore, Catherine Pentecost, Gertrude McGinley, Nina Phillips, Lucy Rantoul, Anne Sortwell, Peggy Woodworth and Emily Dick.

This is followed by a scene on painting, with the lead played by Miss Serita Bartlett. In this scene Miss Jane Dinsmoor is the promoter and those in the chorus of artists are the Misses Camilla Alsop, Leslie Blake, Joanna Palfrey, Elinor Fay, Cornelia Pentecost, Polly Powers, Marion Reggio and Constance Turner.

Writing is the title of the fourth scene. The author is Miss Peggy Stuart, and the soloist, Miss Elinor Fay, who will be remembered for her brilliant performance last year. Mrs. Chatfield Whitman and her daughters, Rose and Nancy Whitman, have created a ladder dance for this act in which the tiller girls will be the Misses Serita Bartlett, Leslie Blake, Peggy Blake, Alice Burrage, Alice Clark, Jane Dinsmoor, Bettina Eshleman, Phyllis Forbes, Dorothy Harding, Katherine Johnson, Gwendolyn Livermore, Rosamond Lockwood, Helen Marshall, Gertrude McGinly, Joanna Palfrey, Catherine Pentecost, Nina Phillips, Lucy Rantoul, Martha Rogerson, Anne Sortwell, Frances Turner, Molly Weed, Peggy Woodworth, Marjorie English and Emily Dick. Barbara Coffin, Dorothy Harding and Joanna Palfrey will do a sister act in this setting.

Mrs. Chatfield Whitman has written scenes for many previous Vincent shows besides having several Broadway productions to her credit.

Society Notes

BOSTONIANS DEPARTING for foreign shores today from New York include Mr. Samuel Ayres and Mr. Walter Kenyon, aboard the U. S. liner Washington . . . Hayden Channing, whose ultimate destination is the Grand National Steeplechase at Aintree on March 23, is a fellow passenger . . . Bound for a vacation under Bermuda's brilliant skies are Mr. and Mrs. Frank G. Allen, Mr. and Mrs. Harry F. Allen, Miss Ann Howard, accompanied by Mrs. J. K. Howard, Mr. and Mrs. George T. Dewey, Jr., and Mr. and Mrs. T. W. Chesterton, aboard the Queen of Bermuda . . . Mrs. Stanley Blanchard of Marlborough st., is a guest at the Waldorf-Astoria Hotel in New York for a short visit . . .

Woman's Club Calendar for Today

Midwinter session of the Massachusetts State Federation of Women's Clubs is being held at 10 o'clock at the Hotel Bradford today.

The Garden Club of the West Roxbury Woman's Club meets this morning at 10 o'clock in Library Hall. "A Year In the Garden" will be described by members. Mrs. John Codman will give demonstrations of preparing soil and planting seeds.

Boston Morning Musicale presents Yehudi Menuhin, child violinist, at the Statler at 11 o'clock.

Belmont's Woman's Club will hear Mr. Dan MacGowan talk on "A Naturalist in the Canadian Rockies" at 2 o'clock in Town Hall. Mrs. Lester Von Thurn, chairman of the Flower and Garden committee will preside at the meeting.

TOMORROW

Melrose Woman's Club will hold their annual guest night at 8 o'clock. Mrs. Frank P. Bennett, president of the State Federation and Mrs. Harry MacNish will be honored at the meeting.

"In An Antique Shop," a pageant-playlet will be presented by the Waltham Woman's Club in South Junior Auditorium at 8 o'clock. Miss Ethel Hawthorne Tewksbury will star in the show. Mrs. Margaret Stewart is in charge of the affair.

Prof. Sheldon Glueck, Harvard Law School, will speak at the luncheon of the Boston League of Women Voters, in Twentieth Century Hall, 3 Joy st. The meeting will begin at 12.30. Chairman of Child Welfare, Mrs. Edgar J. Driscoll, has charge of arrangements for the affair.

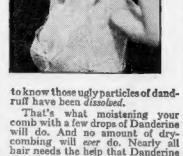
The Parliamentary Law Class of the Brookline Woman's Club will meet at 10 o'clock at Hotel Beaconsfield.

Winter is still here. You'd better replenish your fuel supply before a cold snap catches you unawares. The dealers listed daily in the Coal-Coke-Oil columns of the American and Advertiser are ready to give you immediate delivery at reasonable prices.

HAIR COMBED THIS WAY STAYS ARRANGED!

It isn't any trouble, and there's hardly any cost

DANDERINE insures your hair for a penny a day...



After you've spent many minutes arranging your hair, here's a way to *keep* it arranged all day or all evening. Without another "pat" or another thought! A few drops of Danderine on the comb—before you comb it.

A woman just can't believe the way this works until she has *tried* it.

Danderine isn't a sticky dressing, or even oily, yet it keeps every hair in place. It doesn't hurt the hair, or the color of the hair, and it doesn't leave any telltale odor. Its fresh fragrance is gone very soon after applying—but not that marvelous effect of freshness and cleanliness!

When you've washed your hair, a little Danderine will keep it from going helter-skelter.

Just try this:

A dash of Danderine every day—every time you comb your hair—makes you *sure* of your hair all day long! To know it's clean, and looks clean. To know it will stay as you arranged it. And to know those ugly particles of dandruff have been *dissolved*.

That's what moistening your comb with a few drops of Danderine will do. And no amount of drycombing will *ever* do. Nearly all hair needs the help that Danderine gives it. A dash of Danderine morning and night makes a great difference in the way any hair looks all the time! It does not affect the color.

With all the care you give your hair, it's a pity to omit this last touch that means so much. It's no trouble! Yet you can hardly believe anything so mild and pleasant as Danderine could bring such a change in the condition and appearance of your hair and scalp. Just try it. You can buy Danderine for thirty-five cents; larger sizes are 60c and $1.00.

REMEMBER:

Danderine isn't *sticky*.
It doesn't affect the color.
It definitely disposes of the worry over dandruff.
Its cost per day is next to nothing, it lasts so long.

NRA

$34.50 ONE WAY COACH FARE FROM CHICAGO via Santa Fe to **California and Arizona**

In roomy new Santa Fe chair cars, with ladies' lounge and smoking room, and wash room for men.

TRUE ECONOMY

There's true economy in Santa Fe coach travel to the sunny warmth of California and Southern Arizona—in money, time, strength. Rail travel is the safest, most certain, most comfortable means of transportation. Take 100 lbs. free baggage—and "stop-over," if you wish.

THIS IS LIFE

Our Youth Movement and Its Causes

By **ROBERT E. ROGERS**

WALTER B. PITKIN, author of "Life Begins at Forty" and "More Power to You!", who generally knows what he is talking about, was in our midst recently, spreading light among the provincials and telling us about our youth problem.

There was a time, not so very recently, when we rather prided ourselves on not having any "youth problem" in the sense in which Chicago and New York think they have a youth problem. But certain recent events, very much on the front page, may have persuaded our critics that our youth problem does not appreciably differ from the youth problem of the greater and more up-and-coming metropolises.

* * *

Idle Millions

PROF. PITKIN, according to the press, believes that we in the United States are likely to suffer from a "degenerate form of the youth movement in Europe." He said, among other things, that

"This youth movement will result from the 'lost generation'—some 22,000,000 people who left school about 1926 and have never had their energies organized because of lack of employment.

"Unless there is some quick organization of these energies and activities, we are going to see a degenerate form of the youth movement as in Europe. Hitler started with the same element in Germany, going round to camps and railroad stations and rounding them up. This is not a problem of preaching morale. This is the problem of finding life for them and it is not a problem of the CWA nor the CCC camps. There is beginning to be among them a strong feeling of discontent and of real rebellion.

"Already in that group we have a large number who will never go back to work by choice. They will find it much easier to roam, to go South along the railroad tracks as the seasons change. The practical social issue we have got to work out in a hurry is the problem of utilization of 22,000,000 human machines. They will probably have to face the land again and start new communities, pioneer, as they are now doing in certain parts of Japan."

* * *

PROF. PITKIN added that their colleges are doing nothing for them; their alumni associations are doing nothing for them. In that, at least, it is possible to utter a caveat. Anyone who knows anything about college or university organization knows that during the past three years the colleges have been bending every energy to find jobs for their unemployed graduates. All attempts made to provide for the unemployed architects and engineers alone, to mention a variety of college graduates with whom I am most familiar, would surprise the outsider. I grant you that the colleges have done nothing revolutionary, but what has been done within the framework of the existing systems of employment has been notable for its initiative and disinterested effort. The co-operation between the universities—particularly the state universities of the West—and the government, in the way of supplying further education to the unemployed and ambitious, has gone beyond any previous attempt in this country.

It has been generally estimated that about 20,000,000 people have been unemployed during the past year or two. To say, as Professor Pitkin seems to say, that these 20,000,000 are the products of our schools and colleges within the past six years, alone seems to be stretching the statistics considerably. If that is true, the total number of unemployed in America is infinitely larger than any estimates—even the most radical—that I have seen published. And if these 22,000,000 found nothing to do between the years 1926 and 1929—boom years, if there ever were any boom years!—I should guess that the fault lay not so much in the system as in the individual.

* * *

Aided Hitler

IT IS PROBABLY true that in Germany the nucleus of Hitler's brown shirts was the unemployed intellectual class. But it is not conceivable that Hitler would have found ready to his hand so docile and enthusiastic a crowd of revolutionaries if they had not been already inculcated with the age-old German tendency to submission to authority, even any self-proclaimed authority. Utter and abject obedience to proclaimed authority has for the past century been the recognized characteristic trait of the German people. It is not the characteristic of the American people.

In fact, the people were frightened into the arms of the Black Shirts, the followers of Mussolini, by the fact that Northern Italy had gone almost completely Bolshevik. It was either the black shirt or the red flag, and the Italian people, very sensibly, chose the black shirt. Behind the Italians, too, is a long, long record of Caesarism and authority. The liberal rebellion of Mazzini, Cavour and Garibaldi was only a brief interlude in over 2000 years of submission to ecclesiastical, civil, or military authority.

In the same way, Duranty points out that a thousand years of abject submission to the little father, the Czar of all the Russians, is the most perfect precedent for a whole nation's submitting to the self-constituted dictatorship of the Communist party, which numbered not over 5 per cent of the Russian people when it seized control and is still a small minority of the inhabitants.

* * *

THAT IS THE ARGUMENT on which Prof. Pitkin and others base the argument that we are in danger of a "degenerate form of the youth movement" in this country. I don't believe it! Such a pronunciamento leaves out entirely the past history of this country and the characteristics of this American youth. The fact that we have endured three or four bad years without any noticeable revolt is sufficient answer to this theory. Our young people have been notable for their patience, their comprehension of the difficulties facing the government, their willingness to share what there is to share without making trouble, their patience until something better turns up, and their quiet confidence in the traditional system in which we have all grown up.

Of course, the Melrose high school pupils went on strike because they resented an extra hour of school and because they wanted to sing tin pan alley jazz instead of classical music. Abroad, I suppose, that would be accounted a serious manifestation of the youth movement. Over here we are inclined to suppose that the children have temporarily grown too big for their knickers and scanties. We still think that the old fashioned spanking will take care of the problem, such as it is.

"Look Gwmbgna, I've had my face lifted."

BORED YOUTH

Is Childhood So Happy and Carefree?

Asks **JAMES M. CAIN**

THEY talk of the happy, carefree days of youth, but the more I see of youth the more I doubt if it is happy, the more convinced I become that it is not even carefree. My own youth, I know, was far from happy. You understand: there was nothing tragic about it. It was a standard, American youth, with a bicycle to ride on, a river to swim in, a dog, a cat, and an attic to give shows in on rainy days; a big library to read in, a sled, a reefer, and a cat rifle for Christmas.

On paper, I daresay it sounds fine, and yet I don't remember it pleasantly. There was, for one thing, the miserable business of school, which I hated and somehow feared. And in addition to school, there was that endless, gray, bleary problem of what to do with myself.

* * *

IN the Summer time, especially, killing time took on the proportions of a career. I read. I read Marryat, Thackeray, Kipling, De Maupassant, Scott, Poe, Cooper and Harte until I knew them by heart and was sick of them. I fished. I played the mandolin. I went canoeing. I shot pool.

I did all those things, and all they brought me was a feeling that there was something wrong with my life, that I was worthless and a disgrace to my father, that my days, if strung together, would add up to precisely nothing.

* * *

OF late, I have had some opportunity to observe modern youth, and all I can say is that it strikes me as being in exactly the spot I used to be in myself. The one fact of youth is boredom. And can you blame it? What, after all, has it got on its mind? Nothing whatever. It goes to school, but is unable to see what the reading of *Ivanhoe* has to do with the business of life, and if you think you can see, you have a better eye than I have, for I can't. It doesn't know where all this labor leads.

Furthermore, it doesn't get paid for study, and this is important. Your work, and my work, and everybody else's work, when you put the glass on it, is really quite as trivial as going to school is, but we get paid for it, and that gives us the illusion it matters. But youth doesn't even have that. And thus its work produces only a great emptiness, a vague notion that it is no much folly, or in its vernacular, baloney.

And finally, after school come the yawning hours, with nothing to fill them with but some silly game. But even bouncing a ball off the garage is preferable to doing nothing, to facing that terrible ache, that feeling of being a cipher in the big scheme of things. I do a little eavesdropping now and then, and believe me that ache is there, right in all their little bellies. Happy youth my eye! Youth bears more sorrows than all the rest of us put together.

"Okay, then, we'll make it two years from Tuesday—and I'm sorry you have a date tonight, Grace."

DOLLAR A QUART

By **GEORGE MILBURN**

"THE day following what I hope will long maintain its designation as the worst blizzard since '88 our neighbor, the dairy farmer, loaded his milk on a bobsled and started off to market over the deep snow. Our supplies were short and he invited me to ride with him as far as the village center. We were joined along the way by other farmers who loaded on their ten-gallon milk cans.

"Tell me they're getting eighty cents a quart for milk over to Westport," one of the farmers remarked.

"Eighty cents nothing!" a second farmer snorted. "They're paying a dollar a quart in Bridgeport and glad to get it at that."

"A dollar a quart for milk!" I exclaimed. "Goodness sakes! Those are regular famine prices."

"There's going to be a famine sure enough," the second farmer said darkly, "if something ain't done pretty quick to help the farmers."

"The farmer is the backbone of the country," the first farmer said, emphatically dotting a snow drift with tobacco juice.

* * *

"I RECOLLECT well a time I sold milk for a dollar a quart," a third farmer said, grinning with satisfaction.

"When was that?" I asked.

"It was in the blizzard of '88, or right after it, to be exact," he said in a ruminative tone... "I was just 11 years old at the time, and me and my sister was the only ones to home. My old man hadn't never come in off his route yet, had got caught out by the blizzard. We had 18 quarts of milk left there at the house, and a man come there and offered me a dollar a quart for all we had. I sold him 18 quarts for a dollar a quart. Eighteen dollars it come to. I was pretty proud of myself until the old man finally got home that night."

"What did your father say?" I asked. "Did he disapprove of selling milk for a dollar a quart?"

"Boy, did he! He kept hollering he thought he'd raised me different from that. As soon as he found out I'd been selling milk for a dollar a quart, it was all I could do to keep him from flailing the daylights out of me. Of course I was just a 11-year-old kid, and I thought it was perfectly all right to do that. But when the old man come home, if that wasn't a session now. You'd 'a' thought I'd committed some awful crime."

"Well," I said cautiously, "it does seem sort of heartless, doesn't it? The idea of people needing that milk for their babies and not being able to get it simply because some rich person who wants cream for his coffee is able to pay exorbitant prices."

"That's just exactly the way I look at it," the farmer said warmly. "I figure to myself that as long as there are babies needing the milk a man ain't doing right to jack up the price. I always was one to be clever and accommodating in time of need like this."

* * *

"YES," I said, "and I'll bet that talking-to your father gave you that day must have a lot to do with shaping your viewpoint there. He seems to have been a mighty kind-hearted man."

"Sure, sure," the farmer said in quick agreement. "I guess they didn't come any bigger-hearted than my old man was. But what made you think so?"

"Why, didn't you just tell me that he was angry with you for charging a dollar a quart for milk after a blizzard?" I asked, a bit puzzled.

"You're dern tootin' he was sore. When he come home and found I'd sold ever' drop of milk we had on the place for a dollar he could 've killed me. He aimed to take that milk over to town where they was paying two dollars a quart."

VAGABONDIA

Italy Is Small But There's Lots to See

Says **BRUNO LESSING**

ROME.—Mrs. Bodenweiser writes a nice letter from Chicago and says she is looking forward to a description of a sunset from Perugia. Also hopes if I go there, that I return by motor and watch the dome of St. Peter's as the sun sets over Rome. Also suggests that, if I get a crick in the neck looking up at frescoed ceilings, I use a hand mirror.

I've just come back from Perugia. I think I started from Rome about the time you wrote your letter. But, alas! I didn't notice the sunset. I did return by motor and didn't notice the sunset over St. Peter's either. As a matter of fact, I rarely get het up over sunsets to the extent of writing about them. You see so many as you wander around that, if you were to write about them all, readers would get bored.

* * *

GOT a good cackle out of your hand mirror idea. I tried it years ago and had forgotten about it. It was in one of those Genoese palaces where the ceilings are fairly plastered with gorgeous frescoes. I walked about with a small shaving mirror in my hand. I bumped into a dozen people and got dirty looks. And I nearly broke my neck stumbling over a stone lion. No, lady, my idea is a better one. Put a mattress on a wheelbarrow, lie on the mattress and have someone push you around. Only you must be sure that whoever is pushing you isn't looking at the ceiling himself.

Apropos of suggestion: many friendly readers keep on suggesting that I go to this or that place in Italy, and write about it. I only wish I could. What gets me sore is that many give the names and addresses of friends or relatives who will not only point out the beauties of the place but will provide dishes to eat that I never tasted before. Honestly, it's cruelty to animals.

When you're in U. S. A. and look at the map of Italy it's only three inches long and it would seem as if a person could roam from one end to the other and get back home for dinner. Even the hill towns of Umbria and Tuscany take up only half an inch square on the map. Yet it took me a week to cover one-tenth of them.

* * *

IF you're interested in travels, start reading Edison Marshall's story in Good Housekeeping "*The Spanish Quest.*" An adventurous romance of Indo-China. I never met the author but I dislike him. He snoops off to Asia, Africa the Arctic and other out-of-the-way dumps in the world whenever he feels like it and writes about them. Also, perhaps, a portrait of to do but can't. I wonder what he uses for money. I'll bet he's got a printing-press. Funny how you dislike people that make you envious!

* * *

I SUPPOSE some will think I'm smooth but I'm not. Honestly as I can't do all that I want to do I might as well get some diabolic satisfaction out of pretending to be sarcastic. Really though, I'm not only delighted but very much touched by such friendly, long-range good wishes and invitations.

Contract Bridge Technique

By JOSEPHINE CULBERTSON

Hand No. 1 of the World Bridge Olympic, held on February 1st of this year, brought out lessons in both bidding and play. The bidding lesson is that the responding hand with few high cards and indifferent distribution should respect his partner's strong bidding and carry him to game on the basis of the slightest additional values. The play of the hand then involves a very simple safety play.

North, Dealer.

Neither side vulnerable.

The bidding:

North	East	South	West
Pass	Pass	1♠	Pass
1 NT	Pass	2♡	Pass
2♠	Pass	3♠ (1)	Pass
4♠ (2)	Pass	Pass	Pass

(1) Despite the fact that North has previously shown no particular strength, South's hand is so big that he is still interested in reaching game. However, he is not strong enough to bid four himself.

(2) Despite the fact that his hand is a pretty indifferent looking sight, North must realize that he has previously indicated no specific strength to his partner. His no-trump responses merely showed the possession of little over one honor-trick, and the two-spade bid merely showed a preference. Since South is still interested in reaching game North must contract for it on the basis of holding adequate trump support and an Ace rather than a King-Knave or a King and a Queen in the side suits.

In the play of the hand South should employ a very common safety play, using the trump suit and a side suit. There are three minor suit losers in the hand and South must therefore avoid the loss of a heart trick. After drawing two rounds of trumps South should realize that if the hearts do not break, a heart trick will be lost as there is no possible discard. South accordingly plays out his hearts before drawing the last trump, hoping that if the hearts break 4-2 the player who holds the long heart holds the remaining trump also. Since this happens to be the case, South fulfills his contract by ruffing the fourth heart in Dummy, and East cannot overruff. If South draws all the trumps first, the hand cannot be made.

Just an Hour for Children

By ARTHUR "BUGS" BAER

Just a little children's hour for the grown-ups. Cinderella and her income tax.

"At the stroke of midnight," said Cinderella, "there was an ugly pumpkin and a half-dozen horrible mice."

"Nix on that," said the income tax man. "I saw you in a crystal coach drawn by six milk-white hosses."

So Cinderella paid off on the beautiful crystal carriage and the six white steeds.

Next, she did a rap in Atlanta for evasion. Now, she is drinking cold coffee out of her pretty glass slipper.

Seein' Stars

By Feg Murray

The Washington SIDE SHOW

Copyright, 1934, by Universal Service, Inc.

Washington, March 14—Some of the Democratic representatives feel better now that they have registered their vote for the bonus bill. The Senate is not likely to pass it —with a presidential veto in the offing.

Many members of Congress had become tired of being termed "rubber stamps." They desired to demonstrate—on a popular issue—that they had co-equal rights.

Inflationists led the bonus drive. If President Roosevelt had used the currency issue powers under the Thomas amendment the bonus might have stayed in a pigeon-hole. House members are saying. If economic conditions are not greatly improved prior to the next session, pressure to expand the currency will be tremendous, House leaders confide.

* * *

Murphy's Dilemma

Frank Murphy, governor-general of the Philippines, is in a dilemma. He may run for either one of two offices in his native Michigan.

Democratic leaders are said to favor his contesting for the governorship—to build up a strong state organization for the Democratic Gov. William A. Comstock is a Democrat, but he declared the original "bank holiday"—and Democratic tacticians seem to wish that forgotten.

Murphy is said to prefer to run for the Senate against Senator Arthur Vandenburg, one of the younger Republicans.

Vandenburg is hoping Murphy will decide for the Governorship.

Attorney General Homer S. Cummings had been mentioned oftenest for the Philippines post. But Washington isn't so sure of that. President Roosevelt likes Cummings and Mrs. Cummings enjoys Washington.

* * *

Senator Robert M. Bulkley of Ohio is becoming one of the most powerful figures in the Senate.

He was one of the few original Roosevelt men in Ohio. He was a classmate of the President's and is a lawyer of ability. But the Ohio Democratic machine did not relish him.

Senator Bulkley, by means of Presidential patronage, has wrecked the machine—and taken the best parts for his own use.

And he succeeds to the power once held by Newton D. Baker.

It was Senator Bulkley who recommended Judge Florence E. Allen of Ohio, the first woman to be elevated to a United States Judgeship.

Now there is word in Washington that Judge Allen may be appointed to the United States Supreme Court at the first vacancy. It would be another startling Roosevelt move.

Elder statesmen, however, cannot vision the eventuality.

* * *

Racket

A new racket is incensing the labor department.

Young girls are offered jobs by employment agencies. They are sent from their home towns to other cities—and then find the jobs are not what they are pictured.

The plight of a 14-year-old Baltimore girl is cited as an example.

An employment agency in Baltimore offered her a job nursing two children in New York. The girl was sent to New York on a bus. She was put to work doing the cooking, washing and ironing for a family of eight instead of taking care of two children.

Five days later she was discharged with one dollar as her pay.

* * *

Engagement

Army society—which extends around the world—is intensely interested in the announcement of the engagement of Miss Annette Gurney to Douglass R. Wood, of Fort Worth, Texas.

Miss Gurney, who is the daughter of Maj. and Mrs. Samuel C. Gurney, comes of one of the oldest "army families" in the nation.

She is the granddaughter of the late Richard H. Poillon, who graduated from West Point in 1871; a great-granddaughter of Brig.-Gen. Henry Rutgers Mizner, and a great-great granddaughter of Col. Joshia Howard, who participated in the War of 1812, the Mexican War and the Civil War.

But the man she is to marry is a civilian. He is a graduate of the University of Oklahoma and a member of the Kappa Psi fraternity.

* * *

You won't find it in guilds books, but there is an establishment in town which goes in for catering in a big way. New arrivals in the capital find it is the answer to a maiden's prayer in staging a banquet or a dance, or throwing a big party for a debbi. No matter what is needed in the entertainment line, or even for a chas.) funeral, the establishment takes your order and does the rest.

It supplies the luxurious apartment or hotel room needs, the proper furnishings, the butler and the maid, the music and the refreshment, the favors and souvenirs for any occasion. All one needs is the money to pay for the service, and, presto, there you are, the genial host or hostess, with the proper setting even to the antique furniture and, perhaps, a portrait or two in oils that might pass for the family ancestors. A list of some of those who have used the service would surprise some of the social blue-bookers.

* * *

Pretzels Saved!

Pretzels are saved—to the tavern counter!

The NRA has ruled that pretzels may be furnished to beer drinkers free, provided attention is not called to the fact that they are free. (Free lunches are prohibited under codes.)

* * *

President Roosevelt still is in jovial as ever to newspapermen.

In the secrecy of his office he is said to have been considerably wrought up over the army airmail record. But his irritability is outside when he sees newspapermen.

The President has been an intensely busy man these past few weeks. He will be out of the White House only once in 10 days, and then for an hour's drive to Mount Vernon.

* * *

Just Jottings

People are eating more—in C. tal restaurants. There is a waiting line now from 12 to 2 . . . Lower prices in Washington are much lower than in New York—and rat traffic is heavy . . . Mme. Sato, wife of the new ambassador from Japan, is one of the new social favorites . . . If your income tax report was wrong more than three years ago, you can't be prosecuted. The statute of limitations applies after three years.

Scattered Teutons Arouse Europe's War Fears

Editor's Note—Europe fears Nazi Germany because of Hitler's avowed intention of unifying 80,000,000 Germans, H. R. Knickerbocker writes from Geneva in the 27th article of his series "Will War Come." The growth of the Nazi party outside of Germany indicates that a great many Germans in other countries desire affiliation with Germany.

By H. R. KNICKERBOCKER
International News Service Staff Correspondent
Copyright, 1934, by International News Service. Reproduction in whole or part forbidden.

Geneva, March 14—Why does Europe fear Nazi Germany? Why should it make any difference to the peace of Europe if Germany rearms? Why does nearly every statesman in Europe refer the question "will war come?" back to Adolf Hitler?

"It all depends on Hitler," is the phrase that, expressed or implied, summarizes what men who head the state of Europe say when asked about war or peace. Is this general opinion true? If true, why does it "all depend on Hitler?"

Here in Geneva, seat of the League of Nations, the answer may be found. It could be sought in the crowded bureaus of the league, and be admirable, intelligent and helpful secretariat, civil servants of the league, could supply a ten-foot shelf of documented discussion of the topic. A simpler, cheaper answer hangs in the window of a Geneva book-shop.

It costs 25 cents. It is a map. It is entitled: "Sprachenkarte von dittleeuropa," and it shows, according to its German publisher that there are 85,263,000 Germans in Europe, most of them bordering them the third Reich would like to bring within the fold. It is still less clear how many of them the third Reich believes itself capable of bringing into the fold within the predictable future.

But the Germans or German-speaking peoples living just across the German frontiers are obviously the most interesting for Pan-Germany. Working around the map of Germany counter-clock-wise, from the northeast corner, one may find these groups of Germans in Memel, belonging to Lithuania; Danzig; West Prussia and Upper Silesia, belonging to Poland; a wide belt all the way around inside the northern, western and southern borders of Czechoslovakia; all of Austria; a fringe of Hungary next to Austria; a fringe of Yugoslavia; the South Tyrol in northern Italy; all of tiny Lichtenstein; two-thirds

LIKE A RING AROUND GERMANY

Away from the Fatherland, but hardly far enough to be unable to answer a war call of Chancellor Adolph Hitler, German leader, are millions of Germans. This map shows the ring of Germans, out of the Fatherland, in Europe.

upon the German Reich with its 65,000,000.

Confirmation of the German version costs another 25 cents. It is another map, by a French publisher, showing in the French language, and on a different scale, virtually the same language division as the German map. Both maps show that 20 countries of Europe harbor enough German to be worth recording, and that most of the 20 have enough Germans to make them deeply disturbed at the prospect that some day someone may attempt to unite all these Germans into one nation.

Adolf Hitler united 65,000,000 Germans in Germany for the first time in German history. Statesmen of the 20 states around and near Germany note that fact. They also note that the National Socialist Party calls for the unification of all German peoples. Hitler has spoken of 20,000,000 Germans. German mapmakers today give Pan-Germany more than 5,000,000 Germans in excess of the Nazi leader's estimate.

Here is the list the German map gives: Germany, 65,000,000; Austria, 6,300,000; Czechoslovakia, 3,500,000; Switzerland, 2,860,000; France 1,700,000; Poland, 1,350,000; Rumania, 800,000; Yugoslavia, 700,000; Hungary, 600,000; Dansig, 360,000; Italy, 300,000; Luxemburg, 250,000; Belgium, 150,000; Lithuania, 131,000; Holland, 80,000; Latvia, 75,000; Denmark, 60,000; Esthonia, 30,000; Lichtenstein, 12,000; Sweden, 5,000, and European Russia, 1,000,000.

11 More Nations on German Border

Of the 20 countries named, besides Germany, 11, Austria, Czechoslovakia, Switzerland, France, Poland, Dansig, Luxemburg, Belgium, Lithuania, Holland and Denmark, with a combined German speaking population of 16,741,000, border on the Germany of today. When and if Austria goes Nazi, Hungary, Yugoslavia and Italy with another 1,650,000 Germans will also border on the greater third Reich.

Thus in the event of a Nazification of Austria the greater third Reich with a population of around 72,000,000 Germans would be contiguous to territory harboring another 12,000,000. Only Russia, Sweden, Esthonia and Latvia would be separated by other states from the mighty pull of the largest nation, the most intensely nationalistic people, and the youngest church of racial religionists in Europe.

Now nobody knows how many of these German-speaking peoples outside of present day Germany would like to join the third Reich. It is not even clear how many of of Switzerland; Alsace-Lorraine, the one-time "lost provinces" of France; the Saar; Luxemburg as a whole; Eupen-Malmedy in Belgium; the Maastricht District of Holland; and North Schleswig in Denmark.

Woodrow Wilson, betrayer of the German nation according to German thought, nevertheless put a weapon in their hands. Self-determination of peoples should logically apply just as well to Germans. If the principle were justly applied it should permit the assimilation into the third Reich territories adjacent to it and occupied by a majority of Germans who wish to become a part of the Fatherland.

How many of these Germans outside of Germany do wish to join the third Reich? The answer can not be given in accurate percentages but from the evidence of the growth of Nazi parties in countries containing significant German groups, it is a very large percentage, and possibly even a majority.

National Socialist parties have been formed, and though in many cases supressed, are in most cases continuing to exist and grow legally or illegally, in Sweden, Esthonia, Latvia, Lithuania, Czechoslovakia, Hungary, Rumania, Switzerland, Holland and Denmark, as of course in Austria and Dansig. Dansig is to all political intents and purposes already a part of the third Reich. In Austria the position of the Nazis is too well known to need further description.

But what would be the position of the various countries involved if the dream of Pan-Germanism were realized, and all the German speaking peoples living in areas contiguous to Germany were to become united in the third Reich?

Luxemburg Would Lose Its Identity

Lithuania would lose her only port, Memel, which it is true she took by force from Germany when the Reich was at its weakest. Poland would lose rich mining territory in upper Silesia. Czechoslovakia would lose such a large fraction of Bohemia that only a shrivelled kernel would be left. Austria, of course, would pass in toto to the Reich.

For Hungary, Rumania and Yugoslavia the question is less realistic, as their German population is scattered too widely. For Italy it would mean the loss of the south Tyrol, considered strategically indispensable for the defense of the country, and the loss of the valued port of Trieste.

For Switzerland it would mean the break-up of the Bund, with two-thirds going to Germany and the French and Italian parts falling to their respective motherlands. For France it would mean the loss of the greater part of the territories for which she fought the war, Alsace and Lorraine. Luxemburg would pass completely into Germany. Belgium would lose an insignificant morsel of land, and Holland also, but Denmark would have to give up once more North Schleswig, which she values highly.

At the end, were this mighty aim accomplished, the greater third Reich would stand there with its 10,1 000,000 to 85,000,000 population, incomparably more numerous in men, richer in resources and more powerful industrially, politically and militarily than any other state or combination of states in Europe.

Germans long before Hitler was born have dreamed this magnificent dream. They feel sincerely, and not without historical justification that they have a right to national, racial unity. Spain, France, England gained their national unity centuries before Germany took the first step toward hers. America was a nation when Germany was only a concept. Japan has sprung away beyond her language frontiers. Italy has become full-grown.

Clemenceau is credited with having coined the phrase: "There are 20,000,000 too many Germans in the world." Hitler answered in the Nazi bible "My Battle." "There are 80,000,000 Germans in Europe today," wrote Hitler. "In less than 100 years from now the continent of Europe will be inhabited by 250,000,000 Germans."

This is why Europe's statesmen say "it all depends on Hitler."

(Tomorrow—The Saar election may decide whether Europe will go to war sooner or later.)

LEGION OPENS DRIVE ON REDS

Los Angeles, March 14—Police and legislative action to rid California of the Communist menace was advocated in a resolution adopted by the 91st Division A. E. F., Post of the American Legion.

Directed to the attention of all posts, and the national body of the legion, the resolution was aimed particularly at aliens who are active in spreading the Communist creed.

"It is estimated by civil authorities there are now in excess of 500 aliens who are illegally in this state, preaching doctrines advocating the overthrow of this government by force or violence," the resolution stated.

Mrs. Roosevelt to Sponsor Destroyer

Mrs. James Roosevelt, daughter-in-law of the President, will sponsor the U. S. S. Farragut when the destroyer is launched tomorrow morning at 10:45 at the Fore River plant in Quincy.

Blindfolded Man Found Shot Dead

Oceanside, N. Y., March 14 (INS) The body of a man, about 45, shot through the head, his eyes blindfolded, was found today beneath a billboard by Steven Zizensky, a truck driver of Bridgeport, Ct.

Memory of Mrs. Hearst to Live in School Fund

Washington, March 14 (US)—In honor of the memory of Mrs. Phoebe Apperson Hearst and with the approval of her son William Randolph Hearst, a trust fund to be used in aid of needy school children has been created by the Washington Herald.

Mrs. Hearst was one of the two founders of the National Congress of Parents and Teachers.

Mrs. Joseph N. Saunders, president of the District of Columbia Congress of Parents and Teachers, is chairman of the board of trustees that will administer the Phoebe Hearst Parent-Teacher Foundation.

Other members are Mrs. Eleanor M. Patterson, Mrs. Sara V. Blackstone, Mrs. Emma M. Chatell, Michael W. Flynn, Walter B. Fry, William H. Mills, Harry N. Stull, John W. Townsend, and Miss Selma Borchardt, alternate.

A survey is being made, Mrs. Saunders said, to assist children in the junior and senior high schools in need of help. She said:

"We hope eventually to be able to carry the work into college scholarships. At present, we are buying glasses for pupils who cannot afford them, and pay the fare to and from the eye clinic, helping the children receive needed dental and medical care.

"We have one junior high school pupil who is ill and will be unable to attend school until warmer weather. We are providing him with a tutor so he won't be behind in his work when he goes back to classes.

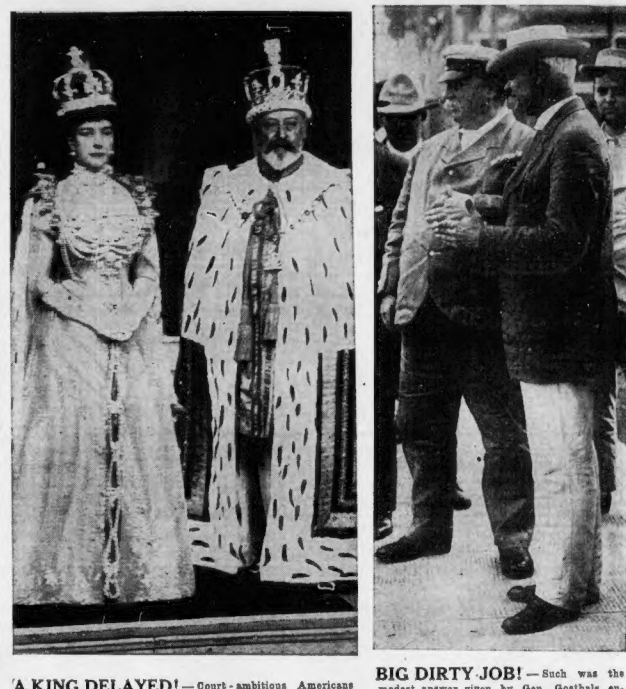
"Clothing is needed by many, and we are helping with that, too. During the recent severe weather we furnished galoshes to many.

PICTURE PARADE

EPIC PHOTOGRAPHS THE WORLD REMEMBERS

WHITE FLEET FADES!—This historic trip around the globe by 16 battleships of the U. S. Navy in 1907 marked the end of the Great White Fleet—because after this trip all the navy ships were painted battleship gray. The cruise took 14 months and was an evidence of Uncle Sam's sea strength. What a showing we would make today.

HARDY PERENNIAL!—When the flowers of the old-time stage are mentioned, the bloom of Fanny Ward always crops up. Born in 1872, Fanny is now 62 years old, but she is known far and wide as "the perennial flapper." She made her first stage appearance in 1890 at New York's old Broadway Theater. (International News Photos.)



A KING DELAYED!—Court-ambitious Americans made many Atlantic crossings before they finally were able to attend the coronation of King Edward VII when he and Queen Alexandra were crowned on Aug. 9, 1902. Illness and the Boer War postponed the ceremonies several times. Back 75 years ago, Edward was as popular as the Prince of Wales as the present Prince is today. (International News Photos.)

BIG DIRTY JOB!—Such was the modest answer given by Gen. Goethals, engineer-general who built the Panama Canal, when the then Secretary of War William Howard Taft declared the digging of the big ditch was "directed by genius." Said Gen. Goethals: "There is no genius about it, Mr. Taft." This was in 1908 when you and I were young, Maggie. (International News Photos.)

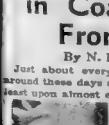
CHELSEA KNIGHTS ON TOUR!—It was a rollicking trip to Washington—that of the Chelsea Knights of Columbus in 1912—and they rode on this, one of the first sight-seeing buses, saw the annual circus in Congress and took in all the sights, human and inanimate. No. 1 in this picture is Jack Callahan, the Chelsea butcher; No. 2 is (well, bless my soul if it isn't young Larry Quigley, now the mayor); No. 3 is Charles Finn, now police chief; 4 is the late former Mayor James H. Malone; 5 is Thomas Punch, editor of the Catholic Citizen in Chelsea, and No. 6 is the late James G. Power. Note the style of this first bus, operated by electric batteries hidden in that center box.

LABOR BILLS DISCUSSED ON AIR -:-

Senator Wagner to Be Heard in Coast-to-Coast Hookup From Capital Tonight

By N. F. T.

Just about every time we turn around these days and nights, or at least upon almost each twist of the loudspeaker dial we venture, there comes the vigorous voice of some Senator with a discourse having to do with one of the ever so many current national problems. Tonight, for example, affords an airing on the subject of "National Labor Board Legislation" as being



Senator Wagner fed coast to coast four winds (WBZ) from Washington by Senator Wagner of New York. Important developments are taking shape regarding ways and means of affording more and adequate work under federal guidance. Much of it all is directed and takes shape under the supervision of Senator Wagner, who is chairman of the National Labor Board.

TENOR TAKES OFF

After this evening (WBZ-WBZA) the beloved Irish singer John McCormack will be replaced during the weekly vocal solo period at 9:30 by John Charles Thomas, noted operatic baritone. McCormack will hit the trails into darkest Africa for a vacation period from stage and "mike" engagements.

• • •

Between broadcasts and scheduled footlight flings last night, Graham McNamee appeared in person with a revue on Broadway. Ed Wynn was in the audience, but restrained from ribbing his announcer as he does behind the microphones. However, alert "Mac" made reference to Wynn being present, poking the fun freely himself. Afterward, when asked how he liked the show, Ed said he thought theatergoers considered him to be the "perfect fool," but he isn't so sure about his right to the claim any longer.

• • •

Special Easter church services for the entire Byrd expedition personnel to Antarctic regions are in the process of taking shape to be broadcast over CBS network and shortwave facilities as part of the polar program on Saturday night, March 31.

• • •

An address by U. S. Atty.-Gen Homer Cummings is due tonight when the New York County Lawyers' Association Dinner holds forth in Gotham, and likewise on the air waves (WEEI) between 10:30 and 11 o'clock.

Pupils to Get Rushmore Aid

Special days for class instructions as an aid to school children and college students will be a part of the Rushmore Memorial contest being conducted by the Boston Evening American and Boston Sunday Advertiser.

These instructions will be printed from day to day in these tow newspapers.

Special days will be set apart for grade and high schools, universities and colleges, at which time essential historical data necessary in composing the 600-word document will be given.

TEACHERS TO AID

Indications are that scores of principals and teachers will lend their assistance to pupils and the committee by choosing the most outstanding five inscriptions in each class. These will be dispatched to the central school board.

The Boston Evening American and Sunday Advertiser, in association with other Hearst newspapers, is sponsoring the contest

Prizes ranging from $1000 cash for adults, to colleges and school scholarships, medals and cash awards for pupils are offered for the best 600-word inscription to be carved in gigantic letters on the national monument in South Dakota.

Payson Smith, commissioner of education for Massachusetts, has joined the local committee of celebrated educators and professional men who are serving. Other prominent men have indicated they will lend their assistance on the committee.

EVENTS ARE LISTED

The essay should sparkle with patriotic fervor as befits a nation built by such deathless heroes as Washington, Lincoln, Jefferson and President Roosevelt of our own day.

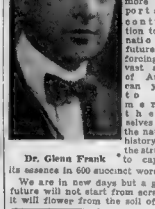
Contestants should not lose sight of the fact that the compulsory list of historical events which have been chosen for treatment includes

1—Writing of the Declaration of Independence.
2—Drafting of the American Constitution.
3—Purchase of Louisiana.
4—Ceding of the Floridas to the United States.
5—Rise of the Republic of Texas and its entry to the Union as a State.
6—The Mexican War and acquisition of California.
7—Settlement of the Oregon boundary dispute.
8—The Alaska purchase.
9—Building of the Panama Canal.

DR. FRANK FINDS GLORY IN PAST

By DR. GLENN FRANK
President University of Wisconsin

Important as I think it is to carve in stone such deathless symbols of the national genius as Washington, Jefferson, Lincoln and Roosevelt, the epic text competition may make as even more important contribution to the national future by forcing a vast army of American youth to immerse themselves in the nation's history in the struggle to capture its essence in 600 succinct words.



Dr. Glenn Frank

We are in new days but a great future will not start from scratch; it will flower from the soil of the greatness that has exalted our past. And while we are so busy repenting the sins of our past it is good to focus the minds of contestants in this competition on the virtues of our past.

MILLION YEARS FOR RUSHMORE

Washington, March 14—Gutzon Borglum today made public the plan to insure the endurance of the inscription of America's epic on Mt. Rushmore, in Dakota's Black Hills, for at least 1,500,000 years!

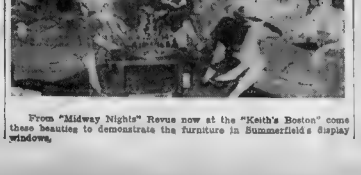
It has taken the United States 137 years to become a nation.

America has been known only 442 years.

And in the span of two summers—the 600 words which millions of Americans are now preparing to write in order to assist the Mt. Rushmore National Memorial Commission in its search for the best possible story of this nation and its ideals—in two short summers those words will be graven in the living granite of the Rocky Mountains.

But they will last, Borglum said today, at the very least 1,600,000 years, because these words are to be cut into the mountain to a depth of four inches.

Enhance Furniture Display



From "Midway Nights" Revue now at the "Keith's Boston" come these beauties to demonstrate the furniture in Summerfield's display windows.

Pippin and Vivian in Merry Party at Seashore; Talk of Gold Diggers

CHAPTER 30

It was a warm Indian summer day with poppies still gold on the hills, roses blooming in every doorway and a perfumed breeze blowing over the valley. They drove along the ocean shore to that little crescent on the Half Moon Bay road where along the shore was a little grove of trees. This was their favorite haunt.

They built a large bonfire and cooked steaks. They sat around afterwards and listened to music from a little phonograph Pippin had brought. Vivian rested her head on Sherry's shoulder and sang. Sherry accompanied her with his deep, lilting whistle.

Vivian looked lovely in that lavender jersey. Alice Steele said she had woven into her bones, into her manner, her deep undulant voice; into every inflection of mind and body, the lure of sex. Something born with her, like an ear for music. As she sang, you felt it. Sherry looked down at her; his eyes kindled

"She's right," Pippin thought. "He cares"

Said John Loyd, studiously toasting marshmallows

"You know everything, Alice—why do women like melancholy songs?"

"Our souls are so deep," said Kathleen

"They're the darling males," offered Pippin.

They began to argue. They skipped from music to emotions, to women and love

"But you can't free women," said Gregg, giving Pippin a nudge "If we do, honor vanishes and the gold-digger arrives"

"Is that regrettable?"

CONSIDER FIRGINE, CHRIS ALICE

"Or is it a new phenomenon?" said Alice, who liked to show off her knowledge. "Just read Mary Beard's book, little boy, if you think this is the first generation when 'honor' has passed from the earth. In the glory that was Greece, the notion that women should be 'good' was just too cute for enlightened ladies to consider.

"And as for gold digging, consider Phryne, who had loot enough to rebuild the walls of Thebes when Alexander destroyed them."

Vivian had her hand tangled in Sherry's bright hair. His head rested in her lap. She leaned down. There was something maternal in the gesture.

Pippin saw the expression on Vivian's face—tender, protective beautiful—the way Helena looked at Jon. It gave her a pang.

Then Vivian gave a soft, musing laugh

"In one of my past lives I must have been Phryne or some other classic soul, and I've still a yen for the wide open spaces of the soul. Let's have a dip in the ocean and cool off. You brought swimming suits, didn't you?"

"It's too cold," said Alice Steele lazily.

"You couldnt get me in there if every drop of water that touched me turned into a dollar," agreed John Lloyd

VIVIAN VANISHES IN THE BREAKERS

But Pippin sprang to her feet She and Vivian dunked into a little shelter and got into their swimming suits

Gregg, sitting by the fire, yawned and stretched.

"Guess I can't let you perish alone" Sherry followed

The four of them took hands and were soon diving through the breakers, letting the waves carry them back. It was chilly, delicious business. Sherry and Vivian ran back to the fire.

In a moment Vivian was at Pippins side again. She said, the moonlight making her face so white and her eyes glittering

"It's gorgeous fun. Oh, Pippin did you ever know such a love-ly, lovely night! Take my hand. See if we can hold together. Come on —let's go!"

The water rushed between them, breaking their clasp. Pippin rode back on a wave, Laughing and her teeth chattering, she shook the foam from her eyes. She saw Gregg dragging a log and Sherry standing at the fire. She looked startled at the breakers and called.

"Vevv! Where's Vevv?"

They stood heedless at the fire. Pippin called through the boom of the sea

"Is Vivian there?"

Then she saw, or thought she saw, some one swimming just beyond the breakers. She thought, indignant

"She shouldn't do that—it's too dark."

She struck out and in a moment was at Vivian's side. She called

"You scared me. Come back." Vivian answered.

"I like it"

"We're out too far. It's freezing"

"I'm not cold. You go in. I want to swim."

She went on and on. Suddenly Pippin was frightened. She said, "Vivian, come back!" and flung her arms around Vivian's neck.

Even in the dimness Pippin could see the startled look in Vivian's eyes. She managed, "Let go, fool. I'll come in"

She swam around then. The waves carried them back. As they emerged from the foaming surf Vivian said

"Why did you do that? Sherry and I often swim out there. It's smooth as glass."

Pippin felt foolish. She said, "I don't know. Lost my head, I guess."

VIVIAN LAUGHS AT PIPPIN'S FEAR

Vivian said with a laugh, "Well, I'm glad they didn't notice. I thought for a moment you were going to drown me."

They walked, chattering to the big, roaring bonfire and dried themselves. Vivian said

"We had a nice little swim, only it wasn't long enough."

She sank to the sands, letting her head rest against Sherry's shoulder

"It's all fixed up, Vivian, isn't it?" Pippin said happily the next day. "He seemed awfully sweet last night. Awfully glad to be with you."

"Moonlight and music and any pretty girl," said Vivian, her back turned as she reached down a book

"It didn't seem that way to me. He was all in love with you, again. You looked beautiful—more handsome than usual."

"I planned it. That's the last picnic for a year or so."

"Do you mean Sherry hasn't come back?"

"I'm not really thinking about it, Pippin. You seem to be doing all the worrying."

Vivian opened her books and refused to talk further. She sat there in a kind of hard, cold tensity

PIPPIN WATCHES SHERRY WITH PAULA

That afternoon Pippin saw Sherry walking across the campus carrying Paula Meeds books and laughing down at her gayly

• • •

Pippin went to Vivian's apartment. The latch was off. She walked in. She must have gone noiselessly, for Vivian didn't hear her

The living room had a disordered air. Letter paper, scribbled across and torn to pieces, lay on the floor

Vivian was sitting at her bureau her hands clenched together, black wildness in her eyes. Pippin saw her reflection in the mirror before Vivian had a chance to pull any mask over her expression

Pippin stood in her tracks with her lips parted on a choked "Oh!"

Vivian wheeled around, forcing a smile

"What's the matter, Vivian'"

"Nothing"

"Yes, there is! There's something terrible the matter."

Vivian wheeled about with that dark blindness in her eyes and burst into tears

"I've lost Sherry'"

PIPPIN TRIES TO CONSOLE VIVIAN

Pippin felt weak. She dropped to her knees and put her arms around Vivian's waist;

"What makes you think Sherry is so hopeless? Give him a chance, Vivian. He was awfully mad about you only a little while ago."

Vivian said, in a still, dim tone:

"He's not mad about me now."

"But he won't let you down. He's not that sort"

Vivian leaned down and looked with a dead calm into Pippin's face

"He won't let me down—no—"

Something in the still, icy desperation of her tone went into Pippin's brain like a bright, sharp knife. She stood up, the room clouding. She took hold of Vivian's shoulders and whispered in Vivian's face:

"You knew this last Tuesday—th a was what you heard—what made you look so wild. You got up that picnic—you swam out there. You meant to—"

Does it seem like that to you, Pippin?" Vivian interrupted

"You're mistaken I only learned of this afternoon I was happy at the picnic. My last happy day. Don't worry about that angle I don't want to die. It's no solution How could you think I meant to drown? I'd hate that strangling."

PIPPIN CALLS SHERRY BY PHONE

Pippin's heart made a loud, frightened tumult in her throat. She went on

"Don't do that, Vivian! [redacted] would be worse to your mother than anything"

I'm not going to kill myself, Pippin I'm going to meet it somehow

I think Sherry still cares "

"Are you saying that to console me Pippin?"

"He seemed very much in love with you the other night. He has a great deal of tenderness! he has strength, too. Vivian, let me go and see Sherry I think I can make him see his mistake"

Vivian turned quickly away. She covered her face. Pippin went to the phone and made a date with Sherrdan Grun-

[redacted]

Tomorrow: Pippin tries desperately to help Vivian.

Peter Rendl, of Passion Play, Dies

Oberammergau, Germany, March 14 (AP)—Peter Rendl, 63, chosen to act as the Apostle Peter in the coming Passion Play, died today His widow, Aloysia, was the daughter of the famous impersonator of Christ, Joseph Mayr.

Studley Heads Board

Lynnfield selectmen have organized with the election of Clarence A. Studley as chairman.

NOW RIP OFF FAT *Famous Quick Way* **For 2¢ a Day!**

1 "Nobody Loves a Fat Girl"

2 She Decides to Get Thin

3 After Following the JAD Method

Scientists have just announced a remarkable discovery which enables the fat person to grow thin at a cost so small that it hardly need be considered!

Indeed, in this way you can eat 3 full meals daily and lose—comfortably—as much as a FULL POUND EVERY DAY!

All for about 14¢ a week!

All You Do

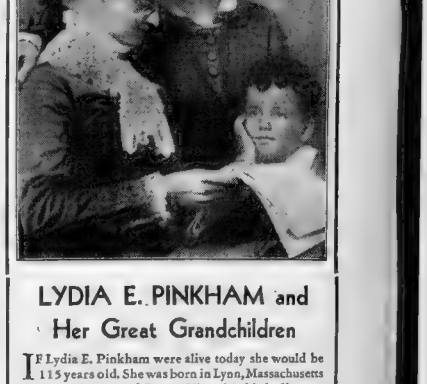
It's amazingly easy. You just do two simple things. Get a bottle of the new *Condensed* JAD Salts and take a teaspoonful in a glass of water before breakfast. Make two small changes in diet—as explained in the folder inside the *Condensed* JAD package you get. That's all!

You look pounds lighter from *the first day,* for the *Condensed* JAD Salts banishes excess moisture weight and all puffiness and bloat *at once.* And the system is quickly cleared of depleting poisons...*Yet you never need know a hungry moment.*

Month's Supply Only 60¢!

Just ask for the new *Condensed* JAD Salts at any drug store. A month's supply is *only 60¢. You actually can follow this scientific plan for 2¢ a day.* Don't forget ask for the new *Condensed* JAD Salts.

Begin the quick JAD Method of reducing—tomorrow morning. The *Condensed* JAD Salts—remember—is urged as a poison-banishing agent...to banish unhealthy bloating and to eliminate body moisture—not as a reducing aid.



LYDIA E. PINKHAM and Her Great Grandchildren

IF Lydia E. Pinkham were alive today she would be 115 years old. She was born in Lynn, Massachusetts in 1819, the year of Queen Victoria's birth. She was the mother of four sons and one daughter. Her descendants still continue to manufacture her Vegetable Compound and other medicines and the integrity of four generations is behind the products.

More than 700,000 American women have written in to say, "Your Vegetable Compound helps me." They take it before and after childbirth, at the Change, or whenever they feel weak, nervous and rundown. They give it to their daughters and they recommend it to their neighbors.

Any medicine which benefits so many other women must be good. Let it help you, too.

TABLETS, TOO!

Many women like the convenience of Lydia E. Pinkham's Tablets. They relieve and prevent periodic pain and discomfort. Take them regularly and, if yours is not a surgical case, you can probably escape periodic upsets. New purse size package—50¢ at all drug stores.

PERSISTENT USE BRINGS PERMANENT RELIEF

Sold at good drug stores everywhere

Lydia E. Pinkham's Vegetable Compound

TREMONT ST. AT BROMFIELD

'COCKTAIL WAR' FLARES ANEW

The "cocktail war" between members of the junior and senior Women's Clubs of Quincy, supposedly relegated to the limbo of forgotten things, has flared anew with the younger women indulging in a large case of "sulks."

The trouble started again last night, when Mrs. Beatrice W Nichols, president of the senior club, attended a birthday party held by the junior club. It was Mrs. Nichols who ordered young women out of her club's Valentine party because she thought they had imbibed too freely of cocktails.

Her presence caused Mrs. Ethel H. Monroe, chairman of the junior club's dramatic committee, to present the first case of "sulks."

Miss Jean Graham demanded that Mrs. Nichols be forced to rise and defend her action at the Valentine Day party.

Throughout the demonstration Mrs. Nichols remained calm and silent.

FLOWER SHOW FAVOR GAINS

So many "repeaters" thronged the flower show at Mechanics building yesterday that even larger crowds are expected today and tonight, when other "repeaters" arrive.

Mayor and Mrs. Frederick W Mansfield paid their second visit last night, declaring that there was so much to be seen it couldn't all be done in the first visit.

The replicas of spring woodland scenes bird sanctuaries, herb and vegetable plots are attracting as much attention this year as floral displays.

$2 QUART RUM LOW IS SEEN

Washington, March 14 (INS)—Blended liquor prices will not fall much below $2 a quart at retail and little bonded liquor will be available for three or four years, Dr. James M. Doran, head of the Distilled Spirits Institute, said today.

Liquor prices have been declining steadily for some time as the industry has become better organized and various wastes have been eliminated, according to Doran.

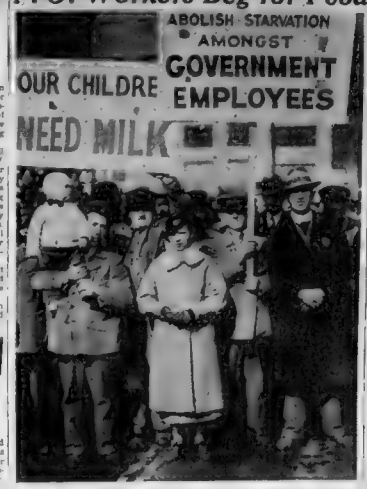
It was pointed out, however, that the heavy federal and state taxes precludes liquor prices of the pre prohibition levels, such as from 75 cents to $1.50 a quart.

Insull's Border Trip on Tomorrow

Athens, March 14 (AP)—Authorities stated officially today that Samuel Insull, Sr., Chicago fugitive, will be escorted by police to the Greek frontier tomorrow.

The announcement came after the former utilities operator had refused to accept an American consular travel document issued in order that he might comply with the Greek government's order that he leave this country by midnight tomorrow.

P. O. Workers Beg for Food



Three thousand members of the New York Substitute Post-office Carriers marched yesterday in protest of their $3 weekly wage imposed by the economy policy of Postmaster General Farley. Their families carried signs begging for food. Others declared they were near starvation. (International News Photos.)

Postal Workers Hit Farley for Payless Furloughs

Vigorous protest is being made by officers and members of Local 10 of the National Association of Post-office Clerks and the Boston branch of the National Association of Letter Carriers against Postmaster General James A Farley paying furloughs given regular employes of the Boston Postoffice and sub-stations.

Emmet Whelan, a vice president of the National Association of Post-office Clerks declared the attitude taken is contrary to the rules of fairplay and not in keeping with President Roosevelt's NRA program.

At a meeting of the letter carriers at the American House, condemnation of the policy of the government in furloughing the men and cutting the pay of carriers from approximately $2100 to $1640, including old age pension tax of $75 a year, the 15 per cent cut and the recent furloughing order, was voiced by speakers in no uncertain terms.

Local congressmen were called upon to come to the aid of 1400 carriers affected by Postmaster-General Farley's order. It was the consensus that the motive behind the furloughs is to abolish the civil service and make possible more jobs for henchmen of politicians throughout the country.

Charges were made that men are compelled to work overtime, that some routes are left uncovered and that residents do not receive their mail on time, and that 10 foremen of carriers have been detailed to do clerical work in the financial division.

LOVE ENDS FOR CHATTERTON

New York March 14 (US)—Unless there is a last-minute reconciliation, which is not considered possible, the romance of Ruth Chatterton, famous film star, and George Brent, the young Irish screen actor to whom she was married 19 months ago, is ended.

Despite denials that have come from both sides in Hollywood, friends of Miss Chatterton say definitely that she has admitted there is such a clashing of temperaments that neither she nor Brent is willing to go on further.

There have been rumors for some time of separations, but each time Miss Chatterton has denied them. Recently she has told friends that Brent and she had reached such an impasse that he began to pack his things and engaged an apartment for himself. The Brents had been living in Miss Chatterton's home in Hollywood since their marriage.

Whether arrangements have been made for a divorce, or for a separation, has not been made clear.

Stevens Returns to Paramount Here

Returning to the office from which he went to Maine in his first independent assignment, J Harold Stevens yesterday assumed the branch managership of the local Paramount Pictures Distributing Company exchange. Born and raised in Swampscott, Stevens was graduated from Tufts College and before joining Paramount in 1923, was associated with the Boston and Maine R. R.

J. Harold Stevens

Easthampton Chief Dies

Easthampton, March 14 (AP)—George B. Cook, 64, for 18 years chief of the Easthampton police department, died at his home today after a year's illness.

FLOOD OF U. S. TAX POURS IN

With the federal income tax return deadline set for Thursday at midnight, the new federal building took on the bustling appearance of an Elks convention locale today with scurryings and bustlings and a constantly-milling throng.

The federal building elevators, which have been having a very difficult time since the building's opening to accommodate all the would-be riders within a reasonable time, were again taxed far beyond their ability to serve, the result being that the lobby was crowded most of the time.

These elevators course up and down for 20 floors, with the federal income tax quarters on the eighth, and it was a slow cruise today.

For those who do not go to the federal building in person to hand Uncle Sam a slice of their earnings, the warning is out that mailed returns must bear a postmark prior to 12 midnight tomorrow.

RACER SOUGHT IN BEATING

Los Angeles, March 14 (US)—Search was started by authorities for Louis Tomai, auto race driver, accused of felonious assault in the brutal beating administered to John Beanus, Los Angeles Examiner photographer, last week.

Tomai was identified by six persons as the man who beat Beanus according to Dist. Atty. Buron Fitts. Under Fitts' orders a complete deschription of Tomai was ordered broadcast and sent over the sheriff's teletype system.

Beanus was beaten and kicked at the funeral here of Ernie Triplett, race driver, and one of three men who met death at the recent El Centro auto race.

James Lee, Examiner reporter, was also set upon by the mob and forcibly brought to the Examiner office, where a delegation delivered an ultimatum to editorial executives, threatening further violence if pictures of drivers' funerals were taken.

Albert A. "Babe" Stapp and Al Reinke, the two race drivers charged with kidnaping as a result of the forcible seizure of Lee, were arraigned before Municipal Judge W. C. Curtis. They were ordered to appear for preliminary hearing next Friday.

Boy Throws Snowball to Save Man

Amesbury, March 14 (AP)—Most lads win only hard words with their skill in tossing snowballs, which makes the story of Edwin "Lefty" Bryant worth the telling.

James Alton of Saco, Me., was driving through Amesbury with his family, when his auto stalled. He got out, gazed ruefully at the motor, then turned to the gasoline tank. Without giving the matter too much thought, Alton took the cap off the tank and lit a match, the better to see the contents, if any.

Alton felt the wind against his cheek as a missile whizzed past and at the same instant realized the lighted match had disappeared from his hand. He looked up and saw Bryant grinning at him, about 30 feet away.

"I thanked him," said Alton today, "for his quick thinking and dexterity. "My family and I might might have been killed."

Drug and Beauty Show Opens Apr. 2

The New England Drug Show, Health Fair and Beauty Bazaar, the first of its kind to be held in New England will open at Mechanics Building on Easter Monday, April 2.

Joseph F. Walsh

Leaders among manufacturers will be represented at the Show, which in addition to its industrial exhibits will have many entertainment features.

Among the attractions are a daily Baby Show, with winners eligible for valuable prizes, lectures on health and diet, beauty talks by leading authorities from cosmetic houses with demonstrations and living models and fashion shows. A Retail Trade Conference of New England druggists is scheduled for April 5. The Show is under the management of Colonial Enterprises, Inc., directed by Joseph F Walsh as president.

WORK MORE, EARN MORE, SPEND MORE IN 1934

66 JAP BODIES RECOVERED

Tokio, March 14 (INS)—While a crowd of grief-stricken relatives and friends stood by, the bodies of 49 additional victims of the overturning of the Japanese torpedo boat, Tomosuru were removed from the hull of the craft today.

This brought the total number of bodies recovered to 66. Thirteen men were rescued alive.

A naval board of inquiry was appointed to study the cause of the disaster, which may become a national issue.

Survivors said the skipper of the Tomosuru, Lieut.-Comdr. Okuichi Iwase, was on the bridge when she turned over, and must have been swept to death.

FLOOD FOLLOWS TRUCK CRASH

Skidding on the ice with brakes locked, a big tank truck owned by the American Oil Co. ran wild down Albion st. in Wakefield today, crashed a hydrant at Main st. and then came to a halt in the middle of the street, tieing up traffic. A geyser of water 30 feet high shot up from the hydrant.

Carl Cronin, of 565 Main st., Wakefield, operator of the truck, told police that he parked the truck outside a lunchroom, and apparently the vehicle started to slide on the ice. Police found the brakes locked.

Huge Jap Army Bill Is Passed

Tokio, March 14 (AP)—A budget bill containing the largest peacetime defense fund in Japan's history was passed today by the House of Peers. This completes parliamentary action on it.

A total appropriation of ¥38,000,000 yen (¢272,030,000) is provided for the army and navy. This implies that 44 per cent of the total of ¥12,000,000 yen (¢412,460,000) is to be allotted for defense purposes.

SECOND SECTION

The Life of Our Lord--By Charles Dickens

Continued From First Page

Lazarus whom you love, is sick, and like to die.

Jesus did not go to them for two days after receiving this message; but when that time was past, he said to his Disciples, "Lazarus is dead. Let us go to Bethany." When they arrived there (it was a place very near to Jerusalem) they found, as Jesus had foretold, that Lazarus was dead, and had been dead and buried, four days.

When Martha heard that Jesus was coming, she rose up from among the people who had come to condole with her on her poor brother's death and ran to meet Him: leaving her sister Mary weeping, in the house. When Martha saw Him she burst into tears, and said "Oh Lord if Thou hads't been here, my brother would not have died."—"Thy brother shall rise again," returned our Saviour. "I know he will and I believe he will, Lord, at the Resurrection on the Last Day," said Martha.

Jesus said to her, "I am the Resurrection and the Life. Dost Thou believe this?" She answered "Yes Lord"; and running back to her sister Mary, told her that Christ was come. Mary hearing this, ran out, followed by all those who had been grieving with her in the house, and coming to the place where He was, fell down at His feet upon the ground and wept; and so did all the rest. Jesus was so full of compassion for their sorrow, that He wept too, as he said, "where have you laid him?"—They said, "Lord, come and see!"

HE was buried in a cave; and there was a great stone laid upon it—when they all came to the Grave, Jesus ordered the stone to be rolled away, which was done. Then, after casting up His eyes, and thanking God, He said, in a loud and solemn voice, "Lazarus, come forth!" and the dead man, Lazarus, restored to life, came out among the people, and went home with his sisters. At this sight, so awful and affecting, many of the people there, believed that Christ was indeed the Son of God, come to instruct and save mankind. But others ran to tell the Pharisees; and from that day the Pharisees resolved among themselves—to prevent more people from believing in him, that Jesus should be killed. And they agreed among themselves—meeting in the Temple for that purpose—that if he came into Jerusalem before the Feast of the Passover, which was then approaching, he should be seized.

It was six days before the Passover, when Jesus raised Lazarus from the dead; and at night, when they all sat at supper together with Lazarus among them, Mary rose up, and took a pound of ointment (which was very precious and costly, and was called ointment of spikenard) and anointed the feet of Jesus Christ with it, and, once again, wiped them on her hair; and the whole house was filled with the pleasant smell of the ointment. Judas Iscariot, one of the Disciples, pretended to be angry at this, and said that the ointment might have been sold for Three Hundred Pence, and the money given to the poor. But he only said so, in reality, because he carried the Purse, and was (unknown to the rest, at that time) a Thief, and wished to get all the money he could. He now began to plot for betraying Christ into the hands of the chief Priests.

THE Feast of the Passover now drawing very near, Jesus Christ, with his disciples, moved forward towards Jerusalem. When they were come near to that city, he pointed to a village and told two of his disciples to go there, and they would find an ass, with a colt, tied to a tree, which they were to bring to Him. Finding these animals exactly as Jesus had described, they brought them away, and Jesus, riding on the ass, entered Jerusalem. An immense crowd of people collected round him, as He went along, and throwing their robes on the ground, and cutting down green branches from the trees and spreading them in His path, they shouted, and cried "Hosanna to the Son of David!" (David had been a great King there) "He comes in the name of the Lord! This is Jesus, the Prophet of Nazareth!" And when Jesus went into the Temple and cast out the tables of the money-changers who wrongfully sat there, together with people who sold Doves; saying "My father's house is a house of prayer, but ye have made it a den of Thieves!"—and when the people and children cried in the Temple "This is Jesus the Prophet of Nazareth," and would not be silenced—and when the blind and the lame came flocking there in crowds, and were healed by his hands—the chief Priests, and Scribes, and Pharisees were filled with fear and hatred of Him. But Jesus continued to heal the sick, and to do good, and went and lodged at Bethany; a place that was very near the City of Jerusalem, but not within the walls.

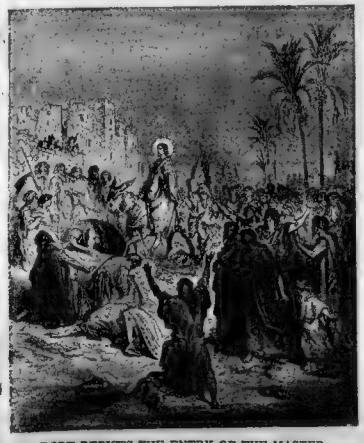
The Raising of Lazarus From the Dead

FAITH SUPREME TYPIFIED IN THE FAMOUS PAINTING BY THE GREAT ARTIST RUBENS

Entry Into Jerusalem



DORE DEPICTS THE ENTRY OF THE MASTER

Dickens' 'Little Nell' Gave Mrs. Roosevelt Nickname

One of Charles Dickens' most famous characters gave Mrs. Franklin D. Roosevelt her favorite childhood nickname—"Little Nell."

Mrs. Roosevelt's father, Elliott Roosevelt, brother of the famous Teddy, taught his daughter to read and love Dickens. He prescribed "The Old Curiosity Shop" for her perusal, when she was hardly beyond the children's fairy tale age. He called her "Little Nell."

Though Mrs. Roosevelt is the particular Dickens lover in the present White House family, President Roosevelt each Christmas Eve reads the famous "Christmas Carol" aloud to his family. He has abbreviated the Dickens Christmas story so it can be read between tea time and bed time. He begins at tea time, with the family all gathered around to listen to the ever-appealing tale of Tiny Tim and Scrooge. He breaks off for dinner and finishes before the children go to bed.

This annual Dickens revival owes its origin to the President's prep school days in Groton. There the rector always read the "Carol" aloud to his students before they went home for the holidays. The idea appealed to youthful Franklin Roosevelt, and he carried it over into his own family life.

Franklin Roosevelt is the owner of a few Dickens early editions, though none of them are of particular value. He has, however, one very fine edition of the complete works of Dickens, beautifully printed on wide-margined pages. He also has several copies of the "Christmas Carol."

Make Your Own 'First Edition'

The Dickens' story of Christ now being printed serially by the Boston Evening American is a hitherto unpublished manuscript. You might want to preserve these installments in scrapbook form for a "first edition" of this particular literary classic. —The Editor.

Christ Gives the Sermon on the Mount

A PAINTING BY C. A. SLADE

BROTHER AND SISTER JOIN THE NAVY -:- SOFT VOICE IS A PRECIOUS POSSESSION

Children Themselves Often Prefer Dark Blue With Smart, Crisp White

By Victoria Gaines

(Authentic last-minute fashions from New York—the style center of America)

BUNNIES AND BABY BONNETS, purple eggs and party clothes—all are joyously jumbled together in the minds of the very youngest smart set. From the bassinet right through the boarding school age, Easter means that exciting time season when "everybody gets all dressed up!" Even a future football captain or wrestling champion can usually be persuaded into a new suit at this time without destroying the family peace and quiet.

Life isn't all lilies and lavender however, for those young ladies and gentlemen of fashion. In fact, your six-year old sophisticate is more likely to prefer a sailor suit and reefer coat in the true British tradition to all the frills and flounces that ever came off a French bank.

SEA-GOING AIR

There's a decidedly sea-going air, anyway, about our best-dressed young fashionables. A white-sailor suit under the regulation blue reefer coat, topped by a true Jack tar tam, makes a young man of Manhattan whose costume is above reproach. Sturdy little sailor legs can be encased in plain socks and oxford shoes—for the simpler, the smarter, is the first fashion rule in all good children's copybooks.

Little girls are generally as good sailors as their brothers, and swagger along side by side in Brother and Sister ensembles of uniform simplicity.

For the embryonic Eve who even at that early age exhibits a feminine tendency toward frills and feminine fripperies, there are dainty dimities and dotted swisses, Liberty prints and flowered crepes that will satisfy even a small siren's soul. Their fussiness is limited to the fabric only, however, their styles retain the smocked simplicity that good taste decrees for children's clothes.

PASTEL WOOLENS

Pastel wool coats, with hats to match, may be worn over these frocks—those with wide bands of stitching on collars and pockets will undoubtedly lead the Baby's Easter parade.

The Easter palm is awarded however, to a blue-spriggred dimity frock that's old-fashioned enough to be newly charming. It has the quaint puffed sleeves, smocked shoulders and crocheted white lace collar and cuffs that make it a truly fairyland fashion.

And since the revival of such storybook favorites as Alice-in-Wonderland and Little Women, old fashioned frocks have become decidedly popular with the young moderns

Beauty Questions "Permanent"

Question: I curl my hair with an electric iron. In rainy or cloudy weather my hair comes out of curl, and looks very straight and shaggy. What can I do to prevent this?—G. N., Brighton.

Answer: That's easy. Get a permanent. Marcels quickly come out of curl in damp weather or when the hair gets wet, but the same conditions make a permanent appear more wavy and curly.

* * *

Soft Skin

Question: When I wash my face and don't put makeup on, the skin seems to "pull." What do you suppose causes this?—Mrs. R. V., Boston.

Answer: Perhaps you are using a harsh strong soap, or not rinsing off every trace of soap after washing your face. No doubt your skin is dry and sensitive and needs more soothing cleansing oils and creams to keep it soft and fresh.

* * *

Bright Eyes

Question: What causes black lines under the eyes? I'd like mine to be bright and youthful looking.—F. S., Watertown.

Answer: Eye strain, illness, worry and lack of sleep all may cause dark shadows to appear under the eyes

St. Patrick's Day Party Menu Should Feature Green

By MARTHA LEE

From Martha Lee's Wednesday Morning Broadcast Over Station WAAB

MARCH 18 A capricious month—a fact which we rediscover every year. It is a month of winds and storms and moods. But we can always depend on one day being jolly, regardless of the weather, it is St. Patrick's Day.

The order of the day is for a gay party carried out in a green color scheme—an easy thing to accomplish as green is a natural color to foods. Serve tiny new potatoes rolled in chopped parsley, chops dressed gaily in green pantalettes, mint jelly, green asparagus, salad nested in as green lettuce as the market will produce, cakes with green icing and green candles.

There are plenty of vegetables which will serve a double purpose of adding vitamins as well as color interest to the meal. If you want to carry out the spirit of the day to the food serve Irish Stew, made with lots of fresh vegetables, generous servings of potatoes and well-cooked steak scattered throughout. Follow this stew with a mint sherbert or a mint mousse — a happy ending to complete the meal. This meal is one that can be served at 7 or at 1 o'clock, and be acceptable to hungry guests.

Scrubbed Irish potatoes make perfect candle holders for the party. Set them on a green and white checked tartatan tablecloth. Make the service simple and the food plentiful.

Or here is a suggestion for a tasty evening spread:

Shamrock Biscuit or Toast with Creamed Chicken and Olives or Chicken Shamrock Salad
Hot Rolls Coffee
Pistachio Ice Cream
Mock Angel Food Cakes with Green Frosting

CHICKEN SHAMROCK SALAD

3 green peppers
Chicken Salad
Mayonnaise

Wash green peppers, and for each salad cut three rings of the pepper and place them in shamrock shape on a crisp bed of lettuce. The three slices of the pepper will fit together to closely resemble the shamrock. Cut a thin strip of pepper and place it so that it forms a stem for the shamrock. Fill the centers of the rings with Chicken or Tuna Fish Salad.

MOCK ANGEL FOOD CAKES WITH GREEN FROSTING

¾ cup milk
2 tbsps. butter
1 cupful sugar
1 cupful flour
1 tsp. baking powder
¼ tsp. salt
4 egg whites
½ tsp. cream of tartar
1 tsp. vanilla

Heat milk with butter to scalding point. Add sugar and stir until thoroughly dissolved. Sift flour, baking powder and salt. Beat egg whites until frothy, add cream of tartar and continue to beat until whites stand up in a point. Add flour mixture to the milk and sugar. Beat thoroughly. Fold in egg whites and flavoring. Pour into well greased and floured muffin pans. Bake at 350 degrees F. for 25 minutes. This makes 1 dozen cakes. Cover with cooked frosting tinted green.

Daily Suggestion for Self-Improvement

When shopping try to remember that others probably are in a hurry, too—so don't try to push ahead of others who have been waiting longer than you have.

Things That Make Women More Beautiful

(Posed by Helen Twelvetrees)

By Carol Ames

FACIAL NO. 5. The important decision today is upon a facial for large pores. I have struggled with them and won and I think it is quite a bit of satisfaction to tell some one else how it was accomplished. There are many facials that help to close pores. Today I will tell you about one that is simple and has been effective with a great many women

First clean the face with a liquid cleanser that cleans deep into the pores. If you prefer to use soap and water, use warm water and a good pure soap. Thoroughly clean the face one way or the other. (I happened to use the liquid.)

* * *

Then use a good cold cream for massage. There are so many that I pause to think which one of several would be the best. I have one in mind that I used, and that you would like, I feel sure. It is a bit soft, almost the consistency of fine cake dough. It is very white and easily applied. I can't say that it is a pleasant feeling to be smeared up with ANY kind of cold cream, but that isn't why we smear ourselves. This cream feels clean and is most effective.

Pat this cream in well—either with your fingers (with a gentle upward movement) or with a soft patter which is easily flipped against the face and is handy. Don't hammer your face with it. After all, it's a face, not a rug out on the clothes line for a beating. Always be gentle with your skin to get results worth noting.

After your face is thoroughly fed on this cream take off what is left with good soft tissues. I am going to write on tissues soon. There are tissues AND tissues!)

Now take a glass bowl and pour into it some good skin tonic. I can think of two fine ones at this moment.

* * *

Take a roll of cotton—the kind that comes in quarter and half pound packages at the drug stores—and cut thin strips of it about 5 inches long and 2 inches wide. Dip one strip at a time into the bowl of tonic. Wring them out and lay them across the forehead, across the eyes, on the cheeks, in fact, cover the face, except the nostrils—with these wet strips of cotton.

Then take a piece of ice in a piece of gauze that will hold it and yet not keep the cold moisture from escaping, and run that over the wet cotton mask. Keep the ice moving so that no part of the face will be chilled too much.

* * *

Take this off when you feel that you have had enough.

Then apply a tiny bit of foundation cream. Then apply makeup. Be sure everything you use is of the finest quality.

Use a finely sifted powder of the best grade.

I'd like to hear from you if this works as well with you as it did with me and with others who have tried it.

If you want to know where to purchase any article mentioned in this column telephone to Carol Ames, Boston Evening American (LIB. 4000). If you prefer writing be sure to enclose a stamped, self-addressed envelope for a personal reply.

In Goodly Company

CRACKERS enticingly arranged at the threshold of the chromium castle in which a noble cheese is enthroned on a plaque of wood, as cheese always should be, make for a pleasant way to end a bridge rally, an informal dinner, or pass the time with an odd-hour snack. The cheese set, which will do justice to your pet member of the cheese family, is to be seen in a Boston shop. We will be glad to tell you where; simply phone or write Annice Brink, Boston Evening American.

Sweet Feminine Tones Attract All Men

By Sheilah Graham

THESE LAST FEW weeks I have been busy asking the gentlemen of my acquaintance what they first think about when they think about a woman.

I had expected their answers to be "her sympathy," "her sweetness," "her understanding," "her eyes," "her figure," "her arms," "her hair," "her neck" and many other reflections relating to the female form and mind divine. But no. With very few dissenters, the majority said "her voice." Which will be very gloomy news to those screechers who masquerade in feminine clothing.

A good voice in a bad woman can do more to undermine male resistance than a carload of influenza germs.

"The devil hath not in all his quiver's choice an arrow for the heart like sweet voice," sang Byron's Don Juan while reminiscing about the lady of his dream.

Even the much crushed, silly king in Shakespeare's "King Lear" threw in his vote for a good speaking voice. Said he, "Her voice was ever soft, gentle and low. An excellent thing in a woman."

BIG HANDICAP

But to get back to where we started. It is impossible for a woman to be a success with the opposite sex—for long—if her voice is harsh and unpleasant.

If a homely girl is endowed with a voice so sweet it caresses, she can thumb her nose at her beautiful sister and sally forth after her man with every chance of getting him.

The wife who asks for what she wants in a shrill, harsh tone, is called a nagger. The wife who wraps her request in the cotton wool of a soft, low toned voice, is called adorable—and gets what she wants.

A man friend of mine recently underwent a very serious operation. When he "came to" after the anesthetic, the air seemed to be rent with a noise as though a hundred cats and dogs had been let loose. Deciding he was unconscious he kept his eyes closed, but as the noise continued, he opened them and discovered the cats and dogs were only a couple of nurses indulging in a conversation about a "cute little dress in a shop window."

GARBO'S GURGLE

To what do Greta Garbo, Marlene Dietrich, Tallulah Bankhead and Mae West owe their success? Not to their figures—the Garbo is angular, the West a trifle over plump. Not particularly to their histrionic abilities. No, it is their voices that are responsible for keeping them in the "Star" firmament.

A million women sigh in sympathy when Greta gurgles, "I tank I go home." A million men laugh excitedly when Mae murmurs, "Come up and see me sometime." When Marlene mutters, "I love you, darling," it is as though some soft chime had stroked the air.

Have you a horrible speaking voice? Does it grate like a file on sandpaper? If it does, don't, because of aforementioned remarks, feel you must go into the street and lie down under a trolley car. You are curable. All you have to do at first is to speak slowly. That will give you a chance to listen to the raucousness of your voice.

Pandora Tells You

DEAR PANDORA

Did you ever hear a wife talking? Well, I have. And continually, ad infinitum, ad nauseum. My dear little wife is a typical example of femininity . . . dainty, cute, domestic and all the things a woman should be.

But lately she has developed one great fault which is rapidly making my life miserable. She's gotten interested in politics and national affairs, and every second of the day is strenuously at work settling the troubles of the world. She can't let me listen over the radio to a revue of the day's news without keeping up a rapid-fire comment, explaining this and that and wondering about the rest. Really, it's getting me down, for even when I answer her questions she disagrees with me, and immediately takes the opposite stand.

But the worst of it all is that most of her viewpoints are those of the Little Women's Tea and Whist Club, and they are not such as can be listened to eternally and in any peace. Now I like to have her up on the days news, but how can I inject some moderation into her frenzy?

ALOYSIUS.

DEAR ALOYSIUS:

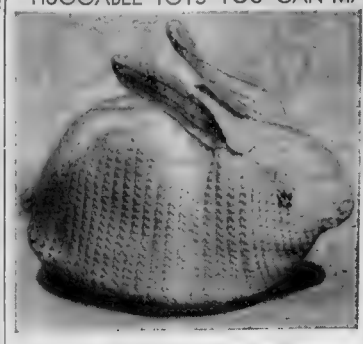
That tremendous interest of the fair sex in current events is one of the most startling results of the recent Deepresshun. From the earmined lips of confirmed butterflies drop pearls of wisdom in re-davaluation of the dollar, the payment of the bonus and sage slants on the Independence of the Philippine Islands. The country has become governmentconscious, Aloysius, and the ladies are doing their part.

Let her ramble, my friend, and in every tactful way you can correct her. But don't argue with her, for you'll find that women have a sense of logic that is most upsetting to masculine vanity.

And never dispute a lady, anyway.

PANDORA.

HUGGABLE TOYS YOU CAN MAKE—AND WASH

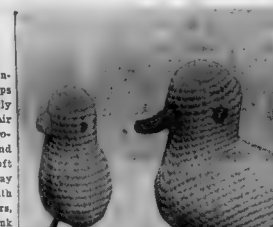


By Annice Brink

THE DAY of the expensive pressed teddybear, a huge, elegant animal that cannot be washed, given by some fond aunt or uncle, seems to be past, which is a mercy. For although it was a beautiful and imposing thing, Baby delighted in wiping up the floor with it—and it stayed wiped, because water was an enemy to its shiny, fuzzy coat.

So with proper pride, we march out for your approval three new toys—Bunny, Chickie and Ducky. Not much imagination to their names, we'll admit, but easy for the youngster to say who is finding his tongue about words. You may crochet either or all of these magnificent little animals, stuff them with wool, and every evening they will adore being plopped into the washing machine. In fact, this seems like a good idea, for a bit of mild pre-bedtime amusement, if your washer has glass sides.

If you would like directions for making baby's three musketeers —Bunny, Chickie and Ducky—write to Annice Brink, Boston Evening American, being sure to inclose a stamped, self-addressed envelope.



This is Bunny, who hops out amazingly fast from a pair of hands, a crochet needle and plenty of soft yarn. He may be white with pink-lined ears, a twitchy pink nose, and pretty blue eyes, or he may be all one pastel shade.

Chickie and Ducky make their bows. Have you seen anything more endearing than the pert stance of the chick, or anything more awkwardly funny than the duck's bill and spready feet? Easy to make, easy to launder.

TOMORROW'S MENU

Sweet-Sour Beets
Bread and Butter
Fruit Cup Coffee

How to Autograph a Picture

By MRS. BEECKMAN

DEAR MRS. BEECKMAN:

Will you please advise me as to a suitable line or so to write on my picture? I am graduating and would like to give my picture to a few intimate friends. C.

The message that you write on your photographs depends so much, naturally, on the degree of friendship that you have with the person to whom you are giving the photograph that it is difficult to suggest the exact wording. But there are certain words and phrases that you might keep in mind. For instance, the word "greetings"—there is a charming and warm-hearted word that is appropriate for many kinds of messages. "Friendly," too, is another warm-hearted and happy word. And combined they carry pleasant connotations. "Friendly greetings." This can be made more special by "raising" the "friendly" to "friendliest."

To closer friends you might write "With dearest love," or "With devotion and deep friendship."

But I like most of all either the un-autographed photograph which delightfully indicates that the person to whom you give the photograph will take the message for granted, or, second best, the message "To Florence from Betty," which has also a taking-for-granted, from-me-to-you quality.

A TELEPHONE is Insurance

NO MATTER how many policies you have for protection, you need a telephone.

In emergency, it *protects* you against loss of time when every minute is precious.

It *insures* against loneliness the homebody who seldom sees kinsfolk and friends. No one with a telephone is ever really alone.

It runs the housewife's errands, guarding her against inconvenience and downright fatigue.

And, not least important if you rely on it for work, your telephone protects you against loss of income.

A telephone is indeed insurance, giving you, not only protection, but daily dividends of comfort and convenience.

Come in or call our Business Office today to ask about service. You can call us without charge from any Public Telephone.

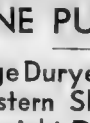
NEW PRODUCTIONS FOR RIALTO

George Duryea Shakes Off His Western Shackles to Try Straight Dramatic Role

By LOUELLA O. PARSONS
Motion Picture Editor, Universal Service
(Copyright, 1934, Universal Service, Inc.)

Los Angeles, March 14 — King Vidor considers it a piece of important news that Tom Keen, formerly George Duryea, has thrown off his western shackles. King first spotted Keen on the Radio lot and told him if he would get himself a job with a stock company he would finance him and give him a straight dramatic role in "Our Daily Bread."



Keen, acting on Vidor's advice, has spent nearly a year in stock. While with the Lakewood Players in Skowhegan, Me., King sent word to come back to Hollywood and prepare for the lead in "Our Daily Bread," which is about to go into production at the Metropolitan Studios. Mind you, while Keen was carrying out Vidor's dramatic dream he has turned down any number of lucrative western offers.

Louella O. Parsons

I can remember when Irvin Cobb didn't hold out much encouragement to his daughter, Elizabeth, who wanted to become a writer. But with or without encouragement Miss Cobb has forged to the front as an author. Her book, "She Was a Lady," has just been sold to Al Rockett for a Fox production. The story concerns the daughter of an English remittance man on a Montana ranch, and Helen Twelvetrees has been called upon to play Miss Cobb's heroine. John Blystone is directing and the picture will go into production very shortly.

• • •

Wowie! Did Miriam Hopkins give the Boston newspaper boys the ice. She just couldn't be annoyed and did they get back at her by forgetting to mention Miriam was in their fair city. Wonder what happened to this gal, who is always so regular with Hollywood scribes? Paramount will probably read her a curtain lecture when she comes home to play opposite Bing Crosby in "She Loves Me Not." The swell story of the lady crook in "The Notorious Sophie Lang" has been wrested from Miriam and handed to Carole Lombard

• • •

Even the particular Damon Runyon cannot kick if they put Lee Tracy into the role of the race track tout in his story, "The Lemon Drop Kid." That's what Paramount want to do if Universal will give them the loan of Isabel Jewell's boy friend. I say particular because Runyon, like all good craftsmen, is meticulous in everything he does—short stories, newspaper jobs, etc. And he is always interested in the proper casting of his stories.

• • •

The strangest friendship in Hollywood these days is that of Countess Di Frasso and Lupe Velez. The two girls are palsy-walsy. They were on the Metro-Goldwyn-Mayer lot together and have been seeing each other constantly. Before Gary Cooper became a married man these two young women figured importantly in his life. I wonder if anybody told Gary, who was working opposite Marion Davies in "Operator 13," that his two former girl friends were on the lot together on Saturday.

• • •

I am told James Cagney is developing very definite ideas what he wants to do and what he will NOT do in the movies. But approve or not, Cagney's next for Warners is "Hey, Sailor," an original by Ben Markson. The red-headed Cagney, who enjoys nothing so much as expounding his views, will have Pat O'Brien as his chief support. Pat is doing all right without worrying over whether he is getting the right break or not.

• • •

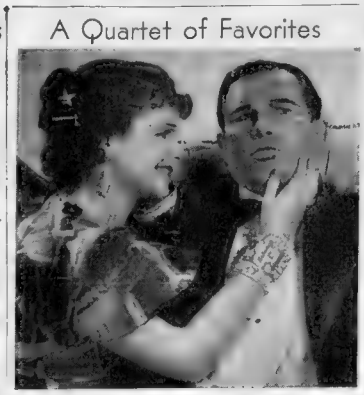
The best news this column has had in a long time is the personal promise given us that Mrs. James Kirkwood is to be given a chance. With a baby less than two years old to support, Mrs. Kirkwood, the former Beatrice Powers, has been making a brave fight to take care of her little daughter. Busby Berkeley, for whom she had played a part in the days before she married the former matinee idol, has signed her and is making her one of the Berkeley beauties in "Dames." Another member of the Berkeley beauty squad is a platinum blonde named Ethel-reda Leopold.

• • •

Snapshots of Hollywood

DONALD OGDEN STEWART, resting at his home for MRS. STEWART and the youngsters, but neglected to send his wife his address; Irene Fenwick is on the way sans any definite destination; LIZ DUPONT, house guest of the Stewarts, who are keeping open house these days, cocktails were served Sunday from 3 to 8; ARTURO MOMS, critic and editorial writer of the Critica, dining with MARION DAVIES; some Frenchman dropped in at Marion's beach house and stayed on for dinner and a movie; KATHRYN CARVER MENJOU, fairly dripping with orchids, hostess at one of the most successful parties of the year; someone started singing old songs and all the other guests at the town house joined in the chorus; at 5 in the morning the songs were still being sung and guests who heretofore listened to the curfew were reluctant to leave; ADRIAN entertaining KATHERINE HOWARD, former fashion editor of Harper's, and DIANA WYNYARD at the Tingle Tangle Theater; POLLY MORAN, chaperoned for the first time by a husband, off for New York for a few days; a threesome: CLARK GABLE hurrying to Caliente to see his horse run; the bride and groom, MR. AND MRS. BUSBY BERKELEY (MERNA KENNEDY) at the races; MRS. HUGH MURRAY taking a group of New York friends to see "The Drunkard"; ROGER PRYOR, Hollywood's newest sensation; he was given a young ovation at the opening of "Men in White" in Hollywood. That's all today. See you tomorrow!

A Quartet of Favorites



Pert Kelton nad Nat Pendleton in a scene from "Sing and Like It," coming to the Boston screen Friday.

Robert Montgomery and Elizabeth Allan in "The Mystery of Mr. X" at the Orpheum Friday.

"Ballet Russe" Will Come to Boston Opera House in April; Cohan Also Due

By GEORGE HOLLAND

Under the heading of chatter, I give you these items for what they may prove to be worth. "Ballet Russe," currently at the St. James Theater in New York, will come to the Boston Opera House as soon as the stage is cleared of the Metropolitan Opera's chattels, which should be about April 9. A play called "Wife Insurance" will be a post-Lenten attraction at one of the Shubert-controlled houses, probably the Plymouth. Arthur Beckhard is directing, and Kenneth McKenna and Basil Sydney are prominent in the cast.

• • •

"The House of Rothschild" is booked for a minimum of four weeks at the Majestic Theater, commencing March 31. George Arliss is reported as excelling any work of his distinguished career as the star. More important, America's Jewry is satisfied that in this film a more satisfactory anti-Hitler appeal is exercised than the Madison Square Garden "indictment" or any protest made thus far against Germany's ruler. None of those impassioned plays fashioned on the idea that Hitler was wrong, by the way, has seen production. Not even Herman Mankiewicz' "Mad Dog of Europe," which the author himself was ready to finance. There were three at one time reported ready for Broadway. (Comment.) They say Wes Willis Keeler got on first base more often than Babe Ruth.

George Arliss

• • •

George M. Cohan should be ready to play in Boston six weeks or so from now, I persist, in spite of denials by the star himself, that this city will see "Ah, Wilderness!" before summer comes along. George M. has five weeks of Sunday night radio ahead, I do not think that he will be interested in repeating himself next fall in the Eugene O'Neill play. Kindly man that he is, however, he will not wish to see his producers, Theater Guild, Inc., deprived of the capacity business and profits awaiting his play in this, the Cohan ballwick.

• • •

In my review of "Autumn Crocus" yesterday I wrote that Dodie Smith, the English shop-girl who wrote the show and changed her name to C. L. Anthony because she thought "Dodie Smith" sounded like the name of a chorus girl had misfortune to be the genius chorus girl.

"She should have met me and I in speaking of Miss Smith's flight to the chorus girl," one of the chorus girls that I have met in my spring, and for that matter in my autumn," Edward Dean Sullivan read the sentence as I completed it as follows. "And what a writer she has had!"

• • •

Donald Henderson Clarke, who wrote "Millie" among other best-sellers, is said to be convalescing from a serious illness in a Boston hospital. Young John Shubert, one of the three libretti-sts of "Annina," is acting also in Providence. His father, J. J. Shubert, has journeyed to Providence three times in the past four days to see his son. A junket to Providence has been arranged for tonight for the Boston drama and screen critics. They are invited by Jack Goldstein to see young Shubert's "Passing Show" in tabloid form. After what I said about the book of "Annina," I am going to beg to convey my sympathy to young Mr. Shubert by telephone . . . Although he is one of the most regular youngsters I have met around the theater. He attended Harvard for two years, but the theatrical urge overcame his father's wish that he complete his course at the business school. The young son of Fulton Oursler, the brilliant editor who wrote "The Spider," for the stage, and "Sandalwood" and "Behold This Dreamer" for anyone's bookshelf, is now a newspaperman, Harvard correspondent. His first cry greeting of his new native was: "I am trying my best not to catch that Harvard accent."

Top Award for 'Rothschild' as Movie

By HARLEIGH SCHULTZ

Providence, R. I., gave Russell Mack to the movies. That's something to brag about, for Mack is one of the most expert directors at Hollywood. He "catches" all the new films, in preview, incidentally; he has never gone wrong on judgment. So his dictum on "The House of Rothschild" is news for picture fans, being the valuation of one of our keenest cinema minds. He calls it one of the grandest films ever made.

• • •

"The House of Rothschild" has just been booked to open a run in Boston, It is set for a premiere at the Majestic, the evening of Saturday, March 31. It should be an outstanding event, for the high merit of the production is something to be banked on. Russell Mack is one of the very few advance judges this reviewer has learned to trust implicitly. In paying his tribute, he is handing the palm to a fellow director, Alfred Werker, and to producers other than those for whom he works.

"There is no question but this will strike you as one of the few greatest of motion pictures, silent or sound," he writes us.

George Arliss is the star, and he has stellar folk around him. Boris Karloff, C. Aubrey Smith, Arthur Byron, Helen Westley, Loretta Young, Reginald Owen, Alan Mowbray, and many more—

This new week brings many changes. Tomorrow the Paramount-Fenway screen "Journal of a Crime" (Ruth Chatterton), and "The Last Round-up" (Randolph Scott); and the Fine Arts, "Wiener Blut" (Michael Bohnen). On Friday Loew's State has Greta Garbo in "Queen Christina"; the Metropolitan, George White's "Scandals" in film form; the Boston, "Sing and Like It" (ZaSu Pitts), and the Orpheum, "Mystery of Mr. X." Saturday Keith's changes to "David Harum" (Will Rogers), and the Modern and Scollay to "Bolero" (George Raft) and "Ever Since Eve" (George O'Brien). On Monday "Forgotten Men," World War film, opens at the Park. So the new list has abundance in film fare, and assuredly an unusual variety to choose from.

Garbo Picture Due Friday

The first popular priced showing of Greta Garbo in "Queen Christina" which brought the star back to the screen after an absence of almost two years, takes place at Loew's State on Friday.

The picture was directed by Rouben Mamoulian, whose name has been linked with that of the star in romance, and portrays Garbo as Sweden's famous queen of years ago. It also reunites Garbo with John Gilbert after a screen separation of five years. Supporting roles are taken by Ian Keith, Lewis Stone, C. Aubrey Smith and Elizabeth Young.

Capitol Plans Anniversary

The biggest week in its history is being planned for the Capitol Theater in Allston, by Manager John B. Carroll. It so happens that next Saturday, in addition to its other meanings, is the birthday of the de luxe community theater, and so there will be an anniversary week second to none in features appropriate to such an event. The Capitol will be 11 years old, and to help mark the occasion, Manager Carroll is putting on a gala bill, in which the picture features will be the excellent films, "Carolina" and "Long, Lost Father."

John B. Carroll

The staff in charge is District Manager Francis X. McManus, Manager Carroll, Edward Welch, Jay Concannon, with efficient Nan Cohen of Publix headquarters, in charge of publicity.

The best news this column has had in a long time is the personal promise given us that Mrs. James Kirkwood is to be given a chance. With a baby less than two years old to support, Mrs.

Great Film of War Coming

"Forgotten Men," a World War spectacle of official film from the archives of 14 nations will be shown at the Park Theater, beginning Monday.

The film shows "U" boats sinking ships; cannons belching death and destruction; navy fighters crashing to death in flames, air raiders showering missiles of devastation; machine guns slaying thousands, the horrors of hand-to-hand fighting and killing with bayonets; fierce fighting with liquid fire; Zeppelin raids; hundreds of tanks spitting death; and the twisted mass of strangled hordes in the wake of a gas attack

New Musical

Opening at the Fine Arts tomorrow is the German musical film, "Wiener Blut" (Viennese Blood), a romance of the life, love and melodies of Johann Strauss.

Footlight Fare

Another Harry Gourfain production holds the Metropolitan stage Friday, with a cast of radio, musical comedy and vaudeville stars. Jimmy and Nora Bell, the former noted for his manipulation of the piano keys, and the latter for her songs, are headliners.

RESERVE FUND FOR LABOR IS SEEN LIKELY

Called Next Step in Bettering Conditions

By HUGH E. BRADSHAW

Many observers in the Boston financial district believe that the next step to promote better labor conditions will be the adoption of unemployment reserves. At present only one state, Wisconsin, has actually enacted compulsory unemployment reserve legislation. In Massachusetts the real division of opinion centers on the doubtful benefits of such a large industrial state going it alone. At first avarice might influence some manufacturers to move into states not requiring unemployment reserves. The solution, of course, would be the enactment of national legislation. Regardless of the immediate fate of such legislation we believe it noteworthy that many capitalists are interesting themselves in the welfare of labor.

F. H. Brownell

• • •

F. H. Brownell, chairman of the board of directors of American Smelting, provided the financial district with something of a shock. He told the board considering the proposed copper code that speculation only was well served by open metal markets. Apparently the able Mr. Brownell feels that speculators in metals are responsible for hectic fluctuations in prices that might not otherwise take place.

• • •

Notes: Also of interest was F. H. Brownell's remark that New York speculators are holding 175,000,000 ounces of silver . . . Which they would unceremoniously dump the moment silver was re-monetized . . . All of which reminds us that the word is about State Street boardrooms that a leading Boston trader is concentrating on the golds . . . With the emphasis on Canadian producers . . . Such as Dome and McIntyre.

• • •

Good stock market opinion leans to the view the list has done very well of late. The rails, as we stressed last week, held the key to the trend and, by refusing to break down to 46.50 on the Dow-Jones average, are considered to have given a bullish clue to the March price outlook. We noted by groups last week a general list that seemed favored by conditions. This week we supplied individual issues in strong technical shape.

• • •

Sidelights: For the present we will not expand the list we are willing to take a bullish view on . . . Enough variety in trading mediums has already been furnished . . . We hope . . . The paint business is still expanding its sales . . Automatically including glass and other needed items in repair . . General Theater 6's of 1940 are looked on as a promising speculation by some traders.

• • •

"In future years, when the historians are telling posterity the things we actually did, it is to be sincerely hoped that many pages are devoted to the motor industry. Auto makers as a whole seem fully cognizant of the manner in which the benefits of the machine age should be distributed. The buyer gets a full dollar's worth at all times, capital has been well rewarded for its courage and labor's efforts are again acknowledged.

• • •

Bits: McClintic-Marshall, Bethlehem Steel subsidiary, is receiving its share of structural steel orders . . . Getting the 5000-ton superstructure order for Fore River . . . Air mail contracts are seen back in private operators' hands soon . . . Since it is hard to see how the army can re-equip itself to handle business within a year . . . And that will help sentiment.

Stock Traders Are Seen Cautiously Awaiting Signals

By WALL STREET SPECTATOR

The market seems to be groping its way upward, yet ready to duck at least danger signal. At times stocks act as if they were getting ready to break out of the trading range. The reason they don't is that traders are still watching their step after the disappointments of the last few weeks and aren't going to scamper aboard the bandwagon until the parade is well on.

SPONSORSHIP FOR LEADERS

It is interesting to note that the market acts as if it were getting some sponsorship again.

This was indicated in the first rotation of movements in the list . . . First it was the utilities, then the oils, later the rails and then the air stocks . . . Most of the big operators are on the sidelines here, waiting for a cue to get in . . . They are expected to be buyers . . . [illegible] . . . so after the government's April 15 financing is out of the way.

The supreme court milk decision has been helping the dairy stocks.

The ruling upholding price-fixing, it is pointed out, means a break for the distributor as well as the farmer.

London has been buying a few of the power and light dividend payers for the high yields obtainable.

One interesting thing about the tobaccos is that the industry's labor cost is less than 16 per cent on its products. This is one of the lowest ratios in the country.

March railroad earnings should make a fine showing generally, from current traffic reports. There won't be the storm expenses of February . . . We hear the big liquor companies are going to do some heavy buying of foreign whiskeys for blending purposes when the administration " ts the bars down on May 1.

TODAY'S NEWS OF LEADERS

RELATIVE stable tone of leading automobile financing company shares during the recent market unsettlement reflects the expansion in this type of business over a year ago. These enterprises survived the severe test of the depression much better than generally realized.

Shipment of Anthracite Up

Shipments of anthracite for February, 1934, as reported to Anthracite Institute, were 5,197,931 net tons, an increase over January of 8451 net tons, or 0.16 per cent, and over February, 1933, of 1,453,775 net tons, or 38.84 per cent.

Plymouth Motor Offers New Models

Plymouth Motor Corp., division of Chrysler Corp., has introduced two new models, the standard coupe at base price of $435 and the standard sedan at base price of $[illegible] to supplement the six sedan with base price of $535, and the deluxe coupe at $495, which were introduced the first of the year.

Southwestern Bell Income $11,912,233

Southwestern Bell Telephone Co. reports for year ended Dec. 31, 1933, net income of $11,912,233 after federal taxes, depreciation, interest, etc., equivalent to $4.08 a share (par $100) on 217,855 shares of 7 per cent preferred stock. This compares with $12,629,777, or $57.97 a share on preferred stock in 1932. Common stock is all owned by American Telephone & Telegraph Co.

Home Repairs Needed

By JOSEPH STAGG LAWRENCE
Review of Reviews

The government is now considering an entirely new approach to the problem of construction. This great industry, in spite of liberal injections of federal credit, has not made any appreciable progress during the past year. While government outlays have increased, private expenditures have declined so that the net gain, on the whole, is rather disappointing.

The new plan known as the Walker Riefler plan, seeks to encourage private repair work by making the same kind of appeal to the consumer of construction which the average merchant and manufacturer finds he must make in order to keep his market. The principle applied is the exact opposite of that which is evident in the government's construction program. In the latter, the most important items seem to be high wages, short hours, and maximum employment. These may have broad social justification.

On the other hand, the private home owner must think in terms of current income, grocery bills, taxation, and other items that regularly appear in his budget.

SHIP MERGER OPPOSED

New York, March 14 (AP)—P. A. S. Franklin, president of the International Mercantile Marine Company, said today that I. M. M. attorneys have been instructed to seek a court injunction to restrain the Cunard Company, the Oceanic Company and others from proceeding with merger of the Cunard-White Star lines.

Franklin returned today on the liner Majestic from Europe and charged that the right of the stockholders in the Oceanic Company had been violated. He also alleged that the new merger is nothing more or less than a British national line, backed by the British treasury to the extent of about 50,000,000 pounds (normally about $250,000,000).

The I. M. M. company holds all the shares of the Oceanic company as security for the balance of approximately 2,350,000 pounds ($11,750,000) still due for the sale of the White Star line.

BOSTON STOCKS SHOW GAINS

Gains of moderate proportion ruled in today's dealings on the Boston Stock Exchange today. Carrier shares were firm with Atchison, New Haven and Pennsylvania showing fractional improvement. Chicago Junction preferred was a point higher.

Eastern Gas & Fuel preferred and American Telephone, each selling exdividend, showed moderate gains. New England Telephone was a shade lower. Edison Electric advanced fractionally.

Island Creek Coal preferred was around 2 points higher. In January and February Island Creek Coal Co. earned slightly over $130,000 each month, being favored by the strong demand for coal growing out of the cold weather. Total output for the two months of 578,662 tons exceeded both 571,232 tons in 1933 and 559,390 tons in 1932.

With earnings running at the above rate, the company covered the two months' proportionate share of preferred and common dividends with a 15 per cent margin.

Glidden Co. Net $120,716 in Month

Cleveland, March 14—Glidden Co. February net was $120,716 after charges, against net loss of $37,612 in February, 1933. Net for first four months of the fiscal year was $358,213, against net loss of $270,310 a year before. February sales were $2,226,721, against $1,462,012 in February, 1933.

Pres. Joyce said business in March is better than at the rate for February.

Phillips-Jones Gets Contract

Phillips Jones Corp. has been awarded an Army contract to manufacture 750,000 olive drab flannel shirts for the CCC. The price is 31½ cents, less 1 per cent 10 days. The price mentioned is only for the making, the government supplying the cloth, thread, buttons and all materials.

HANEY FINDS PRICE-FIXING DANGERS

Domination by Big Interests Seen as Possibility

By LEWIS HANEY
Professor of Economics New York University

New York, March 14—Great developments are going on under the surface of NRA. Probably the ultimate outcome of the new deal depends more upon these developments than upon any other.

(1) One possibility is that the various industrial groups, under their codes, will merely turn into price-fixing cartels, or pools, dominated by big business interests.

This is apparently the hope of many of the old leaders. They are all set for eliminating competition, controlling production, and "stabilizing" prices at a level high enough to insure everyone in the trade a profit.

They hope for increased decentralization of control. Then, when prosperity eventually returns, they will have things sewed up as nicely as ever.

At times Gen. Johnson has said things encouraging business leaders in their idea of "self-government." And just now they have received a little encouragement in staving off the proposed edict for a sweeping flat reduction in hours and increase in labor cost.

But one great difficulty confronts them in the government's desire to use NRA as a means of "relief" for the unemployed—as a means of forcing a private dole system on business. Another difficulty lies in the rapid growth of organized labor and its demand for higher wages and a greater voice in industrial control.

The old business leaders are hard put to it to find a scheme for satisfying these two demands, without giving up control or losing all profits.

(2) Another possibility is the development of a sort of American type of Fascism. This would mean increased centralization of control by the government, and greater emphasis on the direction of business as a whole for political purposes on a sort of limited capitalistic basis.

The administration has tended to interfere with profits, and to regulate prices and production. It is now urging business leaders to run their industries for the purpose of giving work to more employes and paying out more wages, as a "relief" measure.

The general has held over their heads the threat that if they do not do this, the radical elements in the nation will turn them out and set up a socialistic state.

(3) Still another may be seen in the growing power of organized labor. The political power of labor in a Democratic state may become very great, to say nothing of the possibilities of the strike.

POWER OUTPUT FOR WEEK UP

New York, March 14 (AP)—Last week's electric power out-turn for the country was 18.4 per cent ahead of the same week last year, the Edison Electric Institute reported today.

This is one of the largest percentage gains ever reported in official figures giving yearly comparisons, but to some extent it resulted from the fact that at this time last year business was still suffering semi-paralysis from the bank holiday.

In the New England district output was up 17 per cent over last year against a gain in the previous week of 15.7 per cent; Middle Atlantic, up 14.1 against 15.3; Central Industrial, up 27.6 against 24.6; West Central, up 12.7 against 10; Southern States, up 18.5 against 11.9; Rocky Mountain, up 15.7 against 18.2; Pacific Coast, up 7.9 against 7.7.

Wheat Higher in Chicago Market

Chicago, March 14 (AP)—Upturns in wheat prices early today accompanied renewed attention to dust storms and to widespread need of moisture for domestic crops. One Kansas point said the duststorm there yesterday and last night was the worst in history.

Opening unchanged to ¼ higher, May 88¼-⅝; wheat afterward showed general gains. Corn started unchanged to ⅛ lower, and subsequently altered little.

Cotton Higher in Dull Dealings

New York, March 14 (INS)—Cotton futures backed and filled today in extremely quiet dealings as the trade awaited further developments on pending legislation in Washington, particularly on the Bankhead control bill and the Wheeler silver measure.

The market was up 3 to 4 points, with May up 4 at 12.28; July up 3 at 12.38; October up 3 at 12.54, and December up 3 at 12.54, and December up 3 at 12.66.

Wage Raise Likely for Steel Workers

New York, March 14 (AP)—Iron Age said today that the steel industry "seems disposed to follow the President's suggestion that wage rates be raised, and might agree to an advance of as much as 10 per cent, provided that prices might be raised sufficiently to cover the increase in cost.

"Further shortening of hours in the steel industry," stated the review, "is not a practical possibility since the average work week per employe during operations under the code has been only 29.2 hours.

"The possibility of a wage advance is already being taken into consideration by pig iron producers, particularly in the East, who talk of raising their prices in anticipation of such a contingency. It is unlikely, however, that there will be general advances in the industry until action on wages has been taken."

Meanwhile, a levelling off in steel production is indicated. "Iron Age says, estimating current activity at 48½ per cent of capacity against 49 per cent last week.

"Demand from the automobile industry has been checked by fear of labor trouble, and evidences of increased caution are seen in a number of miscellaneous consuming lines." Although the farm equipment industry and container manufacturers are working at higher operating schedules.

"In general, however, the present lack of trend in the steel industry is explained by opposing tendencies in two leading consumer lines—the temporary shrinkage of automotive requirements and the steady growth of railroad needs.

"But few in the trade doubt that the market would recover its lost buoyancy if the threat of grave labor difficulties were removed."

AM. SUGAR NETS $3.67 A SHARE

New York, March 14 (AP)—Net profit of the American Sugar Refining Co. in 1933 amounted to $4,801,574 equal to $3.67 a common share, Earl D. Babst, chairman of the board, reported to stockholders today. This compares with net income of $4,504,408, or $3.01 a share in 1932.

"Tariff protection for United States sugar refiners is urgently needed to stem the tide of refined sugar flowing into this country," Mr. Babst stated in his report. He listed total imports in 1933 as 1,403,579,520 pounds, "enough to supply the needs of 15,000,000 Americans."

BOSTON ELEVATED RAILWAY COMPANY

The ANNUAL MEETING of the Company will be held April 2, 1934. Its stock transfer books will be closed from the close of business, Saturday, March 17, 1934, until the opening of business, Tuesday, April 3, 1934.

Bernard J. Rothwell,
Chairman, Board of Directors.

TAX RAKEOFF THREATENS SERIOUSLY

Day of Reckoning From Spending Spree, Says Forbes

By B. C. FORBES

I was recently invited to a poker game. It was preceded by a very swell dinner, which everyone greatly enjoyed.

B. C. Forbes

But when we sat down at the card table the "host" announced there would be a "kitty" to defray all expenses. From every "pot" he took a liberal percentage — a very heavy percentage, I thought.

At the end of the game the "kitty" was the only big winner; all the rest of us, with one exception, were losers. Had we continued long enough, all of us would have been busted.

Today there is going on a national game with a "kitty" that threatens to have similar results unless the rakeoff is drastically reduced.

Let Albert H. Morrill, head of the Kroger Grocery & Banking Co., describe this national game:

"One way and another Kroger will pay or absorb during 1934 forty-two separate and distinct classes of taxes, direct and indirect, and they will approximate $9.00 per share, or 7.8 per cent to sales, or putting it another way, our taxes for 1934 will amount to 31.3 per cent on invested capital.

"The burden thus imposed has been and will be carried but it affects not only your company's ability to earn net income and pay adequate salaries and wages, but in a broader way, it affects the economies of distribution which it is the object of chain stores to accomplish, that is, it increases prices to the consumer."

The Federal Government has been and still is providing an exceedingly bountiful repast. The guests number millions—more millions than ever before received largesse from any individual, or institution, or government on the face of the earth. And more millions of dollars than ever before are being spent.

But the collecting for the "kitty" has hardly begun!

• • •

Will we, the involuntary players, be able to stand the burdensome, long-continued, incalculable "cut" which looms ahead to replenish the "kitty"?

That question shouldn't much longer be blinked.

President McKinlay, of Marshall Field, told his stockholders that taxes on his concern last year totaled $3,278,100.

Every president of every enterprise in America should lay before stockholders, and the public, exactly how much toll is being imposed by tax-leviers.

Not, of course, with any idea of casting odium upon the Federal government, but for the very stern, necessary, salutary purpose of bringing home to all legislative and taxing bodies the absolute essentiality of keeping expenditures within the capacity of taxpayers to pay. As one tax victim remarked: "I wonder how long the government will live within our income?"

• • •

Spending is intoxicatingly pleasant.

But a day of reckoning inevitably comes.

It is becoming your duty and mine to impress upon the spenders just how much they are actually spending and to warn them that there is a limit to our ability to foot the bill.

STOCK TONE IS FIRM AT CLOSE OF MARKET

New York, March 14—The stock market started off strong today, but fell back into its recent dullness in the later dealings. Most of the gains were retained, however, despite some irregularity which cropped out in the steels and industrials generally. The closing tone was firm.

Rails made the best showing, reflecting the steady improvement in traffic and the expectation that tomorrow's meeting in Washington would bring an extension of the 10 per cent wage cut for six months, as suggested by the administration.

Ohter groups enjoyed buying flurries at various times during the session, prominent among these were the motors, aviation issues, utilities, the metals and, toward the end, Radio common and preferred.

While speculative sentiment was improved, traders marked time pending the conference in Washington today on averting the threatened auto strike.

Commodities followed the pattern of stocks, working higher at first and then turning dull. Ruber was a weak exception. Bonds were firm and the dollar quiet.

Steels and oils of the major groups were neglected the most. The former were held back by the interruption this week of the industry's uptrend in operations. Sluggishness in the petroleum issues was due to the spurt in crude production.

Strength in the rail shares featured in the first hour. Trading picked up near the end of the period. Gains in the carrier group ranged from fractions to better than 2 points. Delaware & Hudson was more than 2 points higher and Atchison advanced better than a point.

Delaware Lackawanna, New York Central, Southern Pacific, Southern Railway and Pennsylvania were up fractions to a point. U. S. Smelting was around 2 points higher and U. S. Steel preferred advanced a point.

Sales to 11 a. m. approximated 340,000 shares.

Metals were a trifle easier in the second hour but changes otherwise were small by noon. Oils were steady and quiet.

Gains of a point or better appeared for American Can, Atlas Tack, Auburn, Brooklyn Manhattan, Chesapeake Corporation and Commercial Investment Trust. Moderate improvement was shown by American Telephone, du Pont, Douglas Aircraft, Westinghouse and Universal Leaf Tobacco.

Sales to noon approximated 720,000 shares.

Gains were pared slightly in the third hour and volume showed a falling-off. U. S. Steel was down fractionally. McKeesport Tinplate, selling ex-dividend, was better than 2 points higher. Douglas Aircraft and National Aviation were more than a point higher.

General Railway Signal, Homestake Mining, Archer Daniels, Louisville & Nashville, General Mills and numerous others were up a point or more. Gains in the motors ran to a point and more, led by Chrysler and General Motors.

Sales to 1 p. m. approximated 920,000 shares.

Fourth hour prices were a shade under the best levels reached earlier in the session. American Sugar was better than a point higher. Monsanto Chemical, Wright Aero and Northern Pacific were a point or more higher.

Homestake Mining extended its gain to 3 points in this period. Libby Owens Ford was a point higher. Consolidated Cigar was up more than a point.

Sales to 2 p. m approximated 1,080,000 shares.

New England Rails Seeking PWA Loan

Washington, March 14 (INS)—The Lehigh and New England Railroad today asked the interstate commerce commission for authority to issue and sell to PWA $1,212,000 of four per cent equipment trust certificates.

The proceeds will be used in the purchase of 500 freight cars.

The Maine Central asked for approval of a $313,000 PWA loan which will be used in the purchase of 4200 tons of steel rails and fastenings.

Thompson, Inc. Profit $173,678

Cleveland, March 14—Report of Thompson Products, Inc., and subsidiary, for year ended Dec. 31, 1933, certified by independent auditors, shows net profit $173,678 after interest, depreciation, federal taxes, etc., equivalent, after annual dividend requirements on 7 per cent preferred stock, to 56 cents a share on 263,160 no-par shares of common stock. This compares with net loss of $182,098 in 1932.

N. Y. Central Has Loadings Gain

New York, March 14 (AP)—Freight loadings of the New York Central last week totalled 110,307 cars, the largest volume since the week ended Oct. 31, 1931, when the total was 110,366. In the preceding week this year loadings aggregated 108,379. A year ago last week they totaled 69,125 cars.

Tom Yawkey Lucky To Get 4 P. C. Return On Sox Investment ↕ *Has Spent as Much In Nine Months as Quinn Did in 9 Years*

By AUSTEN LAKE

Sarasota, Fla., March 14—Master Tom Yawkey, the New York boy millionaire who is buying Boston a major league pennant, is coming down soon to see how much more spending will be necessary to realize his dream. To date, by conservative estimate, he has spent about two millions and a half in junking a second-hand ball park and a second-rate club and rebuilding both, with apparently no thought as to how he is going to get his investment back again.

If Master Tom had kept his stake intact and hired it out in government bonds at four per cent, he would be sure of a $100,000 annual return without twiddling a finger, which is more funds than any club except the Yankees, Cubs and Giants, made all last season. And it is no secret that in the last 15 years, the Red Sox have never once made $100,000 clear in any season, though several times they have lost that amount and some more besides.

Master Tom had hoped to buy Boston a pennant this year to go with the beautiful bevels of concrete, the arched runways and

new stretch of green fairway, and he admitted he would be willing to spend another half million to buy the necessary playing strength.

In doing this he is reversing the process by which Bob Quinn had operated the club. Bob planned to build the team first and make it earn the new stadium, the blueprint plans for which were mouldering in his safe.

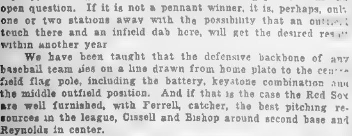
Quinn's Dreams Realized—For Somebody Else

Bob used to sit and day dream on his grandstand slope, peopling his park from his imagination and seeing world series visions, from which he would wake suddenly and go to moaning about the army of fans who were crying to lay their dollars on his ticket sills if only he could find a few ball players. Bob had made a considerable fortune for the late Phil DeC. Ball, by fishing in talented youngsters, and, now, he failed to understand why he could not make a fortune for himself by the same method

Sometimes he would sit in his inner office and examine himself, muttering: "I'm a practical baseball man, never been in any other business. I know every minor league manager in the country. My payroll is as high as any. I've got the best sporting public in the game. What is wrong?"

And finally, last month, nearly a year after selling out his interest and paying back his stockholders 100 cents on the dollar, although losing his personal fortune, Bob told me, "Well, I did the next best thing. I got Boston a man who could buy a pennant.' At the moment new, luxurious concrete stands were rising in the place of Bob's splintered, wooden ones, and Yawkey's cash was already buying up the league's stars at fancy prices

Broadly, Yawkey has already spent in nine months as much as Bob, in his cash-cramped condition, spent in nine years, being fortunate in the fact that he had ready money when most of the other owners were scraping the bottom of the barrel to shave off bank mortgages and to meet interest payments. Ball's refrigerating company needed quick money, and he sold Rick Ferrell without even consulting his manager. The eight railroad millionaires in Cleveland, who by this time were millionaires no longer, sold Cissell. Connie Mack, burdened with a huge payroll and a pathetic interest from the Philadelphia public, cashed in on Grove, Wal-



berg and Bishop, glad to get as much, or more, for his wan stars as he had paid in their prime

Sox Not Far From Championship

I estimate that if Yawkey and the new Red Sox drew half a million paid admissions at the gate this year they will barely glean 4 per cent on the investment, and half a million has been drawn only once, or twice, in the history of Boston baseball

What Yawkey, who will arrive simultaneously with Eddie Collins during the week, is going to find is a team taking shape rapidly, a strong defensive unit with its hitting power still an open question. If it is not a pennant winner, it is, perhaps, only one or two stations away with the possibility that an outfield touch there and an infield dab here, will get the desired result within another year

We have been taught that the defensive backbone of any baseball team lies on a line drawn from home plate to the centre field flag pole, including the battery, keystone combination and the middle outfield position. And if that is the case the Red Sox are well furnished, with Ferrell, catcher, the best pitching resources in the league, Cissell and Bishop around second base and Reynolds in center.

A Bad Break for the Snow Man When He Goes Collegiate on Grid

Helmeted and with a football tucked under his arm, Mr. Snowman defied his Everett high foes once too often. Herbert Palmer, right tackle, responded to the challenge, and his driving tackle bopped Full-back Snow into a thousand chunks. The wild grid action occurred when Denny Gildea took his Everett squad out for its initial spring practice Tuesday at the high school stadium. Coach Gildea will pilot his boys through more than a month of practice, winding up with a regular game at Leominster high on April 19. The team will be a state title threat next fall. (Boston American photo.)

BRAVES REAL FLAG THREAT IF BROWN CLICKS

By Joe Cashman

St. Petersburg, Fla., March 14—It's quite apparent at this early date that there'll not be a new face among the Braves at the start of the race, except on the mound, and few there.

Cantwell, Brandt, Betts and Frankhouse will do the bulk of the pitching. Hogan and Spohrer will divide the catching. Jordan, Maranville, Whitney and Urbanski will remain the infield. Berger, Moore and Worthington will patrol the outfield.

Manager Bill McKechnie would like to carry ten pitchers, six infielders, five outfielders and two catchers. Dick Gyselman and Joe Mowry are set as infield and outfield subs respectively. It is hoped that either Hal Lee or Tommy Thompson, flychasers, will qualify as an infield reserve. If neither does, one is likely to be cut adrift and an eleventh pitcher carried.

The only hurlers in addition to the "big four," who appear certain of their jobs at this writing, are Bobby Smith and Steve Swetonic, former Pirate

BROWN CONFIDENT

The contenders for the remaining berths are the veterans Bobby Brown, Leo Mangum, Ray Starr and Tom Zachary and the newcomers Dick Barrett, Lou Krause, Clarence Pickrel, Carmen Hill and Frank Gruenwald.

Brown, of course, not only will be safe but will supplant somebody on the ace quartet if his arm proves O K. If it doesn't there's no guarantee he'll be carried through another season as bench warmer.

The Nor[illegible] boy hasn't shown [illegible] yet but neither has any other veteran under boss orders. He claims his arm is as strong and as free of pain as it was two years ago when he was throwing the fastest ball in the circuit. He's confident he'll display all his old time speed when given permission to cut loose

His first appearance on the mound is awaited with [illegible] interest. Braves [illegible] will soar [illegible] if the Hub Howitzer has regained his hard one.

Worthington's surprisingly fine showing to date has cast fear into every National League camp in the Grapefruit Belt. Let Brown come through, too, and the Tribe will be rated an even-money pennant bet by rivals.

BERGER'S STATUS

The contract war between Judge Fuchs and Wally Berger is raging unabated but silently on both sides. Wally continues mum in Miami and the Tribal "prexy" remains the same here

Unless the home run king shows tomorrow, however, the Judge will say something and, maybe, do something

CANZONERI IN COAST VICTORY

Three-Score Everett Lads Revel on Snow-Clad Grid

By Bill Connell

[illegible]

One of them starts as best rows [illegible]

[illegible] able, in the regular season. Only five regulars from last year's powerful team are back. They are Ralph Freeman, captain and center; Johnny Yahoodik, left guard; [illegible] left end; and half backs Jerry Johnson and Sam [illegible]

The [illegible] fans already [illegible] Melford, Malden, Newton, [illegible] N H [illegible] and Warwick R I [illegible] now in progress may [illegible] Everett to Maywood, Ill., a suburb of Chicago, to face Proviso High [illegible] game of a two-year [illegible] series. The latter [illegible] by Everett [illegible] to even the [illegible] with Proviso, which won 7-6 in 1930 over Everett.

Two Tied in Bike Whirl

Chicago, March 14 (AP)—Alfred Letourner and Bobby Thomas, the French-American team, and "Torchy" Peden and Tony Schaller, the Canadian-American pair, were tied for first place at the 59th hour today in the international six-day bicycle race

QUINTS PAIRED FOR N. E. PLAY

Drawings for the New England Interscholastic basketball championships to be held [illegible] Saturday at [illegible] gym [illegible] were announced today by Clarence P Houston, director of athletics.

Tomorrow's schedule follows: 4 p. m., South Portland, Me., vs. Bridgeport, Ct.; 5 p. m., Chelsea vs. Manchester West High, N. H.; 8 p. m., Bristol, Ct., vs. Spaulding High, the latter winner of the Vermont schoolboy championship last night; 9 p. m., Westfield vs. Pawtucket, R. I.

On Friday night the semi-finals are scheduled with the final on Saturday night. Runners-up will meet in a consolation division on Saturday night

Matman Loses, Leaps to Death From Hotel Window

New York, March 14 (INS)—Following his defeat in a wrestling match, Jack Hurley, 215-pound professional wrestler, fell or leaped to his death today from the fourth floor of an hotel in the Boardway district.

Hurley, said by his friends to have been suffering from melancholy, was defeated last night in a match at the New York coliseum by Emil Dusek, 205-pound wrestler from Omaha.

Hurley arrived at the hotel early this morning and a few hours later his body was found in the rear courtyard.

Hurley was 26 and married. his mother, Mrs. J. B. Hurley, resides at Belmar, N. J.

Watson Rindge Captain

Braves Avenged, Beat Phils Out of '16 Flag

By Walter J. Maranville

CHAPTER IX

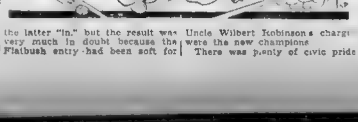
While the Braves cut very little ice in the 1916 flag struggle we did have the satisfaction of putting the Phillies, who dethroned us as champions the year before, definitely out of the running

The race was nip and tuck between the Dodgers and the Quakers down to the final week. We closed in Philadelphia, with the Giants in Brooklyn.

One defeat for the Phils or one victory for the Dodgers would put the latter "in," but the result was very much in doubt because the Flatbush entry had been soft for the McGrawmen all season and we had met with little success at Baker Bowl.

However, we knocked off the Phils in the first game and your Uncle Wilbert Robinson's charges were the new champions

There was plenty of civic pride



Evers Tipped Off Rab's Spree With Fight on Field

in ball clubs in those days. The day before we went into Philadelphia we were promised $5000 by the Brooklyn Chamber of Commerce provided we knocked off the Phillies

And the players back in those days fought their hearts out for every game regardless of their position in the standing. The modern player would think it silly to

Mr. Boston Says:—

Sharkey-Winston Outdoor Match Sought by Dunn

By Jack Conway

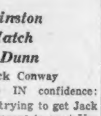
SPEAKING IN confidence: Dick Dunn is trying to get Jack Sharkey to consent to meet Unknown Winston in a bout at one of the local baseball orchards in June.

* * *

NICK LUTZE wired me from Chicago that he will be in Boston tomorrow, and prepared to sign for mat bouts with Paul Bowser.

* * *

MAX BAER TOLD Ancil Hoffman he was so certain he could knock out Primo Carnera that he was going to accept the match regardless of Jack Dempsey or anybody else.



Mr. Boston

* * *

BAER IS willing to take on Steve Hamas before he lets his right hand punch breeze for Primo's chin.

* * *

DR. WILLIAM MALONE of the New York Athletic Commission told me Carnera has the mentality of a 10-year-old boy. Which may explain why he is such a good fighter. The more one knows about the possible consequences of a punch on the jaw, the more cautious one becomes.

* * *

CARNERA'S huge size is due to a gland condition which probably will prevent his living until he is 70 years of age. Who would want to live that long, anyway? Newspapermen seldom do. Too much tension and irregular hours.

* * *

ADOLPH HEUSER is going to bring Vincent Hower, German heavyweight, with him when he returns to the United States from Germany in June. Johnny Buckley has been strong for Germans since he first saw Schmeling.

* * *

German Boxer Coming

WALTER NEUSEL, German heavyweight, who licked King Levinsky in New York, was once chilled by Heuser.

* * *

JACK McCARTHY of Roxbury, who fought a sizzling draw with Harry Allen at Quincy, will be on Dick Dunn's Dundee-McCoy card at Mechanics Building on March 22.

* * *

HONEY MELLODY of Charlestown says he will bewitch Pancho Villa of New Bedford when they meet in a ten-round go at Salem on next Monday night.

* * *

ANDRE ROUTIS, when world featherweight champion, refused a $35,000 offer from Dan Carroll to defend his title against Andy Martin of the South End. Martin is training for the New York Athletic commission's featherweight tourney.

* * *

HENRI DEGLANE will train in private in this city for his finish mat bout with Earl McCready, which will be held at the Garden a week from Friday night.

* * *

Leto Has Class

JOHNNY ROSSI of Worcester has been signed to meet Jose Rodrigues of Quincy in an eight-round bout at the opening boxing show of the Goodwin A. C. on March 20.

* * *

STEVE HALAIKO of Buffalo will arrive here Friday to finish training for his 10-round go with Werther Arcelli of the North End.

* * *

JIMMY LETO of Hartford, who clashes with Jackie Davis of Buffalo in another 10-rounder, has proved a sensation in bouts at Homer Rainault's Holyoke club. I could never understand why some Boston matchmaker did not show him here before now.

MAGUIRE, GIBBS, ADZIGIAN BID FOR BERTHS

By Walter Kiley

Crash! It's a home run. No, only a single. We forgot about the ground rules. Nothing but singles in this league.

Harvard doesn't need to go South as long as it has its Briggs indoor cage for training purposes. It is big and warm and does very nicely, thank you.

In fact, Fred Mitchell is holding a five-inning game there today. It's the first of the year.

Don't think the boys have to hunt for lack of room. They don't. They can lay into them with potent wallop, and the drives will be neatly trapped in billowing nets which completely shut in the diamond from side to side and from top to bottom.

The boys don't get credit for doubles, triples or singles, but they get the thrill of that solid thump.

NEVIN MAY NOT PLAY

After five solid weeks of battery limbering up and two weeks for the infielders and outfielders, the squad is rounding into trim.

Several of the most promising players, mainly those who have been engaging in other sports, are due to appear this week. They include John Wara, '35, center fielder; Frank Gleason, '34, first baseman, and Paul de Give, '34, pitcher, all members of the varsity hockey squad, as well as Phil Hines, '34, infielder, middleweight boxer.

Charlie Nevin, '34, catcher, is another letterman who is expected this week if football injuries permit him to play baseball this spring.

Dick Maguire, former Boston Latin and Exeter receiver, is catching on Mitchell's first infield lineup. Bramin Gibbs, also of Exeter and another sophomore, is at first base in this unit. John Fitzpatrick, a junior from last year's junior varsity, is at second base; Craig Woodruff, a junior and letterman, at shortstop; Ed Dana, a senior who played two years ago only to be ineligible last season, is at third.

HOVNANIAN TO REPORT

Mike Hovnanian and Fred Moseley, ice stars, were shortstop and second base, respectively, on the freshman team last year. They will report shortly. John Adzigian, football halfback, was an outfielder and captain of the freshman nine. He probably will be shifted to the infield.

Eddie Loughlin, captain of this year's varsity, is expected to be pitching mainstay. His supporting staff will consist of Dorilio Braggiotti and Martin Victor from the junior varsity, deGive, Don Gleason and Fred Lincoln, members of the 1933 squad, Fred Allen and James Campana.

Tad's Favorite Indoor Sports

Don George Wins at San Francisco

San Francisco, March 14—Ed Don George, 240, Boston, defended his 3-ray-weight wrestling championship here last night when he defeated Dean Dutton, 205, Salt Lake City, two out of tree falls.

New York—Sammy Stein, Newark, defeated Sam Cordovano, Columbia line coach, last night, the one fall of the match coming at 38.45. Emil Dusek pinned Jack Hurley of Ireland in 17.53.

Wingate Swim Captain

Andrew W. Wingate, of Arlington, N. J., has been elected captain of the 1933 Andovey swimming team.

B. U. Spring Track Starts Tomorrow

Boston University's spring track season gets under way tomorrow afternoon at the South Armory on Irvington st. Coach Win Marling expects to greet a large squad of new candidates, besides the Indoor track veterans.

Marling intends to drill the runners on Mondays and Thursdays indoors until the weather permits training at Nickerson Field.

TAP'S TIPS

MERCIER MADE 5-4 FAVORITE OVER MARTIN

By Jack Conway

Al Mercier will risk his gold and silver New England heavyweight championship belt when he quarrels with "Bull" Martin in a finish mat bout at the Arena MacLean show at the Arena tonight.

Mercier, one of the cleverest of the big fellows, has been installed a 5 to 4 favorite for tonight's go.

Mercier, as usual, is in good physical condition. He plans to set a fast pace from the start, and is of the opinion he will trap the "Bull" by one of his dazzling holds.

Martin isn't the least bit upset over the fact he will be opposing the New England champion. The "Bull" says the only time he becomes uneasy is when the old bank roll begins to get low. As Martin has been wrestling on an average of three times a week for the past year and a half, and getting fair sized purses, he hasn't a worry.

The "Bull" isn't concerned over the fact that Mercier is a fast, skillful wrestler. He says when he hits an opponent the latter forgets about scientific wrestling. The "Bull" has given special attention to his training for the title skirmish, and plans to have a championship party after the show.

The rest of the card follows:

SEMIFINAL

John Spellman, Boston, vs. Gene Ledoux, Quebec. (One fall to win —30 minute time limit.)

SPECIAL BOUTS

Gold Secret vs. Phil Allan, New York.

Bob Russell, Newport, R. I., vs. Lloyd Steward, Lynn. (One fall to win—20 minute time limits.)

PRELIMINARIES

Fred Moran, Newport, R. I., vs. Mickey Roach, Boston.

George Saunders, Boston, vs. Harry Lewis, Chicago. (One fall to win—15 minute time limits.)

Jim Wallis, Boston, vs. Ed Morgan, New York.

Tony Siano, Waltham, vs. Tarzan Weiler, New York. (One fall to win—10 minute time limits.)

Trials Tomorrow for Diamond Belt

The second elimination series in the annual Diamond Belt amateur ring tourney goes on tomorrow night at the club rooms of the Irish-American A. A. in South Boston. Classes, all open, include 128, 135, 147, 160 and heavies.

Reynolds at Sox Camp; Squad Now Complete

Sarasota, Fla., March 14 (AP)—With General Manager Eddie Collins due in camp today, Manager "Bucky" Harris is in the gratifying position of being able to report that all of his players have signed on the dotted line and are out there giving the "old college try."

Carl Reynolds, ex-St. Louis Brownie, was the last member of the squad to check in. He assured Harris that his salary figures were satisfactory and that personal matters were responsible for his delay.

Orlando, Fla.—The Brooklyn Dodgers have reached the ultimatum stage in their dealings with Ray Benge, veteran right-handed pitcher, who is holding out at his home in Huntsville, Texas. A telegram has been sent to Benge warning him if he doesn't report by Saturday he'll have to condition himself at his own expense.

Fort Myers, Fla.—Pinky Higgins, last remaining holdout among the Philadelphia Athletics, came to terms with Manager Connie Mack over a soda fountain, agreeing to a $5000 contract.

The last of the Mackmen to report, Bob Kline, leaves Columbus, Ohio, today for camp here. The newly-acquired pitcher hurt his arm in a fall, but is now ready for practice.

Fort Myers, Fla.—From his record so far this spring training season, it appears Young Hal Schumacher is going to be even more effective than he was last year.

The New York Giants' right hander has pitched eight innings against the Athletics in two games, allowed six hits and no runs.

Avalon, Calif.—Every time Manager Charley Grimm of the Chicago Cubs, besides an outfield of Chuck Klein, Kiki Cuyler and Babe Herman or George Stainback, he looks around in time to see Riggs Stephenson hit a clothesline drive with bit written all over it. Plans to sidetrack him for a younger athlete, appear a little premature.

Los Angeles—Manager Low Fonseca of the Chicago White Sox, is giving as much attention to a veteran, Ted Lyons, as to any of his younger pitchers.

Lyons, bothered by a sore arm for the past two seasons, says he is ready for another big year. Fonseca figures a good season for Lyons means a first division berth for his club.

New Orleans—The first casualty of the Cleveland Indians' spring training season is Monte Pearson, young pitching star, who stepped into a hole in the outfield and wrenched his ankle.

Shore Awards Trophy

Ottawa Senators want to know if every night is gift night at the Boston Garden. Last time they were here, Lionel Hitchman was presented with a purse of $1000 and a plaque, on his transfer from the Bruins to the Cubs. Last night Eddie Shore took time out to present the trophy named after him to the Cambridge Latin school student, winner of the Greater Boston Interscholastic championship.

Besides the trophy, the Cantabs received a hockey stick bearing the signatures of all the Bruins.

Those figuring in the presentations were Capt. Eddie Kooney, Faculty Manager Garrett Foley, Coach Jack Culhane, Leading Scorer Gerry Desrosiers and Joe Cleary.

HARVARD FACES YALE IN TANK

Harvard's varsity swimming team, undefeated in nine dual meets this year, is given but slight chance of winning from Yale as the two major rivals meet in the Payne Whitney gymnasium pool at New Haven tonight.

Yale is undefeated over a period of ten years. In that time it has won 125 straight dual meets.

The freshman teams of Harvard and Yale will meet in a preliminary to the varsity engagement.

VARSITY EVENTS

220-Yard Freestyle — Harvard, Ward, Devereux, Sherwood; Yale, Wilson, Livingston.

50-Yard Freestyle—Harvard, Scott, Wallace, Howe; Yale, Penn, King.

Dive—Harvard, Merriam, Ellis; Yale, Buckingham, Henry.

440-Yard Freestyle — Harvard, Ward, Borr, Devereux, Sherwood; Yale, Barker, Hoyt.

150-Yard Backstroke—Harvard, Stowell, Fisher; Yale, Campbell, Pierson.

200-Yard Breaststroke—Harvard, Leverich, Dearing; Yale, Sewall, Brown.

300-Yard Freestyle — Harvard, Scott, Fadden, Wyman, Howe; Yale, Corcoran, Whitfield.

400-Yard Relay—Harvard, Wightman, Parkes, Walkey, Scott, Winner, Howe; Yale, Penn, Wilson, Corroon, Livingston, Barker, Whitfield.

Wrestlers and Ladies

Ruth Muggleberg, feature writer on the Boston Evening American, will be in the press row at the Arena tonight when "Bull" Martin attempts to lift Al Mercier's New England heavyweight wrestling title.

This gifted writer will give a woman's reactions to a wrestling match. She will occupy a seat against the ring, and in the event any wrestlers come through the ring at the point where she is seated she will describe how it feels to catch a giant like "Bull" Martin in one's lap.

Jack Conway will also write a story on the title bout.

Vance Expected to Lead Reds Climb

By Davis J. Walsh

Tampa, Fla., March 14 (INS)—Among the delightfully informal and altogether appealing institutions hereabouts are the Cincinnati Reds, who seem to be training here largely by car and devoting four hours a day to it. Nevertheless, the Reds appear to be going some place, although Mr. O'Farrell, the new manager, may not know exactly where—except out of the cellar.

The Reds have at least one side of an infield, Bottomley at first base and Tony Piet, from the Pirates, at second. Mr. O'Farrell cannot comprehend how the Pirates happened to let Piet go. He thinks Piet is the best second baseman in the league, not barring Frisch. On the right side he has any number of candidates, some of whom are even fair.

INFIELD CANDIDATES

He has "Sparky" Adams, Mark Koenig, from the Cubs; Tom Robello, up from Rock Island; Walter Bohl, from the same place, and Leslie Mallon, from Toronto, for third base. Mallon, who failed with the Phillies, seems to have the call now.

For shortstop, there is Koenig, Gordon Slade, Joe Morrissey, with last year's Reds, and George Wise, up from Topeka. O'Farrell likes Wise. He's a gangling youth who moves around swiftly and gets the ball away fast.

Others he likes are Al Hollingsworth, a left handed pitcher from Rock Island where he won 15 and lost 8; Francis Ambrose La Vogue, a "car fare" purchase from Berkeley, Cal., and Arthur Charles "Dazzy" Vance. The latter is only 41—according to statistics—and is just starting in, according to Mr. O'Farrell, who said today:

"He's going to surprise everybody.

"Except me," he added, hastily.

He said he had brought Vance over from the Cardinals with him because he knew the gentleman could and would win 15 games. He is mind.

won three at the close of last season and that convinced Mr. O'Farrell who now says that Vance is in the best condition he has known in the last five years.

PITCHING A PUZZLE

The outfield is simple; the pitching much complicated. They have 18 pitchers in camp—that they know about. I asked O'Farrell to name the four best, and said he:

"Larry Benton, Paul Derringer, Si Johnson and Arthur Charles Vance."

In other words, the man's story stands up under cross examination, and quite obviously Arthur Charles Vance is, indeed, a pitcher.

His outfield is Adam Comorosky, from the Pirates; Chick Hafey ("the best outfielder in the league" —O'Farrell); Johnny Moore, from the Cubs; Harry Rice and John Gill from Chattanooga. It could be better. As a matter of fact, I have reason to believe that Mr. O'Farrell has a trade coming up with that

FIELDER JONES, OF BASEBALL FAME, DEAD

Portland, Ore., March 14 (US)—Fielder Allison Jones, who led the famous Chicago White Sox "hitless wonders" in 1906, was dead here today. Jones was brought to a hospital following a severe heart attack early last week. He was 63 years old.

Those "hitless wonders," with not one .300 hitter in the lineup, trounced the Chicago Cubs in the World Series of 1906, four games to two. The Cubs of that year were supposed to be invincible. They hung up a world record of 116 victories in the pennant race, against 36 defeats, and had three .300 hitters — the batting order, Steinfeldt, Chance and Kling. But the "hitless wonders" outhit the Cubs in the series.

Fielder was appointed manager of the club in 1904, and in 1906 it won the championship. The team's weak hitting had kept it in the second division before 1906, but smart baseball and Jones' aggressive leadership lifted the team to the top. The White Sox won 19 straight games in 1906 and stole 209 bases.

File Contracts for M'Coy-Dundee Go

The necessary contracts have been filed and J.I McCoy, Dorchester middleweight, will do battle with Vince Dundee, middleweight champion of the world, in Mechanics Building a week from tomorrow night.

Dick Dunn, on behalf of the Sharkey A. A., will promote the combat.

Final Spurt Triumphs for Moynahan

New Haven, March 14—Shadowing his rival for 1300 meters, Brendan Moynahan of the B. A. A. jumped Glen Dawson with a lap and a half to go and won the 1500-meter race, feature of the Connecticut A. A. U. indoor track meet.

Moynahan summoned up all his reserve strength to pass the Tulsa Flier, national 100-meter recordholder, and then grittily continued to win by two feet.

Other Boston A. A. entries fared well in the meet. Harold McGuigan finished third to Milton Sandler and Eddie Blake in the 600-meters. Tom McDonough and Mik Portonova were second and third, respectively, to Joe McGlinsky in the two-mile run; and Oscar Sutermeister, formerly of Harvard, finished third to the Yale vaulting twins, Keith Brown and Wirt Thompson. Sutermeister did 13 feet 6 inches.

Dick Bell of M. I. T. won the 40-yard dash. Janell of Fordham was second.

Seven Named to British Golf Team

St. Andrew's, Scotland, March 14 (INS)—The Royal and Ancient Golf Club today made public the names of all but two of the British golfers who will compete against an American team in the Walker Cup matches to be played over its links May 11 and 12.

The Hon. Michael Scott, veteran now in his fifties who won the British amateur title last year, will captain the team. Seven others were named as follows:

Roger Wethered, Cyril Tolley, T. A. Torrance, H. G. Bentley, Eric Fiddian, Jack McLean and S. L. McKinlay.

The Walker Cup matches will be played this year at St. Andrews May 11 and 12, 10 days before the opening of the British amateur at Prestwick.

The United States team was selected in January and is composed of the following: Francis Ouimet, Captain; George T. Dunlap, Jr., United States amateur champion, H. Chandler Egan, Johnny Fischer, Johnny Goodman, United States open titleholder, Lawson Little, Max R. Marston, Gus Moreland and Jack Westland.

Leaf Ace Out of First Playoff Tilt

Toronto, Ont., March 14 (INS)—Due to an aggravated leg injury, Harvey Jackson, stellar left winger, will probably not be in the Maple Leaf lineup for the playoffs with the Detroit Red Wings next week.

Raftery Named Pro

Bill Raftery has been named golf professional at the Meadowbrook Golf Club, Reading.

BRUINS UPSET SENATORS IN HOME FINALE

By Bill Grimes

Now that the Bruins have wound up their regular home games and have only two more contests listed before the curtain falls on their ninth season in the National Hockey League, the fans will turn to the Cubs, who are in the midst of a battle for a Canadian-American League play-off berth.

After a wild tussle the Bruins chalked up their fourth consecutive victory at the Garden last night by defeating Ottawa Senators, 5 to 1. Although the contestants' games are both out of the running, the game was as hard fought as though they were trying to get into the post season series. Unfortunately, the game was marred by poor officiating.

PERK STARTS SCORING

Perk Galbraith put the Bruins out in front in the first period when he counted from just inside the blue line, the puck getting away from Bill Beveridge. But in the middle chapter, Earl Roche passed out from behind the Boston cage to Nick Wasnie, who beat Ivy Thompson for the equalizer. In the third period, the Ottawa defense made the fatal mistake of leaving Nels Stewart uncovered, and the big Bruin center picked up a pass from Joe Lamb and tifled home the deciding tally.

The Cubs left this morning for New Haven where they will meet the Eagles tonight. The junior varsity must win in the Elm City, for the fourth place Arrows are playing Quebec in Philadelphia tonight, and a defeat would leave them only one point up on Herb Gardiner's charges in the event of a Beaver defeat.

REFEREES INCOMPETENT

There is no denying the fact that the outcome of the Bruins-Ottawa game did not mean a thing, yet, in view of the fact that Boston is one of the best teams in the circuit, Managing Director Frank Patrick should have assigned a team composed of pair of referees than George Mallinson and Dinny Dinsmore.

Referees who allow themselves to be pushed around, as did Mallinson and Dinsmore, cannot expect the respect of the player or the fans. It was a terrible exhibition. Certainly, there was no serious trouble.

Red Beattie and Scotty Bowman started to mix it up in the third period, but neither did much getting. Nels Stewart tripped and fell on Beattie, and then there was nobody for Bowman to battle.

Eddie Shore was lucky he did not break a bone in his arm when he raced in for his own rebound and crashed into Bill Beveridge's goal stick. Shore was ordered to retire for repairs but he was soon back in action.

SPORTS

RABBIT'S SPREE ENDS IN TIFF WITH EVERS

Continued from Page 16

take the sport as seriously as the old-timers did.

Let me illustrate.

Early in the race in Philadelphia, Jess Barnes and I decided to do a little celebrating and, after we started, promptly forgot all about the little part of it.

The next morning's sun was just rising as we returned to the hotel.

"No sense going in now," I said. "We'll fall asleep and won't wake up in time for the game. We better go right out to the park."

So up we staggered out Broad st. to the field. Naturally we couldn't get in at that hour of the morning, but we didn't let that bother us.

A stone wall about five feet high and almost as thick rambles outside the wooden outfield fence of the orchard. Up on this we hopped, stretched out and fell off into a sound sleep.

We snored on our conspicuous perch, in full view of countless thousands of passing pedestrians and motorists on that busy thoroughfare until noon.

The sleep, sun and heat had completely sobered us, and we walked into the clubhouse an hour before anybody else, looking none the worse for our night of elbow bending.

We weren't so sure, though, that we wouldn't hear something of our actions from Stallings, but when he arrived he greeted us cordially enough.

THE GIVE AWAY

However, just before the gang left the clubhouse, George gave us quite a start.

"By the way, Rabbit," he asked, "why weren't you at the meeting I called at the hotel this morning? Where were you, anyway?"

"I didn't know anything about the meeting," I answered, which was the truth. "I went down town shopping."

"I didn't see you there, either, Barnes. What's your excuse?" George continued.

"I went along shopping with Rabbit," Jess fibbed.

"All right," the boss said, "but don't let it happen again. I want everybody at every meeting."

I thought I had put it over very nicely. The last person I figured would ever give me away, if, indeed, he knew what happened, was Johnny Evers, then my "roomie" and still my good pal.

Yet that's what happened.

Late in the game I raced over toward second after a grounder and missed it by a fraction of an inch.

Evers, playing second, went white with anger.

"You little so-and-so," he bellowed in a voice that could be heard by everybody in the park, "if you weren't out running around drunk all last night and this morning, you might stop a ball occasionally."

From where I was, I could see the fire coming to Stallings' eyes on the bench.

Then to make matters worse, Umpire Bill Klem took a hand in the affair.

"Shut up out there, Evers," he commanded.

KLEM CHASES JAWN

Relishing nothing better than an argument with an "ump," Johnny forgot all about me and started for Klem. Before he got half way to the plate, he was chased.

Johnny and I had a hot and heavy verbal war in the clubhouse.

"The greatest shortstop in the world as sober as a judge couldn't have gotten that ball," I maintained, "and furthermore, you have a few skeletons in your closet."

"Why don't you pay your bills? I am sick of being pestered by that guy who is always hunting you for some money due him."

"I don't owe him a dime," Johnny roared."

I didn't believe him, but I forgot all about the whole incident the next day.

Not Evers, though.

Three years later, when he was no longer with the club, he hunted me up in Chicago one night just to show me the receipt proving he had paid the money.

Yes sir, the player of yesterday took baseball seriously. And the game was much better for it.

Continued Tomorrow

B. U. Coach List Cut to Seven

Boston University Faculty Council on Athletics has cut down a list of 165 candidates for the gridiron coaching post to seven men, Dean Frederick Rand Rogers, of the Department of Physical Education and Athletics, revealed at the Founders' Day dinner given by the B. U. Club of Boston at the Chamber of Commerce building.

Player control is definitely out, Rogers added.

In speaking of the athletic schedules in the next few years, Dean Rogers said that the Terriers will meet Boston College, Brown, Tufts, Rutgers, New Hampshire, Bates and Vermont on the gridiron.

B. C. Four to Run in New York Meet

Coach Jack Ryder was scheduled to hold time trials at Boston College this afternoon to choose the fourth member of the one-mile relay team that runs in the K. of C. meet in New York Saturday night.

The fourth berth is the bone of contention. Frankie Eaton, Bill Malone and Jimmy Joyce are battling for it.

The only other Boston College entry in the New York meet is Neil Holland, the blond hurdler. Ryder expects him to place.

Jordan's Quintet Tops Philly Giants

The Jordan Marsh Lions' basketball team held a victor over Philadelphia Colored Giants to their credit today. Trailing, 18—22, entering the second half, the Lions staged one of their customary rallies, to beat out the colored visitors, 41—38.

The game was played at the Boston Y gym.

THE CASE OF THE THREE LETTERS

Clue No. 3—The Ante Is Raised

Two letters have been received by Angus McKay, well-known financier, one threatening to kidnap his son and the second directing the millionaire to place $50,000 in a certain yacht moored on a nearby lake. Secret Agent X-9 knows the letters have been mailed by one of the four tenants of a certain house in the suburbs.

It was with some difficulty that X-9 persuaded the worried father to refrain from putting the comparatively paltry sum demanded on board the yacht.

"I will guarantee that our man will write again," the secret agent told McKay. "The yacht is moored at the end of a narrow point of land. Our criminal can easily see if anyone follows you to the rendezvous. He will slip from our grasp if we give in now. We must play a waiting game."

The very next day he was vindicated. No attempt was made to kidnap young Malcolm McKay when the appointment was not kept, but a third letter was received by the millionaire.

"I will give you one more chance," it ran, "but the ante has been raised. Take with you $100,000 in cash and unmarked, and go to the second performance at the State Moving picture theater tomorrow evening. Take a seat in the back row, and when the orchestra starts playing the overture, which is Berlin's 'Rhapsody in Blue,' leave the packet on the seat and go out. I will know if I am being watched or double-crossed, and this time I will be ruthless."

"The case is over," said X-9 to the astonished banker. The author of the three letters will be under arrest within a few minutes."

WHO WAS THE WOULD-BE KIDNAPER—

AND HOW DID SECRET AGENT X-9 PICK HIM OUT FROM THE FOUR MEN LIVING IN THE HOUSE?

RULES OF CLUE CONTEST

This is the third and final of the three questions.

The three answers must be in the mail and postmarked not later than MIDNIGHT THURSDAY. All answers have to come in together with SECRET AGENT CLUB X-9 MEMBERSHIP CARD NUMBER. No attention will be paid to answer not containing number.

Be sure to mail your answers to the Clue Contest Editor, Post Office Box 666, Boston, Mass.

NEW ENGLAND'S GREATEST EVENING NEWSPAPER

BOSTON EVENING AMERICAN

WEDNESDAY, MARCH 14, 1934

LARGEST EVENING CIRCULATION BY MORE THAN 80,000

Sign the Protest

Loyal Americans who want their country kept free of foreign wars and foreign entanglements will do well to sign the petition which will be published tomorrow and mail it to this office, 5 Winthrop sq., Boston, and get your friends to sign either this petition or a duplicate now to be found in drug stores and news agencies.

That is about the only way in which you, as a private citizen, can protest against the attempts that some so-called Americans are making to involve us in the League of Nations and the League Court.

One million signatures are sought for this petition.

The document will then be placed before Congress.

It is highly necessary that Congress should hear from the American PEOPLE on this vital issue.

Congress AND the American people for years have been subjected to an insidious propaganda campaign, with millions of dollars behind it, designed to enmesh us in the quarrels of Europe and Asia.

This campaign would have us forget the wise counsels of George Washington to mind our own affairs, and would have us attempt to mind other nations' affairs.

It would make us a party to foreign bickerings and jealousies, and would inevitably draw us into the wars which may break out at any moment on the Continent or in the Far East.

We want our country kept out of such wars, and we want such wars kept out of our country.

If we enter the League or the League Court, with or without reservations, we cannot keep out of such wars, and we cannot keep such wars out of our country.

Your signature to this petition is a vote for PEACE.

It is a vote for SAFETY.

It is a vote for SECURITY for yourself and for every other American.

Sign your name, ask your family and friends to sign their names, and send the slip to this newspaper—if you value peace, safety and security FOR YOURSELF AND FOR YOUR COUNTRY.

Sales Tax Proves Value

Miscellaneous internal revenue has poured into the national Treasury at Washington since last July. The receipts from these sources have been in excess of a Thousand Million Dollars. This is double the Half-Billion collected in the same period a year ago. It was exceeded only by the post-war period, when high war taxes were still in vogue.

"Miscellaneous internal revenue?" you ask. "What is it?"

Well, it's taxes on beer, liquors, gasoline, cigarettes, admissions and the like. In other words, it's sales taxes.

You see the benefit of the sales tax as a revenue producer, even in times when general business is below the prosperity level.

You say to yourself, "If it's great now, it would be wonderful in normal times. See how it would bring down the new high taxes on real estate."

Yes, that is true. But there are still other questions.

"Why limit the sales taxes to a few items of merchandise? Why discriminate against them? Why not a general sales tax? It would be just, equitable and would produce larger revenues than we now obtain."

There is only one answer to these questions. Adopt the general sales tax.

Carnival Today!

Perhaps you will go to the Great Carnival in the Boston Garden today.

You should.

The carnival begins early this afternoon and it will be continuous until 2 o'clock tomorrow morning.

There will be entertainment, varied and galore.

The entertainment itself, with singing, dancing and innumerable stunts, will be worth much more than the price of admission.

More important, every penny you spend for the price of admission will go to the poor, and the needy of Boston.

This is the last week, and this carnival is the last great feature, of the annual drive of the Boston Emergency Campaign for charity.

This campaign has set itself to a goal of Four and One-Half Millions of Dollars. It still requires nearly Two Millions of that amount.

Don't permit it to fail. The honor of Boston is at stake. Charity is the demand of the day. Give to this campaign, give generously and with goodwill. The poor and needy of Boston call to you for help. Answer their prayers.

Banks and Business

Professor Oliver M. W. Sprague of Harvard says the outlook for permanent recovery in this country is hopeful.

A year ago the whole question of rehabilitation depended upon positive action by the government.

Now it depends upon the business interests themselves, as Professor Sprague well says.

"If business men will be enterprising and willing to take a few risks, it is likely that a permanent improvement in conditions will result."

Professor Sprague is more distinguished for his conservatism than his optimism.

When he says that the future depends upon the aggressiveness of the business men, he should include the bankers by all means.

The average business man is willing to take all necessary risks. He is anxious to see his business grow and develop. He is eager to provide employment because increased employment is the necessary complement to increased business.

The business man, however, can not achieve these results of his own accord. He must have money to finance the purchase of raw materials and to manufacture the finished products. In other words, he must have credit from the banks. Business is likely to recover to the extent that the bankers loosen the strings of credit.

The King Prefers Skirts

Traditions sometimes get their start in strange ways.

A couple of centuries ago a Queen of Sweden earned the disapproval of the Court by wearing pants.

In 1934 the King of Sweden, who, at the age of 70, still plays tennis, won't go on the tennis court with a woman player who wears shorts.

Tradition dictates that a Swedish King—even one with the most liberal, modern ideas—must disapprove of women wearing pants.

So Gustav can't enjoy playing with first-rate women players who think shorts more convenient and comfortable than swirling skirts.

Blame his great-great grandmother!

Make It Another Washington Monument!

By Nelson Harding

Let this Nation-wide petition
"This gigantic plea and protest
Of a patriotic people
Against our participation

In Old World ensnaring tangles
Be as prominent a landmark
As the monument erected
To the Father of his country.

O. O. McIntyre

New York Day by Day

Harlem Droops

New York, March 14—Harlem's hi-de-ho continues muted. The cafes can't raise a corporal's guard at the usual after midnight invasion. Bawdy spots such as "Dickie's are desolated. The passing of Aileilia Walker, kinkno-more heiress, stopped the huge afternoon teas and Sunday spirees. The Black Belt droops.

Jules Bledsoe, the "O" Man River," who used to send Sugar Hill rentals sky-rocketing when he took an apartment there, is dividing his time between concerts on the continent and his farm in Delaware county, upstate. Adelaide Hughes is marking time in her mansion "among the white folks" in Larchmont.

Carl Van Vechten, so long a regular, is no longer seen. Paul Robeson spends most of his time in Europe. Bill Robinson in his $14,000 Dusenberg has been barnstorming with a quick step, ng revue. Nora Holt is in a Singapore club and not even rioting can dislodge Josephine Baker from her Paris haunts.

The only 13-karat headliner left is Ethel Waiters, although a few of the lesser lights cling. Such as Harlem's Buddy Rogers, Henry Wessel, Eddie Manchester, known as Harlem's best dressed colored man, and John Nail, the big shot realtor. Even the number game languishes. Harlem isn't Harlem any more.

* * *

Olga Petrova in her day was regarded as the stag most astute business woman. Her contracts were air tight and she was first to have employees pay her income tax.

There is the story of a young lawyer who did some work for Miss Petrova and sent her a bill for $2500. She lopped off the $500. He as never able to convince her of the justness of his claim. Finally he went to his senior partner who listened and replied: "My dear lad, in handling Olga Petrovas of the world is to do more billing and less cool, g."

* * *

Mary Hay, long absent from the Broadway stage, is turning "actious" to playwriting on her own. She can have all the dancing engagements she desires, but prefers the new field.

* * *

Canna Walska, voluptuous and rosy-cheeked, indulges the sauntering of the Parisian boulevards in her New York exile. Many evenings she is seen window shopping along Fifth and Madison aves., or strolling in Central Park. She is little recognized, although many, on account of her foreign manner, turn as she passes.

* * *

At Frazier Hunt's I began reading "Out of the Test Tube." Astounding facts about chemistry written in baby talk for the layman. And then half way through the book I glanced for the name of the author. It was Harry N. Holmes, Ph.D. He was my professor of chemistry at old Gallia Academy. A cub just out of college and shy as a dove. Had he then made chemistry as interesting as he does in this book I might be peering into test tubes today instead of annoying the public with this.

Wilton Lackaye's favorite small town story concerned the soda buster in the city for the first time passing a sign, "Soda and Billiards. In his burg they had only pool halls such as Joe's 2½ cents a cue. So he stopped in at the soda fountain and said: "Mix me up a billiard!" The jerker nudged his fellow worker: "Get this one! He wants us to mix him a billiard!" So they compounded a concoction of sour dish water, floor scrapings and a strand of sour mop and passed it out.

When he finished, the clerk asked how he liked it. Smacking his lips and drawing his hand across his sleeve he said: "Fine, but if I wasn't such an old billiard drinker I'd thought it was something else."

Listen World!

By Elsie Robinson

Why Are the Pious Peeved?

I do not admire Bad Pastanor advocate them—but they certainly seem to have their points.

Perhaps you've noticed it yourself—Theoretically, people with blemished records should be miserable, haunted creatures, at odds with life and their neighbors—regular killjoys.

And the Shining Examples should be mournful pools of peace and happiness and good will toward their fellow men. But usually it works out just the other way!

THE BAD HOMBRES ARE GENIAL AND GENE-ROUS—

Elsie Robinson

AND THE MODEL CITIZENS SEEM TO CARRY A CHRONIC PEEVE!

Instead of radiating confidence and brotherly love, they're generally on the snoop for naughtiness and as full of suspicion and intolerance as a pup is of fleas. Instead of sitting in rapt contemplation of righteousness, they're always trying to dig up some dirt!

If I didn't know their hearts were humming with hosannas, I'd suspect they were suffering from a lot of stifled desires and unsatisfied curiosities and were taking out their grouch on every sinner that came along.

For example, observe these immaculate Old Ladies (of both sexes) who have never departed from the path of rectitude by even the teeniest, weeniest, bit of a skid—wouldn't you think they'd be all of a glow over the fact, fairly beaming to think of the temptations they passed up? But instead, just watch them when some Flippant Fluff breezes by with a bunch of Boy Friends in tow. Listen to the snorts, snaps, sneers, snarls and sniffles. Now I say you—

Is that a defense of righteousness or a celebration over virtue . . . OR IS IT JUST A BLAST OF PURE ENVY?

If you want a loyal, generous, tolerant, understanding, jolly, Regular Guy for a friend, do you seek out some Pillar of Society with an unblemished record?

Well, maybe YOU do, stranger, but believe me, I DON'T. I've learned better. When I want a side-kick like that, I pick me a good hard working gambler or hijacker or hobo or other general wastrel. Not that I admire vice—but it's generally a whole lot easier to get along with than virtue.

For sinners seem to have gotten it all out of their systems. They've tried everything once. They know what it's all about. They've had their conceit and their contrariness kicked out of them along with their curiosity and now they're willing to settle down and take things easy and give everyone the benefit of the doubt—

But Model Citizens are apt to be awfully picky. They've got a lot o. righteousness but none of it seems to be doing them any good. Maybe they're glad they resisted temptation, but they don't look it.

THEY LOOK MORE AS IF THEY HAD AN INGROWING CASE OF SOUR GRAPES AND WERE JUST WAITING FOR AN OPPORTUNITY TO GET EVEN ON THE TOUGH, ROUGH GUYS WHO TOOK THE CHANCES THEY PASSED UP.

POST-MORTEM MAIL

They have not missed him. Still they write
Their business letters in his name.
And send him printed pamphlets bright
Which his attention used to claim.

The postman brings his mail to me.
I turn it over misty-eyed
And wonder can it really be
So few were shocked the day he died?

That day I thought the whole world wept
To hear the news that he had gone.
How strange it seems so few have kept
The memory of his passing on.

Oh, how I wish they would revise
Each coldly selfish business list
Intended wares to advertise
And let me think that he is missed.

Daily Bible Text

"For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord."—Isaiah lv. 8.

By the Rev. Lewis Smith, N. E. Evangelistic Association, Boston.

Human Side of the News; Modern Witchcraft

By Edwin C. Hill

"Double, double, toil and trouble; fire burn and cauldron bubble. Eye of newt and toe of frog, wool of bat and tongue of dog. By the pricking of my thumbs, something wicked this way comes."

Witchcraft in the making, pictured by the greatest writer who ever put pen to paper. And not an evil thing of the distant past, but practiced in this very day and age by the secret, black, and midnight hags that Shakespeare so powerfully portrayed.

From half a dozen far separated parts of the earth come tales of witchcraft—from England, Portugal, Mexico, Canada, Pennsylvania and East Africa. Down in the tropical hills of Mexico a woman of forty-five stands accused of casting spells over her neighbors. In the village of El Almagre, beyond the Rio Grande and close to Chihuahua City, thirty witnesses have gone to the authorities with a tale of how Senora Maria Bermudez worked her wicked arts upon them, so much that they frothed at the mouth and spoke at the rate of a thousand words a minute.

The Mexican enchantress is accused of putting human faces on donkeys and conjuring up cows which, walk upside down, like flies on a ceiling. And the State Attorney General of Mexico is seriously engaged in investigating just how the senora accomplishes her spells, whether by hypnotism, or poisons, or what.

STRANGE PRACTICE

In northwestern Canada a detachment of the Royal Canadian Mounted Police has another such case to deal with. At that time a squaw was killed by a medicine man of the Saltsaux Indians because she had become delirious in an illness and was believed to be inhabited by the Evil One.

From Wales comes the story of a witch who drives out devils and cures illnesses by slitting the ears of the affected ones.

Cardiganshire and Montgomeryshire, witches treat heart disease by giving the sufferers a pint of old ale, into which has been dropped a piece of steel from the blacksmith and a pinch of saffron.

In Portugal the authorities are waging a campaign of extermination against witchcraft and sorcery among the peasants. In a small village near Oporto the burned body of a woman was found. She had been burned to death in obedience to the instructions of a local witch. The woman, whose name was Arminda Jesus, was believed to be afflicted with devils.

First of all the neighbors went to her home and flogged her with a whip. Then they took her to the village square and placed her on a pyre of straw. While the fire burned and the unfortunate woman died, they prayed and sang and danced around the blazing pyre.

Since most of our news comes from large centers of population, superficially more civilized, we don't hear much about witchcraft, but there is plenty of it abroad in this world, and right here in the United States.

It is very common among aboriginal peoples, such as the Zulus of South Africa, the Indians of the Northwest and the Blackfellows of Australia. Only recently two old women were killed in this country under the delusion that they were witches.

According to the definition of Lord Coke, a witch is a person who has sold her soul to the devil and can therefore call him at any time of the day or night. The burnings at the stake in the Middle Ages—more than three thousand witches were burned to death in Essex, England, in Cromwell's time—and the celebrated hangings of witches in Salem, Massachusetts, in Cotton Mather's day, were expressions of the belief as expounded by the learned judge.

There are rural districts in Essex today, only 30 miles from London, where the black arts still lurk, Christianity has not yet stamped out these superstitions and rites of paganism.

As late as 1706 in this country, the burghers of Virginia, deciding that Mrs. Grace Sherwood was a witch, threw her into the James River. She did not sink, and that was held against her, but in some way not revealed by the records she was able to disprove the charges and live on for another thirty years.

It has been only a few years since the British forced the Zulus to put an end to witch hunting—a frightful custom in which medicine men and old hags darted here and there, like so many bloodhounds, touching this man and that with the tips of their fingers, the signal for his instant death under the spear.

AN UGLY THING

And in Tanganyika, East Africa, just the other day 71 tribesmen were convicted of killing two women as witches. The witch doctors in present-day Africa have such a hold on the natives that along the Gold Coast the Anglican missionaries have made a standing offer of $50 to any person who can transform himself into a beast, a bird or a creeping thing; who can extract an article from a sealed box.

This black magic business was bred into mankind for centuries before the wheel was invented, when the first man and woman lived in caves and quaked to the savage roar of the sabre-toothed tiger. Reason gets us away from it or most of it, although we have never thoroughly been cured, nor will be until we throw aside "hunches," walk boldly under ladders, take three lights from the same match and undertake important enterprises on Friday, the 13th. There it is, this ugly thing in a beautiful world, squat like a toad at the cross roads of fate.

People of U. S. to Get Truth Of Air Mail Blunder

By James T. Williams, Jr.

Justice without wisdom is impossible—Froude.

Public sentiment will approve the decision of the Secretary of War to convene a special committee of aeronautical authorities to evaluate and report upon the adequacy and efficiency of the technical flying equipment and training of the Army Air Corps for its new unexpected, non-military and doubtless temporary mission of flying the federal air mail.

Public sentiment will see in the course taken by Secretary Dern the path of wisdom that leads to justice—justice to the ten heroes of the Army Air Corps who were sent to an unnecessary death because they were ordered upon a non-military mission for which they were given neither time to train nor the equipment essential to its performance without needless risk.

PATH TO JUSTICE

This path of wisdom will also lead to justice to the surviving comrades of these dead heroes, their comrades, who fly the colors in training to defend the colors in war.

This path of wisdom will also lead to justice to the American people in possession of the truth. A special committee will put the people in possession of the truth about the conditions under which the Army Air Corps was suddenly ordered to perform a mission which Congress never authorized and for which Congress never made the necessary provision. Even now, nearly a month after the Army Air Corps began flying the mails, the army pilots are dependent upon the credit which their character commands for the money with which to pay their expenses.

Once in possession of all the facts about the conditions under which the Air Corps was cheerfully undertook a mission for which they had been given neither training nor equipment, the people will then be in a position to refute the cowardly slanders and mean insinuations of those self-styled aces of political aviation in and out of public life who would have their countrymen believe that the only reason 10 officers of the Army Air Corps have been killed in the last 20 days is because they did not know how to fly.

In addition to the able army officers assigned by Secretary Dern to this committee, the two best known civil authorities on aviation have been invited to accept membership on this fact-finding mission. They are, Orville Wright, who with his brother, the late Wilbur Wright, are rightly honored the world around as the fathers of aviation and Col. Charles A. Lindbergh, the federal air mail pilot ace. After training at the army flying school, Lindbergh prepared himself as an air mail pilot for the transatlantic flight that brought new honor to the flag.

Congress meantime did not await the report of the Secretary of War's aeronautical committee to frame legislation for the Army Air Corps. Pending before the House is a carefully drawn and comprehensive bill for the expansion of the Air Corps to a strength commensurate with its responsibility under the National Defense Act. This measure has the wholehearted approval of the general staff, which is the co-ordinating agency of the War Department. It has the approval of the chiefs of branches, including the chief of the Army Air Corps. And it seems reasonable to assume that the Secretary of War would not have submitted this measure to Congress had he not been assured that it met with the approval of the President and the commander-in-chief.

UP TO CONGRESS

Under the constitution, the power to raise and equip armies and provide and maintain a navy is entrusted to the Congress. The Congress cannot delegate this responsibility to the executive branch of the government. Neither can the Congress shirk this responsibility year after year and expect ultimately to escape the blame for the dodging of its sworn and constitutional duty.

For the last nine years the Congress has failed to appropriate the money necessary to carry out its five-year program for the building up of the army air corps. For the last nine years the Congress has starved not only the air corps but every other arm of the land forces.

Now is the time and Congress is the place for the building up of the national defense. If Congress will address itself to this task instead of trying to escape the blame for the past neglect it will also pursue the path of wisdom that leads to justice.

Stars and Stripes

This is federal income tax week. Put up or get shut up!

Cuba is reported on the verge of another outbreak. It is suspected that Juan Blas Hernandez is heading north with another cow.

Anyhow, our Army airmen are trained to drop bombs, not letters.

Andy Mellon declares he paid twenty million dollars income tax in twenty years, but he appears to have made the mistake of having some small change left.
